

## Drill/Drivers

### DS14DVF3 14.4v 10mm Cordless Driver Drill

- 10mm keyless chuck
- 22-stage adjustable clutch for precise torque settings
- Maximum torque of 34Nm
- Soft grip, slip resistant handle
- Comes with torch, bit set and 2 x 1.4Ah batteries

### DS14DMR(HS) 14.4v 10mm Cordless Driver Drill

- Powerful 50Nm of Torque
- 13mm Keyless chuck
- 22-stage torque adjustment
- Comfortable non-slip grip handle
- New Super Ni-MH battery

### DS18DVF3 18v 13mm Cordless Driver Drill

- 13mm keyless chuck
- 22-stage adjustable clutch for precise torque setting
- Maximum torque of 45Nm
- Soft grip, slip resistant handle
- Comes with torch, bit set and 2 x 1.4Ah batteries

## NEW SUPER NI-MH BATTERY

MORE POWER.  
MORE LIFE.

### DS18DVB2 18v 13mm Cordless Driver Drill

- Two speed, variable speed reverse
- Electronic feedback power control
- 22-stage torque adjustment
- 13mm keyless chuck
- High 45Nm torque
- Electric brake
- Soft grip handle & belt hook
- 2 x 2.0Ah batteries

### DS18DMR(HS) 13mm Cordless Driver Drill

- 2-speed, variable speed reverse
- 13mm keyless chuck
- 22-stage torque adjustment
- Automatic spindle lock & single sleeve chuck for quick bit setting
- Powerful fan cooled motor
- High Power 65Nm torque
- New Super Ni-MH batteries (available in 2 & 3 battery option)

## Impact Hammer Drill/Drivers

### DV14DMR(HS) 14.4v Cordless Impact Driver Drill

- 22 position torque adjustable clutch
- Powerful 52Nm of Torque
- 3 mode selection: Drill, impact drill, driver
- 13mm keyless chuck
- Improved cooling efficiency
- Soft grip handle
- New Super Ni-MH battery

### DV18DMR(HS) 18v Cordless Impact Driver Drill

- 22 position torque adjustable clutch
- Powerful 62Nm of Torque
- 3 mode selection: Drill, impact drill, driver
- 13mm keyless chuck
- Improved cooling efficiency
- Soft grip handle
- New Super Ni-MH battery (available in 2 & 3 battery option)

## Impact Drivers/Wrenches

### WH12DMR(HH) Cordless Impact Driver

- Powerful tightening torque of 130Nm
- Compact & lightweight body
- Powerful cooling fan for high-motor durability
- Light equipped 5 step angle adjustable hook
- Replaceable carbon brushes
- Soft grip, slip resistant handle
- 1/4" Hex drive

### WH14DMR(HS) 14.4v Cordless Impact Driver

- High durability, dust resistant for long life
- Variable speed in trigger also with reverse switch
- Double moulded non-slip grip handle
- Powerful 140Nm of torque
- 1/4" hex drive
- Angle adjustable hook with light
- New Super Ni-MH battery

### WR14DMR(HS) 14.4v Cordless Impact Driver

- High durability, dust resistant for long life
- Variable speed in trigger also with reverse switch
- Double moulded non-slip grip handle
- Powerful 200Nm of torque
- 1/2" hex drive
- Angle adjustable hook with light
- New Super Ni-MH battery

## NEW HITACHI SUPER Ni-MH BATTERIES

Now Available on all 14.4v & 18v MODELS

SUPER Ni-MH  
5% More Torque  
50% More Life

# "Out Perform - Out Last"

## Impact Drivers / Wrenches

### WH18DMR(HS) 18v Cordless Impact Driver

- Powerful tightening torque of 157Nm
- Compact & lightweight body
- Variable speed trigger with reverse switch
- Powerful cooling fan for high-motor durability
- Light equipped 5 step angle adjustable hook
- Soft grip, slip resistant handle
- New Super Ni-MH battery (available in 2 & 3 battery option)

### WR18DMR(HS) 18v Cordless Impact Wrench

- Powerful tightening torque of 231Nm
- Compact & lightweight body
- Variable speed trigger with reverse switch
- Powerful cooling fan for high-motor durability
- Light equipped 5 step angle adjustable hook
- Soft grip, slip resistant handle
- New Super Ni-MH battery (available in 2 & 3 battery option)

## Sabre Saws / Screwdrivers

### WF4DYB 12v Cordless Auto Feed Impact Driver

- Removable auto-feed attachment
- Powerful impact 90Nm of torque
- Variable speed reverse

### CR18DMR(HC) 18v Cordless Reciprocating Saw

- Slip-resistant soft grip handle
- Two-finger sized trigger switch
- Flat type battery making it easier to get into tight spaces
- High output of 380W
- Longest cutting stroke in category
- Tough Die-Cast aluminium casing

## Combo Kits

### KC18DMR(HB) 18v Cordless Combo Kit

- DV18DMR -18v Cordless Impact Hammer Driver Drill
- CR18DMR 18v Cordless Reciprocating Saw
- C18DMR 18v Cordless Circular Saw
- UB18DL 18v Lantern & Charger
- 2 Super Ni-MH Batteries
- (Also available in 3 battery option)

**HITACHI**

**SUPER Ni-MH**  
**5% More Torque**  
**50% More Life**

**“Out Perform - Out Last”**

## Drills

### D13 13mm High Torque Drill

- Adjustable handles for comfortable grip
- Built for high torque applications
- Powerful 720 watt motor
- Triple reduction gearing
- Keyed chuck
- Reversible

### D13VF 13mm Variable Speed Drill

- Industrial grade 710 watt motor
- Heavy duty alloy gear casting
- Variable speed reverse
- Electric brake
- Keyed chuck

### DMT16 16mm High Torque Drill

- Mechanical two speed gear selector
- Industrial grade 16mm keyed chuck
- “D” handle for comfortable grip
- Powerful 900 watt motor

### DC120VA 120mm Diamond Core Drill

- Electronic soft start & constant speed control
- Massively powerful 1,400 watt motor
- Synchronised dual variable speed
- High 120mm capacity in concrete
- Safety release clutch
- Robust 16mm chuck

## Impact Drills

### DV18V 18mm Impact Drill

- Compact & lightweight
- Soft grip handle for increased comfort
- Powerful 690 watt motor
- Durable aluminium gear cover and inner cover
- 2-speed, variable
- Push button type forward-reverse change over switch

### DV20VB2 20mm Impact Drill

- Synchronised gear shift mechanism
- Easy to use mode switching
- Easy to handle large trigger
- Variable speed and reverse
- Powerful 790 watt motor

**“Out Perform - Out Last”**

## Impact Wrench

### WR16SA 12.7mm Impact Wrench

- Powerful 480 watt motor with maximum torque of 360Nm
- Compact & lightweight
- Slip resistant and comfortable soft grip handle
- Higher durability thanks to metallic bearing bushing

### WR22SA Impact Wrench

- Powerful 850 watt motor with maximum torque of 610Nm
- Compact & lightweight
- Slip resistant and comfortable soft grip handle
- Durable double-insulated motor thanks to the highly strong (rigid) aluminium die-cast body

## Rotary Hammer Drills

### DH24PB3 24mm Rotary Hammer

- Powerful 800 watt motor with top class drilling speed
- Forward/Reverse changeover switch
- Idle hammering prevention mechanism
- Slip resistant, double layer moulded gear cover and handle
- 2 mode action: hammer drilling & drilling only

### DH24PC3 24mm Rotary Hammer

- Powerful 800 watt motor with top class drilling speed
- Forward/Reverse changeover switch
- Idle hammering prevention mechanism
- Slip resistant, double layer moulded gear cover and handle
- 3 mode action: hammer drilling & drilling only & Hammer only

### DH40MR 40mm Rotary Hammer Drill

- Two mode action; Hammer drilling, hammer only
- Lightweight & powerful
- Soft touch grip for comfort & control
- Powerful 10 joules per strike rate
- Powerful industrial 950 watt motor
- Easy adjustable front & side handle
- SDS-max drive

### DH45MR 45mm Rotary Hammer

- Variable speed control with impact rate of 1200-2500bpm
- Needle-pin type slip clutch
- Internal double-insulation construction
- High drilling speed & high demolition performance
- Change lever for switching between, "Rotary + Hammering", "Neutral" & "Hammering only"
- Soft-touch grip handle and side handle for easier handling

## Demolition Hammers

### H60MRV Demolition Hammer

- Powerful 1,350 watt motor
- Slip resistant soft grip handle
- Constant/Variable speed control
- Fast full load striking rate of 1,650bpm
- Vibration-absorbing handle for excellent vibration reduction
- High chipping and demolishing performance with low vibration and low noise level
- Internal double-insulation construction with sturdy aluminium frame

### H65SB2 Demolition Hammer

- Strongest demolition power and durability in this class
- Low noise and vibration level
- Triple dust sealed, double insulated design
- Comfortable shock absorbing handles
- Robust construction for longer life
- High impact energy: 42 joules
- Strong alloy motor housing

## Grinders

### G10SD2 100mm Angle Grinder

- Powerful 760 watt motor
- High power to weight ratio
- Advanced seal technology
- Ergonomic 15° side handle
- Compact, lightweight & modern
- Low profile gearbox allows access to restricted areas

