- ✓ **Plus Other Standard Cecilware Features!**

# Vista Series with "IT" . . . Sleek, Curvy, and Attracts Attention.

Cecilware's new style of cappuccino dispensers offer a new look and the consistent reliability that brought Cecilware to the forefront of the industry. The new contemporary design and large P.O.S. display(s) ensure maximum merchandising for your cappuccino sales!

## F.A.S.T. Service

**Front Access Saves Time** - Exclusively designed by Cecilware, allows access to major components through the front of the dispenser.

- Save money on service calls.
- Maximizes operating time.

### Standard Cecilware Features

- **Fast Flow** TECHNOLOGY INSIDE - Dispenses Cappuccino 30% faster, reducing Cappuccino lines and wear and tear on major dispenser components.
- **Vacuum Steam Removal System (VRS)** - Ensures the powdered mix remains dry to eliminate clogging, caking and bridging.
- **Removable Moisture & Powder Collection Tray** - Catches excess moisture and cappuccino powder before it reaches the vacuum motor. Keeps the dispenser in top working condition.
- **Uniquely Designed Water Tank** - Maintains perfect brew temperature at all times.
- **Highly Functional Cup Guide** - Ensures product is dispensed accurately into cup. Capable of handling 8½" cups.
- **Self Cleaning Feature** - Rinse system cleans the entire whipper chamber with hot water at the end of each cycle. All parts requiring regular cleaning can be removed by hand.

- Optional**
- **Hot Water Dispense Button** - Add a hot water dispense button to sell soup or tea.
  - **Automatic Portion Control** - Allows an operator to dispense Cappuccino into a predetermined size cup.
  - **Side Panel Merchandising Graphics** - 19¾" w x 21½" h
  - **Custom Colors** - An array of custom color dispensers are available for large quantity orders. Contact your sales representative for more details
