Setting up a GPRS Data account.

It is important this Data Account is created first.

This Data Account allows the phone to access your ISP email over Vodafone's GPRS Network.

- Press **Menu** and select **Tools**.
- Press **Settings** and select **Connection**.
- Select **Access Points**.
- Press **Options** and select **New Access Point**.
- Select **Use Default Settings**.
- Select **Connection Name** and enter **GPRS Internet**.
- Select **Data Bearer** and set to **GPRS**.
- Select **Access Point Name** and enter **www.vodafone.net.nz**
- Leave **User name** and **Password** blank.
- Select **Prompt Password** and set to **No**.
- Select **Authentication** and set to **Secure**.
- Press **Options** and scroll to **Advanced settings**, press **Select**.
- Scroll to **Proxy serv. address**. Press **Options**. Scroll to **Change**. Press **Select**.
- Enter **172.030.038.003**. Press **OK**.
- Scroll to **Proxy port number**. Press **Options**. Scroll to **Change**. Press **Select**.
- Enter **8080** and press **OK**.
- Press the **Back** button twice.
- Press hang-up key to exit to normal mode screen.

Setting up a GPRS Email Account Using Your Existing ISP.

For this you will require the following Mail Account details from your current ISP.

Internet Service Provider

- Incoming mail server
- Outgoing mail server
- Email address
- Mail account username
- Mail account password

Please contact your Internet Service Provider for these details.

- Press **Menu** and select **Messaging** select **Open**.
- Press **Options** and select **Settings**.
- Select **Email** and then select **Mailboxes** select **Open**.
- Press **Options** and select **New Mailbox**.
- Select **Mailbox Name** and enter the name of your ISP (e.g. Clear, iHug, etc.)
- Select **Access Point In Use** and select **GPRS Internet**.
- Select **My Email Address** and enter your ISP email address.
- Select **Outgoing Mail Server** and enter **smtp.vodafone.net.nz**
- Select **Send Message** and set to **Immediately**.
- Select **Send Copy To Self** and set to **No**.
- Select **Include Signature** and set to **No**.
- Select **Username** and enter your ISP Mailbox Username (this is usually the same as your Dial-up username.)
- Select **Password** and enter your ISP Mailbox Password (this is usually the same as your Dial-up password.)
- Select **Incoming Mail Server** and enter your ISP Incoming Mail Address (e.g. pop3.clear.net.nz) Confirm your details by contacting your current ISP.
- Select **Mailbox Type** and set to **POP3**.
- Select **Security** and set to **Off**.
- Select **Back** to finish. Your new Email account will now be listed under **Mailboxes**.
- Press **Back** and Select **Mailbox In Use** press options and select **Change**
- You can now select the Email account you have set up.
- Your new Email account is now set-up and ready to go.

Sending and Receiving Email

- Press **Menu** and select **Messaging**.
- Highlight your new email account and press **Options**.
- Select **Connect**.
- Your Nokia 6600 will display **Connecting To Mailbox**.
- You are now connected to GPRS and may send and receive emails by selecting the desired options from the Options list.