### G12SE2 115mm Angle Grinder

- Spindle lock for easy to replace grinding wheel
- Wear resistant of armature coil
- Excellent overload durability
- Powerful 1,200 watt motor
- Compact and lightweight

### G13SE2 125mm Angle Grinder

- Spindle lock for easy to replace grinding wheel
- Wear resistance of armature coil
- Excellent overload durability
- Powerful 1,200 watt motor
- Compact and lightweight

### G18SE3 180mm Angle Grinder

- Dust proof ball bearing portion & durable retainer
- New construction to protect grease leakage
- Tool-less angle adjustment of wheel guard
- Spindle lock 3-position side handle
- Prolonged service life and wear resistant
- Powerful 2,400 watt motor

**"Out Perform - Out Last"**

## Grinders

### G23SE2(H6) 230mm Angle Grinder

- Dust-proof ball bearing
- Tool-less wheel guard can be adjusted to any angle
- Long life carbon brushes
- More durable ball bearing retainer
- Wear resistance of armature coil
- Powerful 2,400 watt motor
- Carry case

### G23UB2 230 Angle Grinder

- Powerful 2,400 watt motor
- Three position side handle
- Easy to use large safety lock switch
- Tool-less angle adjustment of wheel guard
- Soft start for minimised kick back reaction
- Dust proof ball bearing portion & durable retainer
- New construction to protect from grease leakage

## Sander / Polisher & Grinder

### SAT180 180mm Sander / Polisher

- Powerful 950 watt motor
- No-load speed range: 1900-3400rpm
- Robust construction for longer life
- Two-speed dust sealed switch
- Dust resistant design

### GP2 25mm Die Grinder

- Compact design for easy access to hard to reach locations
- High speed for a smooth and accurate finish
- High power from a 520 watt industrial motor
- Convenient tool rest

## Sanders

### SV12SG Orbital Palm Sander

- Soft grip for ease of operation & reduce operator fatigue
- Sanding rate best in class
- Easily accessible switch suits left or right hand operation
- Easy and quick paper changing with convenient lever clamp
- Also compatible with velcro backed sand paper

### SB10T 100 x 610mm Belt Sander

- 2-speed for rapid stock removal & fine finish sanding
- Large belt size for rapid sanding and stock removal
- Powerful industrial grade 1,100 watt motor
- Extended base suitable for flush sanding

### SB75 Belt Sander

- 2-speed for rapid stock removal & fine finish sanding
- Efficient dust collection with a large dust bag
- Powerful industrial grade 1,000 watt motor
- Extended base suitable for flush sanding

### SV13YA(H1) 125mm Orbital Sander

- Powerful 230 watt motor
- Variable speed 7,000-12,000rpm
- Ergonomic design
- Large soft grip handle
- Pad control system
- Complete ball bearing construction for smooth operation

## Circular Saws

### C5YC Dustless Metal Cutting Circular Saw

- Lightweight and compact
  - Multi-purpose cutter
  - Fast and powerful
  - Clear view of cutting line
  - Robust and accurate
- (Comes with 125mm FCB Blade or Diamond Blade)

### C7YA(FCB) 185mm Dustless Saw

- Convenient dustless operation for user safety when used with appropriate accessories
- Lightweight & well-balanced for user comfort
- Specifically built for cutting fibre-cement
- 4-tooth, diamond tipped fibre-cement blade
- Heavy duty industrial grade 1,400 watt motor

### C7SB2 185mm Circular Saw

- Easy access adjustment lever with 55° bevel capacity
- Magnesium gear cover, blade cover and lower guard
- Soft and comfortable with slip resistant moulded grip
- Heavy duty die cast aluminium base
- Powerful 1,710 watt motor

### C9 235mm Circular Saw

- No saw slump, ideal for saw bench accessories
- Powerful industrial 2,000 watt motor
- Max depth of cut: 86mm (3-3/8")
- Clear view of cutting line
- Compact and easy to use
- Rigid nickel alloy base

***"Out Perform - Out Last"***

## Sabre Saws

### CR13VA 130mm Reciprocating Saw

- Simple, tool-less, one handed blade changes
- Comfortable, ergonomic soft moulded grip
- Top of class 1,050 watt industrial motor
- Higher cutting speed with swing action
- Push button adjustable shoe
- Variable speed control

### CR13VC 130mm Reciprocating Saw

- Speed selection dial for versatile operation
- Comfortable dual moulded front cover
- Comfortable rubber moulded handle
- Tool-less blade change mechanism
- Large variable speed trigger
- Powerful 1,010 watt motor

## Mitre Saws

### C10FCE 255mm Compound Mitre Saw

- Intense power for toughest cutting jobs
- Horizontal handle with soft, vibration reducing elastomaster grip adds comfort & control
- Thumb actuated positive stops, easy to use for quick mitre adjustments
- Carbon brush access, allows user to replace brush as needed to greatly prolong tool life

### C12LCH 305mm Compound Mitre Saw

- Laser guide system for easy adjustment
- Digital display panel that indicates mitre and bevel angles
- Bevel angle fine adjustment mechanism
- Soft vibration reducing grip
- Powerful 1950 Watt motor

## Slide Compound Saws

### C12FSA(B) 305mm Slide Compound Mitre Saw

- Built-in soft start & electric constant speed control
- Dual slide rails for smooth & accurate cutting
- Quiet, low vibration belt drive
- Powerful 1,650 watt motor
- Bevel left and right
- Mitre angles R:0-57° L:0-57°

### C10FSB 262mm Slide Compound Mitre Saw

- Built-in soft start & electronic constant speed control
- Positive angle stoppers for desired angle cut
- Poly V-belt and motor driving system for longer life
- Splinter guard, also serving for cut alignment
- Easy to read angle scale and bevel scale
- Powerful 1,450 watt motor

## Cut Off Machines

### CC14SF 14" Cut Off Machine

- Powerful 2400 watt motor
- Soft grip handle
- Spindle lock system
- One touch vise system for quick feeding and easy tightening
- High speed feeding of the vise

### CC16SA 405mm Cut Off Machine

- Adjustable angle vice cutting up to 45°
- Wind up vise with thread protection
- Large capacity: 120mm pipe
- Double reinforced base
- 2,400 watt motor

## Planners

### P20SB(TCT) 82mm Finishing Planer

- Comes with TCT blades
- Highest power to weight ration in its class
- Maximum pass of 1mm
- 620 watt motor
- 2.5kg weight

### P20SA2 82mm Rebate Planer

- Large capacity rebate of 25mm depth
- Lightweight design for user control
- TCT replaceable blades
- Comfortable "D" handle
- 3mm maximum pass
- Rigid alloy base

## Screwdrivers

### W6V4 Screwdriver

- High power 620 watt motor
- Ergonomic design for better operation
- Robust aluminium cover & inner cover
- Class-top low noise 76db

### W6VA4 Screwdriver

- High power 620 watt motor
- Ergonomic design for better operation
- Robust aluminium cover & inner cover
- Class-top low noise 76db

*"Out Perform - Out Last"*

## Screwdriver

### W8VB2 Screwdriver

- High power 620 watt motor
- Ergonomic design for better operation
- Robust aluminium cover & inner cover
- Class-top low noise 76db

## Nibbler

### CN16SA Nibbler

- Fast efficient cutting speed of 1,500 strokes per minute
- Downward punching allows clear view of line
- Powerful 480 watt motor
- Adjustable cutting positions for cutting left or right
- Large cutting capacity: 1.6mm steel, 1.2mm stainless

## Vacuum cleaner

### RP30Y Vacuum

- Automatic switch outlet for ease of use
- Suitable for wet & dry operation
- Durable stainless steel casing
- Heavy duty 1,200 watt motor
- Integrated accessory stands

## Shear

### CE16SA Shear

- Large guard for protection from sharp metal waste
- Fast efficient cutting speed of 3,700 strokes per minute
- Compact body and lightweight
- Powerful 400 watt motor
- Large cutting capacity: 1.6mm steel, 1.2mm stainless

## Others

### RB40VA Blower

- Compact and lightweight
- Soft grip handle for easier handling
- Variable speed control trigger switch
- Stable floorstanding operation is possible
- Dust can be collected when using dust bag
- Number one in it's class with maximum air volume: 3.8<sup>3</sup>/min

### VB16Y 16mm Rebar Cutter / Bender

- Micro-processor controls secures and stabilises the bending angle of the steel rod
- Built-in slip clutch for protection of the mechanism
- Preset dial for bending angles: 45°, 90°, 135° & 180°
- Soft touch handle for comfort and control
- Bending capacity: 10-16mm / Cutting capacity: 10-16mm

### EC12 Air Compressor (Twin Tank)

- Small, compact & portable
- Low maintenance
- 15.1 Litre tank capacity
- Rubber suction pads for stability in transport
- Supplied with Nitto Coupling

### EC10SB(SL) Air Compressor (oil-less)

- Oil-free compressor
- Small, compact & portable
- Low maintenance
- 15.1 Litre tank capacity
- Powerful motor with a 2HP single phase 240v motor
- Grab handle is easy to carry for mobility
- Supplied with Nitto Coupling

