INSTRUCTIONS FOR USING YOUR FACIAL TOOL

- Snap the exfoliating brush attachment onto the unit, making sure it is securely attached.
- Apply a generous amount of your favorite exfoliating cream to your face.
- At the speed of your choice, massage the cleanser on your face in a circular motion, making sure not to exceed two minutes.
- Use for 10-second intervals per area beginning with the forehead; avoiding the eye area, move downwards toward the cheek and nose area then to your chin area. This step exfoliates, thoroughly cleans and removes dull skin cells. Rinse face and pat dry. Next, apply cool water or your favorite astringent to close pores and seal in moisture.
- Now you are ready to apply your favorite moisturizing lotion by using the sponge applicator. Dot your forehead, cheeks, nose and chin with a generous amount of moisturizer and smooth the cream into your skin. Apply light to medium pressure and use upward, circular strokes. After just one personal facial with the Facial Sauna System you'll find your skin looking fresher and healthier.
