 - Ergonomic design reduces hand fatigue •
 - Efficient torsion drive with 1/3 less effort •

OPERATING INSTRUCTIONS

Safety Information

WARNING

Follow all safety warnings listed below and throughout manual. Improper use of this tool can cause severe injury from flying debris or firing staple into body.

1. Read and understand this manual before loading or using tool.
2. Make certain you read and understand all Warnings.
3. Only well-instructed adults should use tool. Never allow children to use tool.
4. When using tool, keep all body parts away from staple exit.
5. Never point tool at anyone.
6. Wear safety glasses to protect your eyes.
7. Lock handle on tool when loading or not in use.
8. Never use this tool where not intended. For example, don't use tool on concrete, metal, or glass.
9. Do not alter this tool in any way.
10. Always store tool
 - with staples removed and handle locked
 - out of children's reach
11. Keep this manual for reference. It is your guide to safe and proper operation of this tool.

Unlocking Handle

1. Hold tool base and handle. Squeeze handle to release tension on handle lock. Slip handle lock off of handle (see Figure 1).
2. Release handle. Handle will spring free.

Figure 1

Locking Handle

1. Hold tool firmly (see Figure 2).
2. Pull handle out to release, then push handle down (see Figure 2).

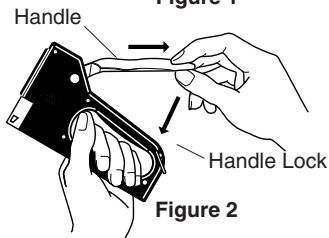

Figure 2

Continued

3. While holding handle down, slip handle lock up over handle (see Figure 3).

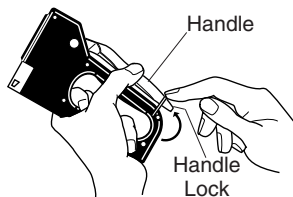

Figure 3

Loading Tool

1. Lock handle (see Locking Handle, page 2).
2. Turn staplegun upside down. At rear of tool, squeeze latch on end of staple channel (see Figure 4). Pull staple channel cover out of staple channel until it stops (see Figure 4).
3. Drop staples into staple channel. Make sure staple points are facing up (see Figure 4).
4. Slide staple channel cover back into staple channel until it locks into place.

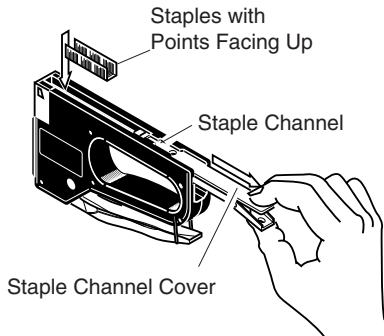

Figure 4

Operating Tool

1. Unlock handle if locked.
2. Grip tool firmly. Press tool against work surface (see Figure 5).
3. Depress handle firmly to fire. Do not allow tool to jump or recoil. *Note:* For greater driving force on harder surfaces, press thumb or palm of free hand against head of tool (see Figure 6).