## Pneumatics

### NR90AD 90mm D Head Strip Nailer

- Revolutionary Lightweight & compact design
- Well balanced clip head nailer
- Rear load magazine with by pass follower
- Tool-less depth adjustment
- Dual function trigger (bump/single shot)
- Moulded rubber grip for comfortable handling

### NT65MA2 DA Series Brad Nailer

- Revolutionary on board air duster
- 360 degree adjustable exhaust
- Lightweight and high power
- Tool-less depth adjustment
- Dual function trigger
- Quick clear feature

### NV65AF3 Coil Nailer

- Light, compact and powerful
- Wire or plastic collated nails
- Sequential or contact fire
- Dial depth adjustment
- Clear view magazine with adjustable nail support
- Non-slip grip handle

**“Ensure Optimum Performance”**

**“Use HITACHI Designed Collated Fastener”**

**FULL RANGE OF NAILS ALSO AVAILABLE**

**“Out Perform - Out Last”**

### 3612 12.7mm Plunge Router

- A tough, powerful and robust router
- Handles anything from MDF to red gum and iron bark
- Shaft lock for easy bit changes
- 3-way preset plunge depth stop
- Low noise (84db)

### 6408 10mm Electric Drill

- Lightweight and powerful this drill is a must for carpenter/joiners, shop fitters and cabinet makers
- Variable speed with forward/reverse for easy drilling and driving applications
- Heavy duty 10mm keyless chuck
- Compact design for working in confined areas

### 3706 Cutout Tool

- Designed to help you cut quick, accurate and smooth curves or holes
- Fits in the palm of your hand giving you comfortable accurate control
- Tool-less depth adjustment sets the desired cutting depth quickly and easily
- Clean cuts with optional extraction head

### 6501 6.5mm High Speed Electric Drill

- Fast rpm (4,500) makes this ideal for drilling pop rivets and pilot holes in metal channel
- Adjustable depth guide allows you to drill to a predetermined depth
- All ball and needle bearing construction for longer tool life
- Compact pistol grip design

### 3901 Plate Joiner

- 6 depth settings for #0, #10, #20 biscuits
- A professional joiner with precision grooving, flat dowel joints and wall/ceiling capabilities
- The base is set up to work with 19mm material without adjustment
- Optional 110mm 24t blade will give you 25mm depth of cut

### 6821 Drywall Screwdriver

- "Sure-Lock" adjustment for consistent screw depth setting
- Low noise level for quieter operation
- Nose piece is easy to remove for reversing screws out
- Highest power-to-weight ratio on the market
- Large recessed lock-on button for continuous operation also helps prevent accidental lock-on

### 4131 185mm Cold Metal Cutting Saw

- Fast, effortless cutting through metal with burr-free cuts that are cool to touch
- Virtually spark free cuts
- Cuts up to 6mm thick mild steel
- Quick release blade guard lever for plunge cutting
- Stainless steel base plate for stability and durability
- Excellent for roof and fence sheeting

### 6825 Drywall Screwdriver

- The fastest drywall driver on the market at 6,000rpm
- "Sure-Lock" adjustment for consistent screw depth setting
- Lightweight design (1.4kg) reduces operator fatigue during extended use
- Large recessed lock-on button for continuous operation also helps prevent accidental lock-on

### 446L Dust Extraction System

- 27 litre tank
- New "Push & Go" filter cleaning system
- Dual purpose machine easily converts from dust extraction to a powerful wet or dry industrial vacuum cleaner
- Automatic on/off system operates simultaneously as connected tool is switched on

### 6826 Screwdriver

- State of the art in general fixing applications with silent clutch for speed and torque
- "Sure-Lock" adjustment for consistent screw depth setting
- Variable speed
- Large recessed lock-on button for continuous operation also helps prevent accidental lock-on

### 447L Dust Extraction System

- 46 litre tank
- New "Extreme Clean" automatic filter cleaning system
- Dual purpose machine easily converts from dust extraction to a powerful wet or dry vacuum cleaner
- Automatic on/off system operates simultaneously as connected tool is switched on

### 6827 Screwdriver

- 6 stage externally adjustable torque sensitive clutch mechanism
- "Sure-Lock" depth adjustment for consistent screw depth setting
- Lightweight cast aluminium gear housing for durability
- Retractable belt clip
- Conveniently located forward/reverse switch

### 6952 Impact Screwdriver

- This impact screwdriver delivers 120 Nm of torque
- Rev speed of 3,200rpm means increased work efficiency
- Lightweight cast aluminium gear housing for durability

### 3612C 12mm Electronic Plunge Router

- Dial up variable speed
- Soft start feature for smoother start ups and electronic brake
- Electronic speed control maintains constant speed even under load
- Optional dust extraction assembly

### 2414NB-2 355mm Portable Cut Off

- Lock off button to prevent accidental starting
- Guide plate adjusts 45° right and left at 3 locations for various sizes of materials
- Quick release vise for secure stock retention and fast repeated cut offs
- Adjustable depth stop
- Includes 5 abrasive discs and cap

### 3620 8mm Plunge Router

- Great router for all round performance, plunging and template work
- Comfortable grips with the switch built in for precise and accurate control
- 1,000 Watt motor gives this machine plenty of power
- 3 way preset plunge depths
- Easy guide adjustment setup

### 2704 Table Saw

- Machined saw table with high rigidity delivers accurate cutting work
- Powerful motor enables ripping 4 x 8" wood with telescopic sub-table
- Rip fence with very smooth sliding movement with anti-lifting T shaped rail
- Side and rear extension tables available as option

### 3707F 6.35mm Trimmer

- Ergonomic slim body design for superior handling and reduced operator fatigue
- Rubber roller for easy and precise depth adjustment and cam action locking
- Built-in Maklite for easy trimming when lighting is inadequate!

### AF633 Pneumatic Brad Nailer

- Durable and lightweight die cast housing
- Easy tail loading of nails and easy dial depth adjustment
- Comfortable rubber grip
- Large magazine capacity - 120 pcs
- Available in collation 34°

### 4101RH 110mm Wet Cutter

- Perfect saw for cutting tiles, bricks and concrete
- Powerful and durable motor for longer life
- Equipped with earth leakage breaker
- Special cover design prevents water from entering into motor housing
- Cutting capacity up to 34mm with standard 110mm blade

### AN611 Coil Nailer

- 3 way firing switch; safety lock, bounce fire and standard single fire
- Tool-less fine depth adjustment for recessing heads or raised
- 360° rotational exhaust port to deflect air away from operator
- Spiked nose cone firmly grips material while skew or toe nailing
- Accepts plastic and wire collated nails

### 4107RH 180mm Wet Cutter

- Wet cutting capability and a powerful 1,400W motor allows quick and clean cutting of stone, concrete and asphalt
- Waterproof construction
- Equipped with earth leakage breaker

### AN942 Pneumatic Framing Nailer

- 3 way firing switch; safety lock, bounce fire and standard single fire
- Tool-less fine depth adjustment for recessing heads or raised
- 360° rotational exhaust port to deflect air away from operator
- Spiked nose cone firmly grips material while skew or toe nailing
- Accepts plastic and wire collated nails

### 4112 305mm Portable Angle Cutter

- SJS mechanism delivers outstanding performance and durability
- Detachable and adjustable solid metal base plate ideal for cutting 100mm in depth
- Large dead man switch for safer operation and less fatigue
- Dust exhaust shute
- Tool-less adjustable wheel guard

## The future is now.

Battery-powered tool technology has come a long way in the last few years – and Makita Mobile is definitely the future. Now, mobile tools can develop **tons of power, run for longer and recharge in less time.**

**There's also more choice.** With the Makita Mobile range of technology and voltage platforms, you can pick the perfect balance of tool power, size and weight to suit your work.

### Option 1. The Skin

If you're well set up with a particular Makita Mobile voltage platform, you may own enough batteries and chargers already. And that's when you have the option to just grab a Skin. It's just your new tool. So you can save because you're not paying for more batteries and another charger.

### Option 2. The Kit

You're on familiar ground here... Each kit gives you a new tool, packaged up with batteries and a charger in a self-contained set.

### Option 3. The Combo

When you want more power, Combos are the ideal shortcut. You can grab all the essential tools for your new mobile voltage, boxed (or bagged) up with batteries and a charger. You save because you're not buying all the tools individually, and you're not paying for more batteries and chargers than you really need.

