*ALWAYS BE AWARE OF DYNAMIC LOADING!

If you suddenly drop a weight on the Tool Chest it may create, for a brief instant, an excess load potentially causing property damage, **SERIOUS PERSONAL INJURY** and/or **DEATH**.

WARNING

1. **Improper use can cause the Chest to tip, causing PERSONAL INJURY or DEATH.**
 - Do not exceed the **840 lbs. total weight capacity** (dead weight, see *Dynamic Loading* above). Never exceed the weight capacity for the top chest or any one drawer.
 - Do not open more than one drawer at a time.
 - Load the Chest evenly from the bottom up.
2. **Only lift the Chest with a partner and only while empty.** If the Chest is still too heavy, get further assistance; **attempting to lift an object that is too heavy can result in SERIOUS PERMANENT PERSONAL INJURY.**
3. **Wear ANSI-approved safety goggles when working with tools and equipment.**
4. **Do not stand or climb upon this Chest.**
