⚠ WARNING

Failure to follow instructions could result in injury or death.

Setting Up the Pack 'N Play

- THIS PRODUCT REQUIRES ADULT ASSEMBLY.
- Keep fingers clear of top corners during setup. Be sure Pack 'N Play is completely set up before use. Check that the four top rails are completely latched, the center of the floor is pushed down, and the mattress is flat and secured by the VELCRO® straps. Always follow the instructions in the owner's manual to set up the Pack 'N Play.
- When using the bassinet make sure VELCRO® patches underneath mattress firmly attach to bassinet mesh.
- Before each use, inspect this product for damaged hardware, loose joints, missing parts or sharp edges. Do not use Pack 'N Play if any parts are missing or broken. Call 1-800-345-4109 for replacement parts or owner's manual. Do not substitute parts.

Using the Pack 'N Play

- The Pack 'N Play can be used as a playard, bassinet or sleeping crib. When used as a playard, never leave child unattended and always keep child in view. When used as a sleeping crib or bassinet, you must still provide the supervision necessary for the continued safety of your child.
- Always keep the Pack 'N Play away from hazards in the area that may injure your child.
- Do not add padding or other objects inside the Pack 'N Play that will permit your child to climb out.
- Stop using this product when your child reaches 35 inches (890 mm) in height, weighs more than 30 pounds (14 kg), or is able to climb out.
- Do not modify Pack 'N Play or add any attachments that are not listed in the owner's manual, including an add-on bassinet.

Using the Bassinet

- Use bassinet with only one child at a time.
- The bassinet must be fully assembled and installed, including top rails, snaps and bottom pad, before using.

⚠ WARNING

Failure to follow instructions could result in injury or death.

Follow these warnings and the assembly instructions could result in serious injury or death.

- Discontinue using your bassinet if child weighs over 15 lbs. (6.8 kg), can roll over, or can push up on hands and knees.
- Never place a child under the bassinet.
- DO NOT store the bassinet in the Pack 'N Play while in use. Store rails in pocket in the bassinet.
- Never use a canopy with bassinet installed.

Avoiding Suffocation Hazards

- Unlike cribs that have rigid sides, the Pack 'N Play and the bassinet have flexible sides. As a result, the Pack 'N Play mattress is specially designed to prevent suffocation. The Pack 'N Play mattress has a solid base, a certain length and width, and is less than one inch thick in order to meet safety standards. Using a thicker or a different sized mattress may allow a child's head to get between mattress and the side of the Pack 'N Play or bassinet causing suffocation.
- To help prevent suffocation from entrapment, USE ONLY THE MATTRESS PROVIDED BY GRACO. Never use additional mattress or padding.
- Never use plastic shipping bags or other plastic film as mattress covers not sold and intended for that purpose. They can cause suffocation.
- Do not use a water mattress with the Pack 'N Play.

Avoiding Strangulation Hazards

- Strings and cords can cause strangulation. Keep strings and cords away from child.
 - Do not place the Pack 'N Play near a window where cords from blinds or drapes can strangle a child.
 - Do not hang strings on or over the Pack 'N Play.
 - Do not place items with a string around a child's neck, such as hood strings, pacifier cords, etc.
 - Do not attach strings to toys.

This product is not intended for commercial use.

Follow these warnings and the assembly instructions could result in serious injury or death.

PACK 'N PLAY INSTRUCTIONS

Setting up the Pack 'N Play® is easy, once you know how:

To Set Up Your Pack 'N Play®

Step 1.

Undo the three VELCRO® straps. Fold VELCRO® straps back onto themselves.

Set mattress aside.

Step 2.

IMPORTANT: Leave center of floor UP until all four top rails are latched.

Grasp the bottom of two of the top rails, and pull up until you hear a "click."

Be sure top rails have become rigid.

If not, pull up again until they are rigid.

FOR SMOOTH SETUP and takedown, it's important to remember one thing: the center of the floor must be at least halfway up when locking OR unlocking rails (see picture below). Therefore:

- **When setting up, lock rails BEFORE lowering center.**
- **When taking down, raise center halfway BEFORE unlocking rails.**

Step 3.

Pull up the other two sides until they latch.

If top rails do not latch, lift the center of the floor higher. Center of floor must be at least halfway up for the latches to catch properly.

Be sure all top rails are rigid.

Step 4.

Hold one end of the unit up and push the center of the floor down.

At first your Pack 'N Play **may** be like a new pair of shoes. You may need to break it in by slightly stretching the netting and fabric. If the center does not stay down, place some weight (several books) in the center of the unit and let it stand overnight.

To Use as a Playard/Portable Crib

Place mattress into your unit with padded side up.

Always use your unit with mattress installed soft side up.

Slide the two VELCRO® straps through slots in bottom of Pack 'N Play and fasten to VELCRO® on underside. This will prevent mattress from moving.

Your Pack 'N Play is ready to use.

To Fold Your Pack 'N Play®

Step 1.

Lower the back flap. Apply locks on wheels or casters, if present. Release the two VELCRO® straps under the Pack 'N Play, and remove the mattress.

Step 2.

IMPORTANT: Raise center halfway **BEFORE** unlocking rails.

Grasp the red handle on the center of the floor as shown.

Push down and turn handle. Then pull up approximately halfway to the top rails.

Step 3.

The top rail has a center piece with two tubes hidden under the fabric. The button on the bottom of the center piece releases the two tubes when it is pushed up.

To fold the top rail:

- Lift up slightly on the top rail.
- Push up on the button located under the symbol to release the two tubes.
- Push down.

HINTS:

- If top rails do not unlatch, lift the center of the floor higher.
- Both tubes must be released for the top rail to fold.

Step 4.

Pull center up all the way.

Step 5.

Gather your unit together.
Do not force.

If unit will not fold, look for a partially latched top rail. Squeeze the latch button to release the rail.

Step 6.

Find the bottom corner belt loop (only one). This loop is for holding unit and mattress together while carrying.

Step 7.

Wrap the mattress around your unit. Fasten together the VELCRO® straps, attaching the bottom strap to the bottom corner belt loop.

CARE AND MAINTENANCE

FROM TIME TO TIME CHECK YOUR PACK 'N PLAY for worn parts, torn material or stitching. Replace or repair the parts as needed. Use only Graco® replacement parts.

IF PACK 'N PLAY IS USED AT THE BEACH, you **MUST** clean sand off your Pack 'N Play, including the feet, before packing it into cover. Sand in top rail lock may damage it.