#### 6260DWLE 9.6V 10mm Mobile Driver Drill

- Perfect for fitting door furniture, kitchen cupboard work, joinery and general fitout jobs
- 2 speed gear box let's you choose between speed and power
- 16 torque settings for precise screw depth setting, prevents driving of screws deeper than surface
- Includes 2 x batteries, case and torch

#### 8414DWAE 12V 13mm Hammer Driver Drill

- The newly redesigned clutch lock out lever lets you to switch between hammer drill, drill and drive modes without losing your clutch setting
- State-of-the-art two piece ND-31 Makita motor
- Clutch lock system
- Single sleeve keyless chuck

#### 6270DWLE 12V 10mm Mobile Driver Drill

- Perfect for fitting door furniture, kitchen cupboard work, joinery and general fitout jobs
- 2 speed gear box let's you choose between speed and power
- 16 torque settings for precise screw depth setting, prevents driving of screws deeper than surface
- Includes 2 x batteries, case and torch

#### 8434DWAE 14.4V 13mm Hammer Driver Drill

- The newly redesigned clutch lock out lever lets you to switch between hammer drill, drill and drive modes without losing your clutch setting
- State-of-the-art two piece ND-31 Makita motor
- Clutch lock system
- Single sleeve keyless chuck

#### 6280DWLE 14.4V 10mm Mobile Driver Drill

- Perfect for fitting door furniture, kitchen cupboard work, joinery and general fitout jobs
- 2 speed gear box let's you choose between speed and power
- 16 torque settings for precise screw depth setting, prevents driving of screws deeper than surface
- Includes 2 x batteries, case and torch

#### 8444DWAE 18V 13mm Hammer Driver Drill

- The newly redesigned clutch lock out lever lets you to switch between hammer drill, drill and drive modes without losing your clutch setting
- State-of-the-art two piece ND-31 Makita motor
- Clutch lock system
- Single sleeve keyless chuck

**6980FDWAE 12V Mobile Impact Driver**

- Externally accessible replaceable carbon brushes
- Soft fitting rubber clad palm grip
- Fully recessed screws in the hammer casing
- The brilliant LED Maklite will make fitting screws under stairs or inside a cabinet a breeze

**6349DWAE 18V 13mm Mobile Driver Drill**

- 13mm single sleeve keyless chuck
- Wrap around rubber handles for all day comfort and control
- 16 torque settings
- Variable speed and forward/reverse switch

**BDF460WAE 24V 13mm Mobile Driver Drill**

- Replaceable brushes extends motor life by up to 5 times
- Variable speed plus reverse
- 2 speed gear box
- Heavy duty keyless chuck
- Electric brake for accurate driving
- 16 torque settings for precise screw depth

**6835DWAE 12V Mobile Screwdriver**

- Auto feed screwdriving
- Easy 3 stage screw adjustment range from 25mm to 41mm screws
- Newly designed narrow housing allows driving 15mm from internal right angle walls (corners)
- Fast loading and unloading screw system with screw strips holding 50 screws

**BHP460WAE 24V 13mm Hammer Driver Drill**

- 3 mode dial for hammer, driver and drill action
- Replaceable brushes extends motor life by up to 5 times
- Variable speed plus reverse
- 2 speed gear box
- Electric brake for accurate driving
- 16 torque settings for precise screw depth

**6934FDWAE 14.4V Mobile Impact Wrench**

- Lightweight and compact body for superior handling
- Powerful 120Nm of torque to take on the toughest jobs
- The clever Maklite located at the head of the tool will provide bright white light right into where you are working, lighting up even the darkest corners

**BHR200SJE 24V 20mm Rotary Hammer**

- Great tool for hard drilling applications where you don't want to drag a lead around
- Intelligent charging system for efficient charging and increased battery life
- 3 mode rotation only, rotation with hammer and hammer only
- Centre line balance
- Variable speed with reverse
- Electric brake

**6935FDWAE 14.4V Mobile Impact Driver**

- Externally accessible replaceable carbon brushes
- Fully recessed screws in the hammer casing
- The brilliant LED Maklite will make fitting screws under stairs or inside a cabinet a breeze
- Forward/reverse with variable speed
- Rubber clad handle
- 2 piece motor

**6319DWAE 12V 13mm Mobile Driver Drill**

- 13mm single sleeve keyless chuck
- Wrap around rubber handles for all day comfort and control
- 16 torque settings
- Variable speed and forward/reverse switch

**DK1840AL3 18V 4 Piece Mobile System**

- System includes:
- 8444D MXT Hammer Driver Drill
  - JR180D Recipro Saw
  - 5620D Circular Saw
  - ML180 Swivel Head Torch
  - 3 x 2.0Ah Ni-Cd Batteries
  - Charger

**6339DWAE 14.4V 13mm Mobile Driver Drill**

- 13mm single sleeve keyless chuck
- Wrap around rubber handles for all day comfort and control
- 16 torque settings
- Variable speed and forward/reverse switch

**DK1842AL3 18V 4 Piece Mobile System**

- System includes:
- 8444D MXT Hammer Driver Drill
  - JR180D Recipro Saw
  - 5620D Circular Saw
  - ML180 Swivel Head Torch
  - 3 x 2.0Ah Ni-Cd Batteries
  - Charger

**DK1860AL3 18V 6 Piece Mobile System**

System includes:

- 8444D MXT Hammer Driver Drill
- JR180D Recipro Saw
- 5620D Circular Saw
- 4334D Jigsaw
- UB181D Blower
- ML181 Swivel Head Radio Torch
- 3 x 2.0Ah Ni-Cd Batteries
- Charger

**DK1861AL3 18V 6 Piece Mobile System**

System includes:

- 8444D MXT Hammer Driver Drill
- JR180D Recipro Saw
- 5620D Circular Saw
- 4334D Jigsaw
- UB181D Blower
- ML181 Swivel Head Radio Torch
- 3 x 2.0Ah Ni-Cd Batteries
- Charger

**9059K-2 230mm Angle Grinder**

- Power packed tool with torque limiter
- Deadman switch for user safety
- Rotatable solid alloy gear housing
- Dust proof bearings and resin coating on critical parts improves durability
- Automatic cut out brushes
- Includes 3 x grinding discs, case and cap

**9069SP Medium Industrial Angle Grinder**

- Large dead man switch for user safety
- Compact low profile gear housing great for working in tight areas
- Gear housing can be rotated to suit different cutting and grinding operations
- Dust proof bearings and resin coating on critical parts improve durability
- Adjustable wheel guard

**9207SPB 180mm 2 Speed Sander Polisher**

- Perfect addition for automotive repairs and general sanding work
- 2 speed to allow for use as a sander or a polisher
- All ball bearing construction for long life and smooth operation
- Reversible side handle to suit operators preference
- Cast alloy gear housing for durability

**9227CB 180mm Sander Polisher**

- Electronic speed control maintains constant speed under load, critical for a professional finish
- Perfect for clear coat finishes
- Variable speed with preset stepped speed dial, ideal for ultra slow polishing
- Hook and loop base for wool bonnet

**5902B 235mm Circular Saw**

- 2,100W motor
- Hardworking saw with the power to rip through most timbers
- Tight gear tolerances minimise arbor float and noise
- Easy to use height adjustment lock lever
- Front and rear bevel locks
- Improved handle design

**5007NB-2 185mm Circular Saw**

- Heavy duty 1,500W motor
- Thickened gauge, fully calibrated aluminium base for excellent stability and accuracy
- Durable and robust design with all needle and ball bearing construction for long tool life
- Excellent saws for ripping and crosscut, in the workshop or onsite
- Includes blades, tool bag and cap

**5057KB 185mm Dustless Circular Saw**

- Dust collection container captures waste for a clean work environment or can be connected to a dust extraction system
- Standard blade cuts 4-6mm exterior fibre cement sheet cladding
- Bevel cuts 0°-45° enabling a wide variety of cuts
- Fully enclosed upper guard

**5740NBSP 185mm Circular Saw**

- Thin kerf blade cuts through all grades of timber even hardwoods
- Improved handle design gives great balance
- Bevel lock to 45°
- Calibrated aluminium base for increased accuracy
- Includes extra Makedge blade

**N5900B-2 2000W 235mm Circular Saw**

- Fine gears and bearings tolerances for quieter, more accurate running
- Repositioned fan vent, to blow the cutting line clean
- Cutting window, to give you a clear view of your line and the blade
- Great balance and standard base dimensions to fit your old workbench
- Includes cap and extra blade

**N3701 6.35mm Trimmer**

- Ideal for trimming laminates, edging, freehand and template design work
- Clear base plate allows you to perform precise cutting for a perfect finish
- Robust and durable aluminium housing

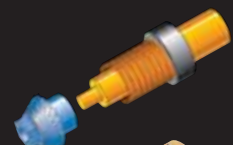

SJS is a massive advance in power, safety and durability.

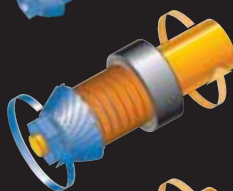

The design gives maximum transfer of power and torque, while minimising the wear and tear that happens with older technology.

Plus it disengages under extreme loads, protecting the user and the machine.

...and it's only inside Makita high powered angle grinders.

SJS is an advanced drive system, based on a coil spring which wraps around the internal drive spindle.

On start-up, the coil tightens around the spindle to produce smooth, direct and highly efficient drive from the motor to the grinder disc.

If the grinder 'grabs' or overloads the motor, the SJS is instantly disengaged by the reversed force and the drive spindle rotates freely.

