

Battery Safety Information

In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:

- Non-rechargeable batteries are not to be recharged.
- Rechargeable batteries are to be removed from the product before being charged (if designed to be removable).
- Rechargeable batteries are only to be charged under adult supervision (if designed to be removable).
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Do not mix old and new batteries.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the product.
- The supply terminals are not to be short-circuited.
- Dispose of battery(ies) safely.
- Do not dispose of this product in a fire. The batteries inside may explode or leak.

Protect the environment by not disposing of this product with household waste (2002/96/EC). Check your local authority for recycling advice and facilities.

Instructions

Please keep these instructions for future reference as they contain important information.

Contents

Requires 2 "D" (LR20) alkaline batteries (not included).

L9833-0920

5+

Battery Installation

Open battery cover with a Phillips head screwdriver (not included). Insert 2 "D" size alkaline batteries (not included) in the orientation shown. Replace cover and tighten screw. For best performance, use alkaline batteries. When booster is unable to propel vehicles through the set, replace the batteries.

Refer to numbers on parts and contents page to help with assembly.

SAFETY NOTE: Do not launch cars until toy is completely assembled.

Final Assembly

APPLY LABELS BY NUMBER AS INDICATED.

HELPFUL HINT: APPLY LABELS BEFORE ASSEMBLY.
