

## Q-1400 ICE MACHINE ON AN F1475 BIN USING K00163 ICE DEFLECTOR

### Installation Instructions

1. Remove splash shield, water pump, and water trough from ice machine.
2. Install ice deflector, as shown, using two #10-24 mounting screws. Center ice deflector directly beneath water trough. Ice deflector must be secured with two mounting screws for proper operation of ice machine.
3. Reassemble water trough, water pump, and splash shield.