#### 9553NBK 710W 100mm Angle Grinder

- 710W motor
- Ideal for domestic or light industrial use
- Durable motor with patented zigzag varnish and resin coating on critical parts increases tool reliability
- Includes 6 grinding discs and case

#### 9555NBK 710W 125mm Angle Grinder

- 710W motor
- Ideal for domestic or light industrial use
- Durable motor with patented zigzag varnish and resin coating on critical parts increases tool reliability
- Includes 5 x grinding discs and case

#### 9556NB 100mm Angle Grinder

- Powerful 840W motor
- Durable motor with patented zigzag varnish and resin coat on critical parts increases tool reliability
- 90° left and right head rotation
- Side switch conveniently located
- Side handle can be used in left or right handed position
- Shaft lock for easy wheel changes

#### 9557NB 115mm Angle Grinder

- Powerful 840W motor
- Durable motor with patented zigzag varnish and resin coat on critical parts increases tool reliability
- 90° left and right head rotation
- Side switch conveniently located
- Side handle can be used in left or right handed position
- Shaft lock for easy wheel changes

#### 9558NB 125mm Angle Grinder

- Powerful 840W motor
- Durable motor with patented zigzag varnish and resin coat on critical parts increases tool reliability
- 90° left and right head rotation
- Side switch conveniently located
- Side handle can be used in left or right handed position
- Shaft lock for easy wheel changes

#### 9564C 115mm Angle Grinder

- SJS mechanism delivers outstanding performance and durability
- Electronic limiter prevents accidental motor overload and burnout
- Dust proof bearings, zigzag and resin coated on critical parts
- Slim body design for comfortable grip and control
- Shaft lock for easy wheel changes
- Solid aluminium gear housing

#### 9565C 125mm Angle Grinder

- SJS mechanism delivers outstanding performance and durability
- Electronic limiter prevents accidental motor overload and burnout
- Dust proof bearings, zigzag and resin coated on critical parts
- Slim body design for comfortable grip and control
- Shaft lock for easy wheel changes
- Solid aluminium gear housing

#### 9565CN 125mm Angle Grinder

- Deadman switch
- Super Joint System (SJS) delivers outstanding performance and durability
- Electronic limiter prevents accidental motor overload and burnout
- Dust Proof Bearings, zigzag varnish and resin coated on critical parts to improve durability

#### 9565CV 125mm Angle Grinder

- Dial up variable speed for precise speed control
- Super Joint System (SJS) delivers outstanding performance and durability
- Electronic limiter prevents accidental motor overload and burnout
- Dust Proof Bearings, zigzag varnish and resin coated on critical parts to improve durability

### 9032 6mm, 9mm, 13mm Belt Sander

- The perfect sander for filing out housings or delicate work
- Head adjustment 110° for easy handling
- Variable speed control
- Can be connected to dust extraction system
- Low profile belt head, 14mm
- Optional 6mm and 12mm arms and belts available

### B04553 1/4 Sheet Palm Sander

- Ideal for close edge work
- Dust bag for clean and efficient sanding and can connect to dust extraction system
- All ball bearing construction for smooth operation
- Palm grip design for comfort and control

### 9403 100mm Belt Sander

- Excellent for floor sanding, cleaning and smoothing off table and bench tops
- Extremely powerful and robust
- A fast belt speed of 500m/min so it will rip through any timber quickly and efficiently
- Takes standard size belts 100 x 610mm for convenience

### B04561 Triangular Base Palm Sander

- Precision sanding action for confined areas
- Perfect for sanding louver doors, windows or any hard to reach areas
- Highly efficient through the pad dust collection with dust bag or can be connected to dust extraction system
- Fast and smooth operating action

### 1902SP 82mm Planer

- A sturdy, robust planer for all trade applications
- Powerful 580W motor
- Standard mini reversible TCT blades that provide a razor sharp long cutting life
- V-groove chamfering guide 9mm fixed rebate capability
- Includes a set of blades

### B04900V 1/2 Sheet Finishing Sander

- Integrated through the pad dust control with paper waste bags or connect to dust extraction system
- Dial up electronic variable speed control
- Hook and loop base pad that suits all common papers
- Reduced vibration for the operator with Makita's unique counter balancing system

### B03700SP 1/3 Sheet Finishing Sander

- Powerful and lightweight for coarse sanding of stock, through to fine finishing and preparation for paint or lacquer
- Highly efficient through the pad dust collection with removable dust bag or connect to dust extraction system
- Improved base system reduces vibration
- Includes 9 abrasive sheets and punch plate

### B05021 125mm Random Orbital Sander

- Sure grip hook and loop base provides quick paper changes
- Dial up variable speed
- Very low vibration
- Through the pad dust extraction
- Connects directly to dust extraction system or dust bag
- Detachable front handle for working in confined areas

### 9910SP 76mm Belt Sander

- Ideal for stripping back paintwork on weatherboards, furniture, etc
- Auto tracking system constantly keeps the belt centred
- Compact body design makes it ideal for flush finishing
- Efficient built in dust extraction system with bag provided or connects directly to dust extraction system

### B06030 150mm Random Orbital Sander

- Variable speed control
- Efficient through the pad dust extraction for a cleaner working environment
- 3mm orbit diameter provides a swirl free finish
- Ergonomic rubber clad rear handle
- Connects directly to dust extraction system or dust bag

### 9924DB 76mm Belt Sander

- This sander has the versatility to use both 76mm and 100x610mm belts
- Excellent for floor sanding, cleaning and smoothing off table and bench tops and can be connected to dust extraction system
- Fine adjustment tracking
- Large lever for quick belt changes
- Graphite pad for reduced belt wear and reduced heat in the sanding area

### B06040 150mm Random Orbital Sander

- Dual mode selector for 'random orbit' action (finishing) and 'random orbit with rotation' action (coarse and polishing)
- Variable speed control
- Very low vibration
- Recommend this sander to be connected to dust extraction system

**DA3010F 10mm Angle Drill**

- Ideal for close quarter or right angle drilling or driving
- Paddle switch for easy one handed operation
- Variable speed (0-1,400) for controlled drilling
- Handy Maklite feature lights up those dimly lit work areas
- Forward/reverse action

**DP4001K 13mm Drill**

- Aluminium gear housing for durability and longer tool life
- Large variable speed trigger with forward/reverse action
- Lock-on lever allows the drill to be locked at max. rpm with the flick of a lever
- Side handle swivels 360° for convenient operation

**DA3011F 10mm Angle Drill**

- Ideal for close quarter or right angle drilling or driving
- Paddle switch for easy one handed operation
- Variable speed (0-1,400) for controlled drilling
- Handy Maklite feature lights up those dimly lit work areas
- Forward/reverse action

**DP4003K 13mm Drill**

- Aluminium gear housing for durability and longer tool life
- Large variable speed trigger with forward/reverse action
- Lock-on lever allows the drill to be locked at max. rpm with the flick of a lever
- Side handle swivels 360° for convenient operation

**4323 Jigsaw**

- Powerful 400W motor
- Smooth and quiet cutting with anti-vibration
- Comfortable D-handle design
- Adjustable speed dial for greater accuracy for a wider range of applications
- Bevel cuts to 45° left or right
- Can be connected to dust extraction system

**GB600 150mm Bench Grinder**

- Ideal for the home workshop
- Complete with protective shields and tool rests
- 150mm 180W bench grinder
- 2.0 Amp 1/3Hp

**4340CT Jigsaw**

- Powerful 720W motor
- Variable speed control with constant speed electronics
- 3 mode oscillating feature allows faster cutting
- Accepts bayonet shank blades
- Adjustable aluminium base for bevel cutting
- Ergonomic design D-handle

**GB601 150mm Bench Grinder**

- Ideal for the home workshop
- Complete with protective shields and tool rests
- 150mm 240W bench grinder
- 2.5 Amp 1/2Hp

**4341CT Jigsaw**

- Powerful 720W motor
- Variable speed control with constant speed electronics
- Extremely low vibration
- 3 mode oscillating feature allows faster cutting
- Built in dust blower
- Tilting base that cuts up to 45°
- Barrel handle design

**GB800 205mm Bench Grinder**

- Check out this 540W machine which is perfect for light industrial applications
- Complete with protective shields and tool rests
- 4 Amp and 3/4Hp

**HG1100 Heat Gun**

- 2,000W of flameless heat
- Variable temperature control 100° -600°C
- 2 speed blower fan
- Perfect for stripping paint, varnish and many other applications
- Ceramic core protects the heating element, ensures a longer working life

**HG1100KIT Heat Gun Kit**

- 2,000W of flameless heat
- Variable temperature control 100° -600°C
- 2 speed blower fan
- Perfect for stripping paint, varnish and many other applications
- Ceramic core protects the heating element, ensures a longer working life

### HL500 Heat Gun

- Great for general purpose work
- 1,500W of flameless heat
- 2 temperature ranges
- 2 air speed settings
- Ceramic core protects the heating element – ensures a longer working life
- Unique body design allows the gun to stand upright for no hands operation

### HR2020 20mm Rotary Hammer

- 2 mode operation rotary hammer in masonry, standard drilling in other materials (optional chuck adaptor and chuck)
- Positive slide lock chuck accepts all SDS type bits
- Variable speed with reverse
- Torque limiter to protect the tool and operator if the bit should jam

### HM1304 Demolition Breaker

- Powerful 1,500W motor
- Accepts 30mm hexagonal bits
- Convenient lock-on button for continuous operation
- Secure locking bit system
- Internal 'O' ring fits around the end of the bit to ensure damaging masonry dust is kept out of the cylinder

### HR2450 24mm Rotary Hammer

- 2.7 joules
- Versatile 3 mode operation for rotary hammer, hammer only in masonry, standard drilling in other materials (optional chuck adaptor)
- Chuck accepts all SDS type bits
- Variable speed with reverse

### HP1620KSP 13mm Hammer Drill

- Extremely light, compact and a powerful 650W motor
- The reversing system ensures full power in both forward and reverse
- Large trigger switch for easy operation
- Ergonomic in-line design for maximum power, control and comfort
- Side handle swivels 360°
- Includes 9 piece bit set and case

