# Alpha® Warmers

Decanter Warmer Systems

## Step up to quality... ALPHA DECANTER WARMING PLATES.

Curtis' ALPHA Warming Plates are the perfect complement to any ALPHA or Decanter Brewing System. Designed to keep coffee hot, fresh and delicious, the warmers are easily located in key traffic areas to create additional coffee service stations. ALPHA Warming Plates operate on standard 120VAC power, and are available in three space-saving configurations.

AW-2

AW-1 – Features a single warmer in a low-profile design.

AW-2 – A double warmer in a low-profile, side-by-side design. Each warming plate is individually operated.

AW-2S – This two-tiered double warming plate system is designed for narrow counter space requirements. Individually operated warming plates.
