

ICE. PURE AND SIMPLE™

Hotel Dispensers

ICE-O-Matic's hotel dispenser series is ideal for small spaces with high volume ICE usage needs. Our Pure and Simple design provides you with years of reliable service.

Simple to Clean

Easy access to the bin for cleaning without moving the ICE Machine. Interlock safety switch turns off machine agitation when top front access panel is removed. The exterior finish resists fingerprints and smudges, which means less to clean.

Simple Operation

User friendly push-to-dispense provides 1/4 lbs. of ice per second.

Low Profile

The ultra-low profile Hotel Dispensers are available in 22" and 30" wide machines and hold between 120 and 180 pounds of ICE.

22" ICE Machines		
Specifications	CD40022	CD40522
Dispensed By:	push	push