### HR2450FT 24mm Rotary Hammer

- 2.7 joules
- Versatile 3 mode operation for rotary hammer, hammer only in masonry, standard drilling in other materials (optional chuck adaptor)
- Chuck accepts all SDS type bits
- HR2450FT comes standard with SDS chuck and keyless drill chuck
- Maklite built into the handle casts light directly onto the work area

### HP1621KSP 13mm Hammer Drill

- Extremely light, compact and a powerful 650W
- The reversing system ensures full power in both forward and reverse
- Large trigger switch for easy operation
- Ergonomic in-line design for maximum power, control and comfort
- Keyless chuck
- Includes 9 piece bit set and case

### HR3000C 30mm Rotary Hammer

- 5.3 joules per impact
- 3 mode dial selects hammer, drill or hammer drill
- Variable speed control dial
- Auto cut out brushes and service indicator light minimises down time and maximises motor life

### HP2051 20mm 2 Speed Hammer Drill

- These power packed hammer drills will take on the most demanding jobs with ease
- Built in torque limiter reduces risk of damage to the drill and operator if the bit jams
- 2 speed gearbox with forward/reverse
- Keyless chuck

### HR4000C 40mm Rotary Hammer

- Electronic variable speed control dial
- Soft start electronic switch
- Automatic cut out brushes with service indicator light and torque limiter
- 2 mode operation – rotation with hammer and hammer only
- D-handle for chiselling and straight handle for drilling

### HP2071F 20mm 2 Speed Hammer Drill

- Super powerful 1,010W motor
- 2 speed mechanical gearbox
- Variable speed trigger and electronic speed adjusting dial
- A torque limiter to protect you and the tool from damage
- Built-in Maklite casts a light onto the drilling area when lighting is inadequate

### HR5001C 50mm Rotary Hammer

- Power packed to handle drill bits up to 50mm diameter with 2 mode operation – rotation with hammer and hammer only
- Electronic soft start with a large 3 finger trigger to reduce fatigue during prolonged work
- Automatic cut out brushes with service indicator light and torque limiter

**HK0500 Power Scraper**

- Powerful 550W motor with 2,000–3,500bpm for maximum performance
- 12 position bit adjustment
- Variable speed control dial
- Large and comfortable trigger switch
- One touch sliding chuck for easy bit installation and removal

**HM1400 Electric Breaker**

- Hard hitting reliability in a comfortable T-grip design
- Air cushioned system prevents excessive vibration and allows greater operator comfort
- Automatic cut out brushes
- 30mm hexagonal bit shank
- Auto idle will only hammer when the bit is in contact with the material

**HK1810 Power Scraper**

- For light scraping, chiselling and chipping; ideal for remodelling or renovation work
- Air cushion hammering for long tool life
- Quick change bit retainer
- Automatic cut out brushes
- All ball bearing construction for longer tool life
- Variable speed

**HM1810 Electric Breaker**

- Lowest vibration in its class
- AVT counter weight mechanism helps to reduce vibration
- Auto cut-off brushes
- Warning light indicates trouble with cord
- 28.6mm Hex shank

**HM0860C Demolition Hammer**

- Full wave electronic variable speed and power control
- 12 joules per impact power
- Spade or chisel can be locked into 12 different positions
- Automatic cut out brushes
- Warning indicator light lets you know when the tool requires servicing

**JN1601 1.6mm Nibbler**

- Clean and precise work in keystone plate, deck plate and other corrugated sheet materials
- Die rotates 360°
- Ergonomic, slim body design for easy gripping
- Lock on sliding switch for continuous use
- Built-in thickness gauge for convenience

**HM1100C Demolition Hammer**

- Powerful 1050 watt motor
- 16 angle settings for chisel bits
- Rubber cladded rear and side handle for reduced vibration
- Automatic brush cut-out system
- Soft start feature
- Service indicator lamp
- Hammer idling mode
- Slide on and off switch

**JN3200 3.2mm Nibbler**

- Built-in thickness gauge for convenience
- Easy punch and die replacement for less down time
- Powerful 820W motor allows cuts through 3.2mm mild steel
- Cutting line and blade action easily visible

**HM1202C Demolition Hammer**

- Large capacity SDS Max demolition hammer for speed, durability and comfort
- Electronic speed adjusting dial
- Powerful 1,450W motor to handle the most demanding jobs
- 12 angle settings for bit position
- Automatic cut out brushes with service indicator light

**JR3050T Recipro Saw**

- A huge new 1,010W motor
- Strokes-per-minute have been increased by almost 20%
- Minimal vibration
- A bigger variable speed trigger with lock-on button
- Push in tool-less blade change system with quick release

**HM1304 Demolition Breaker**

- Powerful 1,500W motor
- Accepts 30mm hexagonal bits
- Lock-on button for continuous operation
- Secure locking bit system
- Internal 'O' ring fits around the end of the bit to ensure damaging masonry dust is kept out of the cylinder

**JR3070CT Recipro Saw**

- Featuring AVT counter weight mechanism which helps reduce vibration
- Preset dial for speed control for optimal stroke speed for application

### JS1300 1.3mm Straight Shears

- 360° swivel shear head for increased manoeuvrability
- Large variable speed trigger for controlled cutting speed
- Brushes are easily accessible for fast replacement
- Lock on button for continuous operation

### JS1600 1.6mm Shears

- Blade design results in no material loss
- Body grip design with a paddle switch for easy one handed operation
- A lock off switch prevents accident starting
- Built-in thickness gauge for convenience

### JS1660 1.6mm Straight Shears

- Ideal for straight cutting
- Mar-free model has a stepped blade, shims for blade adjustment to minimise burrs

### JS1670 1.0mm Straight Shears

- Cuts close curves, right or left, in 30mm radius mild or stainless steel
- Visible cutting line
- Continuous metal curl in one direction for easier operation

### JS3200 3.2mm Shears

- For heavy duty cutting up to 3.2mm mild steel and 2.5mm stainless steel
- Blades have 4 cutting edges each
- Built-in thickness gauge
- Ball and needle bearing construction for long tool life
- Highly visible sight line for precise following of patterns

### LC1230 305mm Metal Cutting Saw

- Powerful 1,750W motor
- Lock off button prevents accidental starting
- Tool-less guide plate adjusts 0°-45° for quick and easy mitre cutting
- Large cast aluminium base for stability
- Externally accessible brushes for easy maintenance

### LS0714 190mm Slide Compound Saw

- Four steel slide arms on linear bearings move in two stages, to give this 190mm saw a massive 300mm width of cut
- 1,010W motor
- Bevel cuts up to 45° left or 5° right perfect when you are undercutting boards for a super snug fit

### LS1013 260mm Slide Compound Saw

- 1,430W motor
- Compound and mitre cuts to 45° left and right
- Dust extraction to bag or can be connected to dust extraction system
- Self closing safety blade cover
- Constant speed control, ideal for cutting into even the hardest timbers

### LS1040 260mm Compound Mitre Saw

- Heavy duty 1,650W motor
- Precision machined aluminium base, with fully calibrated angles
- Bevel cuts 45° left only
- Electric brake
- Removable safety lock button
- Dust extraction to bag or dust extraction system

### LS1214 305mm Slide Compound Mitre Saw

- The deepest cutting capacity of any 305mm slide saw on the market, cutting a huge 115mm deep
- Powerful motor 1,650W
- Precision bevel cutting 45° both left and right, with positive stop at 33.9° ideal for crown moulding
- Mitre cutting is a breeze with the base rotating 52° right and 47° to the left with positive stops at all common angles

### UT120 Power Mixer

- Dial up variable speed control makes easy batch mixing and consistency in materials
- Electronic speed control for soft start up, constant speed, pre-selectable speed
- Thermal and current overload protection for long durability
- Full metal gearbox
- Lock on switch

### NHP1310 13mm 2 Speed Hammer Drill

- Powerful 600W motor
- Quick action change dial for hammer and rotation or rotation only
- Ergonomic handle design for comfort and control
- 2 speed gear selection with variable speed in both ranges gives you greater control and accuracy

### SG1250 125mm Wall Chaser

- Ergonomically designed handle for comfort and control
- Conveniently located front cover prevents dust from spreading in every cutting depth
- SJS feature provides smooth and comfortable cutting by reducing the start up shock and protection from accidental wheel jam
- Easy blade change

### 6906 19mm Impact Wrench

- Powerful 588 Nm of torque
- Rocker type reversing switch for easy one handed or reverse operation
- Side handle adjusts 360° for convenient operation
- Externally accessible carbon brushes for easy maintenance

### TW0200 12.7mm square drive Impact Wrench

- High torque of 200Nm
- Efficient impact system with less vibration and longer tool life
- Variable speed switch with slide through forward/reverse switch
- Convenient tool hook attaches to both sides of tool

### 7104L Chain Mortiser

- Notches or cuts through-holes in thick wood stock quickly, cleanly and accurately
- Portable at only 17kg
- Large adjustable vice for attaching firmly onto logs
- Ideal for post and rail fencing and door lock mortising

### DPC7311 Petrol Power Cut

- Unique 5 stage air filter system
- Perfectly balanced
- Optimum vibration dampening
- Decompression button for easy starting
- Quick adjust belt and blade cover system
- Large volume muffler
- Computer controlled ignition

### SC130DRA Mobile Rod Cutter

- Powerful 12V motor ensures a clean cut into steel rod
- Up to 150 rods (10mm) on a single charge
- Powerful hydraulic cutting with low vibration
- Variable speed trigger

### TW0350 12.7mm square drive Impact Wrench

- Incredible high fastening torque of 350Nm
- Aluminium hammer case with high durability
- Cylinder formed housing with high rigidity and durability
- Efficient impact system with less vibration and longer tool life
- Forward and Reverse rocker switch

### TW1000 25.4mm square drive Impact Wrench

- This powerhouse packs 1000Nm of torque, with it's lightweight plastic/glass reinforced housing and handle
- Rubber bumper protection front/rear and on the base of the handle
- It's rubberised soft grip makes for a comfortable tool to work with

**AVT**™  
ANTI VIBRATION TECHNOLOGY

Power tool vibration is getting a real hammering from OH&S organisations around the world... with good reason. Prolonged exposure to tool vibration can cause permanent nerve, muscle and joint damage.

