The Splendide Combo Laundry Collection 2008

Continuing the Splendide tradition of space-saving product design with the aim of creating top-quality, specialized laundry appliances for the industries we serve.

Splendide
Laundry Centers

Maximum Performance. Minimum Consumption.

Splendide's new washers are class A rated and carry the ENERGY STAR label. This makes them some of the most water efficient washing machines available. So, you'll not only be getting outstanding wash and dry results, but you will also be conserving precious resources in your building - energy and water.

Easy to use.

Load your wash and set the controls with ease - Splendide's controls are redesigned and their new doors are even bigger - now up to 11.5" wide. Status Indicator LED's clearly display cycle progress as Splendide's washer-dryers go from wash to dry automatically.

As soothing as a lullaby.

'Super Silent' means being able to spend time in your condo or apartment without being disturbed. So you can have the washing machine on whenever you want, even while asleep. This is possible thanks to special sound-absorbing materials, and a new tri-phase motor designed to achieve an outstanding dynamic performance with no noisy mechanical interference.

Built tough.

Splendide washer-dryers not only offer the space, water and energy savings that are so important in today's world, but they are built tough to withstand the rigors of everyday use. Splendide washers are equipped with heavy-duty springs and shock absorbers, stainless steel drums and reinforced cases for a long life.

Extra Capacity. **XC**

Splendide washer-dryers offer class-leading load size capabilities. Equipped with a redesigned X-tra Capacity drum, Splendide's new XC combo line is able to wash and dry bigger loads than ever before.

As caring as you are.

Splendide's new washing machines feature electronic control modules which mean they are able to process the quantity and type of wash and decide the right combination of water, temperature and spin speed with a high level of precision to offer you a better performance and great results - whiter whites, brighter colors.

Washer-Dryer Combos

Your laundry, washed and dried. The best washing and drying performances all in one.

WD2100XC / XCP

Dimensions: 33 1/8"H x 23 1/2"W x 22 5/8"D
