The legendary King Arthur brandished a magic sword, Excalibur, from which we take our company name. With this unique weapon in his hands, he could not be vanquished. Although Excalibur Electronics can't claim the magical secrets of Merlin, King Arthur's court wizard, sometimes our patented technology may make it seem as if we could.

## BATTERY INSTALLATION

Your Scarface Talking Wall Clock requires 3-AA batteries, not included. There are two battery compartments in the back of the unit.

**NOTE:** Adjust the time to ten minutes to 12 o'clock BEFORE you install the batteries.

The top compartment enables the clock to function, and uses one battery. The lower voice compartment allows you to hear a Scarface quote every hour. It requires two batteries.

Follow these steps for installation.

1. Turn the game over so the top side is face-down on a soft surface. You will see the open battery compartments.
2. Install each battery carefully matching the polarity (+ and -) with the diagram inside the battery compartments.

## SETTING THE CLOCK

Follow these steps to set the clock:

1. Turn the dial clockwise to set the clock. *This will ensure that the quotes match up with the corresponding picture on the clock.*

If you accidentally turn the dial counter-clockwise, simply turn the dial clockwise again one full revolution, back to the time at which it was previously set. You can now adjust the time while maintaining the correct order for the quotes.

## ADJUSTING SOUND MODE

You can adjust the **SOUND MODE** at the back of the clock below the battery compartments.

The three **SOUND MODE** settings are:

**Auto** - The movie quotes will automatically be turned off when it is dark.

**Manual On** - The movie quotes will stay on continuously.

**Manual Off** - The movie quotes stay off all the time.

*Slide the switch on the back of the clock to the setting of your choice.*

**YOU MAY TURN OFF THE HOURLY ALARM QUOTES BY USING THE ON / OFF / AUTO SWITCH AT THE BACK OF THE UNIT.**

## **HANGING THE CLOCK**

You will want to display your Scarface Talking Wall Clock in a prominent place. Follow these steps to hang the clock:

1. Hammer or screw a nail, or other hanging device into a selected place on the wall.
2. Hang the clock via the teardrop-shaped hole at the back of the clock. This is found above the battery compartments.