So we're proud to be taking the bad vibes out of Makita tools, using the same heavy-duty engineering techniques that protect buildings from earthquakes.

**Makita**®  
It's what's inside that counts.

# METABO TOOLS FOR THE PROFESSIONAL

## SAFETY CLUTCH

The Metabo S Automatic Safety Clutch has proven its worth in millions of Metabo grinders. If the tool jams, the automatic safety clutch instantly slips the gears and reduces torque, preventing kickback and injury. In addition to protecting you, it also protects

the gearbox and motor, preventing burnout and prolonging the life of the tool.

Selected Metabo grinders also feature Soft Start, Restart Protection, Safety Switch and Deadman Switch for your protection.

## MARATHON MOTOR

Metabo's Marathon motor lasts up to 5 times longer than other powertool motors. Every aspect of its design is geared towards longer life and exceptional performance. It is a high efficiency,

heat tolerant motor with doubly protected windings, high performance cooling fan, and patented winding protection grid.

**MFE 30**  
**1400 Watt**  
**Wall Chaser**

**MFX 65**  
**2500 Watt**  
**Wall Chaser**

**ASA 1202 & MFE 30**  
**Wall Chaser**  
**& Dust Extractor**

- 3.5Nm, 125mm diamond cutting blades
- Chase up to 30mm wide and 30mm deep
- Safety Clutch and Deadman Switch
- No tools required with rotating hand grip
- Made in Germany

- 18Nm of torque for the toughest jobs.
- 7 settings to cut slots or chases 3-41mm wide
- Adjustable depth of cut 20 - 65mm
- Stable, clean cutting with its 4 wide rollers
- Made in Germany

- Combine Metabo's MFE 30 Wall Chaser with the ASA 1202 Dust Extractor
- The extractor has a 1200 watt motor with high suction (248mbar) and 25lt capacity
- Smart power outlet on vacuum

**W 6-100 Combi**  
**650 Watt**  
**100mm Angle Grinder**

**W 10-125Q**  
**1010 Watt**  
**125mm Angle Grinder**

**W 14-125 Ergo**  
**1400 Watt**  
**125mm Angle Grinder**

- Ideal for builders and tilers
- Lightweight with a narrow body, perfect for small cutting and grinding jobs
- Plus tile cutting attachment
- Rear-mounted switch protected from dust

- Ideal for engineers, welders and manufacturers
- Perfect balance of weight and power
- Safety clutch protects you from kickback injury
- 'Quick' tool-less disc change saves hassle
- German Made • Anti-Vibration side handle

- Ideal for heavy engineering and pipe fitting
- 50% more torque than other 5" grinders
- Lightweight with a rotatable, 3-position rear handle for total control of all that power
- German Made • Anti-Vibration side handle

**WE 14-150 Plus**  
**1400 Watt**  
**150mm Angle Grinder**

**W 25-230**  
**2500 Watt**  
**230mm Angle Grinder**

**WX 23-230Q**  
**2300 Watt**  
**230mm Angle Grinder**

- Packed with safety features: soft start, restart protection, overload cut-out, deadman switch and Metabo's unique safety clutch
- 'Quick' tool-less disc change
- VTC electronics maintain constant disc speed

- Ideal for heavy engineering, rigging, foundries
- Metabo's most powerful grinder
- Rotatable hand grip & 3 position side handle
- Spindle lock and adjustable blade guard
- German Made • Anti-Vibration side handle

- Ideal for heavy engineering, rigging, foundries
- Soft start for smooth start up
- Rotatable hand grip & 3 position side handle
- Spindle lock and adjustable blade guard
- German Made • Anti-Vibration side handle

**CS 14-15**  
**2100 Watt, 355mm**  
**Cut-off Saw**

**GE 700**  
**710 Watt**  
**Electronic Die Grinder**

**GE 900 Plus**  
**900 Watt**  
**Electronic Die Grinder**

- Ideal for rapid and precise cutting of steel, Non Ferrous metals, iron and cast iron
- Mitre adjustment up to 45 deg
- Cutting capacity: Rolled bars 65mm ø; Pipes 120mm ø; Structural Steel 120 x 130mm

- Versatile, multi-purpose die grinder
- Variable speed for grinding and cutting hard and soft materials (including plastic)
- Spindle lock for easy changing of tools
- Made in Germany

- Very high torque grinder for the toughest jobs
- Variable speed for grinding and cutting hard and soft materials (including plastic)
- Spindle lock for easy changing of tools
- Made in Germany

# METABO TOOLS FOR THE PROFESSIONAL

**KHE 32**  
900 Watt, SDS Plus  
3 mode Rotary Hammer

CODE! Ready

Ideal for all tradespeople who work with concrete on site

- Hammer, chisel and drill at low speed (with optional keyless chuck)
- Cruise through concrete up to 32mm, wood to 40mm, steel to 18mm

**KHE 28**  
1010 Watt, SDS Plus  
3 mode Rotary Hammer

CODE! Ready

Ideal for all tradespeople who work with concrete on site

- Hammer, chisel and drill at low speed (with optional keyless chuck)
- Cruise through concrete up to 28mm, wood to 40mm, steel to 13mm

**KHE 55 | KHE 75**  
1050 | 1150 Watt  
SDS Max Rotary Hammer

CODE! Ready

- 40/45mm max drill Ø
- 8 Chisel positions
- VTC Electronics
- 1300-2600 / 1325-2650 impacts per min.
- 1-9 / 1-10J Single blow energy
- Machine weight 5.9 / 6.4kg

## 4 MODE MULTIHAMMERS

Hammer, chisel, high-speed drill,  
low-speed drill

**UHE 22**  
705 Watt, SDS Plus

**UHE 28**  
1010 Watt, SDS Plus

Metabo's SDS Plus Multihammers are that unique all-round tool you've always wanted. Cruise through concrete quickly and cleanly and then, with the turn of a knob and a 3 second chuck change, you can also drill at high or low speed. For chipping or tile removal, it also has chisel mode.

UHE 28 pictured

UHE 22	22mm	30mm	13mm	✓	✓	-

**BHE 26**  
750 Watt, SDS Plus  
2 mode Rotary Hammer

CODE! Ready

Ideal for all tradespeople who work with concrete

- Hammer and drill at low speed (with optional keyless chuck)
- Cruise through concrete up to 26mm, wood to 40mm, steel to 13mm

**MHE 95**  
1500 Watt, SDS Max Demolition Hammer

CODE! Ready

- SDS Max Chisel
- 12 Chisel positions
- VTC Electronics
- Impacts per minute 1020-2040
- Single-blow energy 5-25J
- Machine weight 9.8kg

NEW!

**BHE 20 Compact**  
450 Watt, SDS Plus  
2 mode Rotary Hammer

- Compact design, built tough in Germany and it weighs only 2.6 kg
- Rubber coated handle for comfort
- Drills concrete 16mm, wood 20mm
- 2 position Anti-Vibration side handle (not pictured)
- Safety Clutch

**MHE 65**  
1150 Watt  
SDS Max Chipping Hammer

CODE! Ready

- SDS Max Chisel
- 8 Chisel positions
- VTC Electronics
- Impacts per minute 1325-2650
- Single-blow energy 1-10J
- Machine weight 5.7kg

## IS YOUR TOOL PROTECTED?

Metabo's CODE! immobiliser makes your power tool useless to potential thieves.

Metabo's CODE! works with the same ease as a car immobiliser - you simply program your remote with a 3-digit code of your choice. Then, at the push of a button, your Metabo power tool is immobilised and can't be operated until re-activated with your remote. CODE! is a powerful deterrent to thieves.

**METABO'S 3YR

# METABO TOOLS FOR THE PROFESSIONAL

**SE 2800**  
**400 Watt**  
**Screwdriver**

New ergonomic and lightweight design for user comfort even after all day use

- 12 Nm torque • Speed 0 - 2,800 rpm
- Scaffolding hook for convenience
- Patented bit-change system
- Weighs less than 1.2kg!

**SE 4000**  
**400 Watt**  
**Drywall Screwdriver**

New ergonomic and lightweight design for user comfort even after all day use

- 6 Nm torque • Speed 0 - 4,000 rpm
- Scaffolding hook for convenience
- Patented bit-change system
- Weighs less than 1.2kg!

