USE & CARE INSTRUCTIONS

BEFORE USING YOUR COOKWARE FOR THE FIRST TIME

Wash in hot, soapy water. Rinse well and dry.

USE & CARE

Use low to medium heat when cooking. Excessive pre-heating of empty cookware may cause damage to cookware. Bravetti Platinum Pro cookware can be washed in your dishwasher. When cleaning your cookware, **do not** use abrasives such as scouring pads, oven cleaners or sharp instruments as they may scratch or affect the finish. To clean, use soapy water. A stainless steel cleaner may be used on the outside of the the cookware to preserve its original shine. To prevent water spots after washing, rinse with hot water and wipe dry immediately.

SALT DAMAGE (NOT WARRANTED)

Pitting or small white spots may appear on the inside of your cookware if undissolved salt is left in it or from washing in very hard water. This does **not** affect the cooking performance of the cookware but mars the surface of the stainless steel. Washing your cookware immediately after using it is strongly recommended in order to prevent salt damage. Thoroughly rinse cookware after washing and dry immediately with a soft dish cloth.

OVERHEATING COOKWARE

Your new Bravetti cookware (excluding lids and non stick pan) is oven safe to a temperature of 350°F. **Do not** exceed this temperature when using your cookware in the oven. **DO NOT PLACE GLASS LIDS or the Non Stick pan in the oven.** The LIDS and Non Stick pan are **NOT** oven safe. Overheating may cause yellow, brown or blue spots to appear on the stainless steel. Overheating may cause irreparable damage to the cookware. Never leave empty cookware on a hot burner, do not allow to boil dry. Overheating causing damage and voids warranty.
