INFORMATION DE MONTAGE POUR VÉHICULES AUTOMOBILES LORS DE L'APPLICATION DE LA FIXATION ISOFIX OU DE LA CEINTURE 3 POINTS

Ce système de retenue pour enfant avec partie inférieure est classé dans la catégorie «semi-universelle». Il est adapté pour être fixé dans la plupart des véhicules avec ISOFIX ou avec une ceinture 3 points. Les numéros dans le schéma suivant représentent les positions de montage ISOFIX dans le véhicule sur les pages suivantes. Lorsque le système de retenue pour enfant peut être installé sur le siège correspondant, vous voyez un ● à cet endroit. Dans le cas contraire, un ○ vous indique que le siège ne peut PAS être installé sur le siège du véhicule. La colonne de gauche se base sur un montage dans le véhicule avec les fixations ISOFIX, la colonne de droite indique les positions de montage en cas d'utilisation de la ceinture 3 points. Cette liste n'est pas exhaustive. Si votre véhicule n'est pas dans la liste ou si vous avez des doutes sur la possibilité d'application du système de retenue dans votre véhicule, adressez-vous au fabricant du siège pour enfant ou au commerçant spécialisé à qui vous avez acheté ce produit. Favorisez toujours le montage du siège pour enfant sur la BANQUETTE ARRIÈRE de votre véhicule. N'installez JAMAIS le système de retenue sur un siège de véhicule équipé d'un AIRBAG actif. Cela représente un danger de mort ou de blessure grave.