**DWSE 6.3**  
**550 Watt**  
**Screwdriver**

Ideal for roofers

- Adjustable, removable depth stop
- 10 torque settings from 3-18Nm
- Self drilling screws up to 6.3mm diam (14 gauge), self drilling wood screws up to 7mm diameter
- Made in Germany

**USE 8**  
**550 Watt**  
**Screwdriver**

Ideal for high-torque fastening in hardwood or steel

- Precise, uniform finishing with 10-stage torque clutch
- Adjustable, removable depth stop
- Optimal speed for self tapping screws up to 14 gauge and self drilling wood screws 8mm x 100 mm
- Made in Germany

**BE 622**  
**620 Watt**  
**Drill**

Ideal for builders, carpenters, plumbers and sparkies

- Triple reduction gearing delivers huge 35Nm torque
- Variable speed and reversing for various applications
- Built to last with die cast aluminium gear housing
- Drilling capacities: steel 16mm, softwood 40mm
- Made in Germany

**BE 710**  
**710 Watt**  
**Drill**

Ideal for engineering and metalworking

- 2 speed gearbox with variable speed, reversing
- Built to last with alloy gear housing, Marathon motor
- Drilling capacities: steel 13mm/8mm, softwood 40mm/25mm
- Made in Germany

**BDE 1100**  
**1100 Watt**  
**Drill**

Ideal for heavy engineering applications

- 55Nm torque and 16mm chuck for the really big jobs
- 2 speed gearbox with variable speed, reversing
- Drilling capacities: steel 16mm/10mm, softwood 40mm/25mm
- Made in Germany

**SBE 560**  
**560 Watt**  
**Impact Drill**

Ideal for tradespeople who need a versatile drill

- Outstanding power-to-weight gives 5Nm torque
- 13mm quick action keyless chuck
- Variable speed and reverse for precise control
- Drilling capacities: 10mm steel, 20mm wood, 12mm concrete

**SBE 705**  
**705 Watt**  
**Impact Drill**

Ideal for carpenters, maintenance workers and tradies

- 2 speed gearbox with variable speed, reversing
- Built to last with alloy gear housing, Marathon motor
- Drilling capacities: concrete 20mm, steel 13/8mm, softwood 40/25mm
- Made in Germany

**SBE 750**  
**750 Watt**  
**Impact Drill**

Ideal for plumbers, sparkies, and builders

- 2 speed gearbox with variable speed, reversing
- Built to last with alloy gear housing, Marathon motor
- Drilling capacities: concrete 20mm, steel 13/8mm, softwood 40/25mm
- Made in Germany

**SAFETY FIRST**

**SBE 850 Contact**  
**850 Watt**  
**Impact Drill**

Metabo's unique Contact feature protects the user from shock if they drill into live wiring or earthed material. As soon as the bit strikes the conducting or earthed material, the tool switches off immediately.

**SBE 850 Impulse**  
**850 Watt**  
**Impact Drill**

Ideal for shopfitters, cabinetmakers and carpenters

- Impulse function for easy starts on smooth surfaces and fast removal of screws with damaged heads.
- Drilling capacities: concrete 20mm, steel 13/8mm, softwood 40/25mm
- Made in Germany

**SBE 1010 Plus**  
**1010 Watt**  
**Heavy Duty Impact Drill**

- 28 Nm of torque for heavy drilling work and VTC electronics for constant drill speed even under very heavy loads
- 2 speed gearbox with variable speed, reversing
- Overload and restart protection, Safety clutch
- Made in Germany

**CODE! Ready**

Ideal for sparkies, plumbers, renovators and builders

- Drilling capacities: concrete 20mm, steel 13/8mm, softwood 40/25mm
- Made in Germany

**RWE 1100**  
**1100 Watt**  
**Agitator**

- Ideal for plasterers, painters & bricklayers
- High torque agitation and mixing device for heavy-duty, continuous use by
- Fast change of agitator paddle using the keyless adapter (accessory)
- Made in Germany

**work. don't play.**

# METABO TOOLS FOR THE PROFESSIONAL

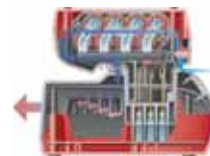

**Li-Power is Metabo's unique combination of Lithium Ion batteries and Air-Cooled chargers that delivers outstanding performance and service life**

## LITHIUM ION BATTERIES

Lighter. Weighs up to 40% less than other battery types. Stronger. Will perform up to 40% more work per charge than Ni-Cd batteries. Longer. The 'Smart Pack' battery is designed for self-preservation, giving you a longer useful life.

## AIR-COOLED CHARGERS

Li-Power chargers use the latest Air-Cooled charging technology to prolong the battery's useful life. The chargers have a built-in fan which cools the battery fast, reducing the charging time dramatically and protecting the battery cells from damage.

### BSZ 14.4 Impulse Li 14.4 Volt Lithium Ion Cordless Drill

- With 2 x Li-Power batteries that are lighter, give more work per charge & designed to last longer than NiCd
- AC 30 Plus Air-Cooled charger
- German-made, with Impulse function for removing damaged screws easily
- 20 torque settings. Drills steel 12mm, wood 30mm

### BSZ 18 Impulse Li 18 Volt Lithium Ion Cordless Drill

- With 2 x Li-Power batteries that are lighter, give more work per charge & designed to last longer than NiCd
- AC 30 Plus Air-Cooled charger
- German-made, with Impulse function for removing damaged screws easily
- 20 torque settings. Drills steel 12mm, wood 35mm

### BHA 18 18 Volt Cordless Rotary Hammer

- Compact L-shape design gives greater access in tight areas
- Light-weight and ergonomic
- Comfortable, rubber coated grip
- 2 position Anti-Vibration side handle (not pictured)
- 2 x 2.2Ah Li-Ion batteries & AC 30 Plus charger

### ASE 18 18 Volt Sabre Saw

- Light and well balanced, with a comfortable handle
- Maximum power for any application
- Quick tool-less blade saves time and hassle
- Blade can be inverted 180° for greater access
- Tool only, not supplied with batteries or charger
- Suits Li-Power system & current BSZ NiCd batteries

### 18 Volt Li Kit 18 Volt Lithium Ion Kit

- Kit includes BSZ 18 Impulse Li Drill/Driver, KSAP 18 Li Circular Saw, ASE 18 Li Sabre Saw & MLA 18 Li Torch
- With 2 x Li-Power batteries that are lighter, give more work per charge & designed to last longer than NiCd
- AC 30 Plus Air-Cooled charger

### SBP 18 Plus 18 Volt Cordless Impact Drill

- German-made with outstanding max torque of 65Nm, 5 torque settings and impact function.
- Unique 'Impulse' mode for easy removal of damaged screws and easy starts on smooth surfaces
- Drilling capacity: Concrete up to 16mm, Steel up to 13mm, Softwood up to 50mm

### BSP 18 Plus 18 Volt Cordless Drill

- German-made with incredible max torque of 65Nm and 20 torque settings for precise screw driving
- Unique 'Impulse' mode for easy removal of damaged screws and easy starts on smooth surfaces
- Drilling capacity: Steel up to 13mm, Softwood up to 50mm

### BSP 15.6 Plus 15.6 Volt Cordless Drill

- German-made with outstanding max torque of 60Nm and 20 torque settings for precise screw driving
- Unique 'Impulse' mode for easy removal of damaged screws and easy starts on smooth surfaces
- Drilling capacity: Steel up to 13mm, Softwood up to 45mm

### PowerMaxx 4.8 Volt Compact Screwdriver

- Perfect for every tool box
- Small and light, it can get into the tightest spots
  - Built in Germany with a whopping 9Nm max. torque, this is a trade-tough tool
  - 2-speed gearbox & 20 torque settings
  - Optional keyless chuck and angle drill attachment

### H 1600 1600 Watt Heat Gun

- Ideal for stripping paint, heat shrinking cables, bending conduit, thawing frozen water pipes, etc.
- 3 air-flow rates & 3 heat levels: 50 / 350 / 555 °C
  - Easy-to-clean air filter, for a long useful life
  - Powerful motor with optimal cooling
  - Made in Germany

### HE 2000 2000 Watt Heat Gun

- Ideal for mobile and stationary heating tasks
- 3 air flow rates & progressive heat variation from 50°C to 600°C
  - Easy-to-clean air filter, for a long useful life
  - Powerful motor with optimal cooling
  - Made in Germany

**METABO'S 3YR  
PROFESSIONAL  
WARRANTY**

**metabo®**  
**work. don't play.**

# METABO TOOLS FOR THE PROFESSIONAL

**STE 70**  
**570 Watt**  
**Jig Saw**

- Ideal for builders, carpenters and renovators
- VC electronics for constant speed even under load
  - 4 stage orbital blade movement for faster, easier & smoother cutting
  - Timber 70mm; NF metals 20mm; Sheet metal 6mm
  - Made in Germany

**STEB 135**  
**720 Watt**  
**Jig Saw**

- Ideal for carpenters, woodworkers and shopfitters
- 'Quick' tool-less blade change saves you time
  - 5 stage orbital blade action for fast, smooth cuts
  - VC electronics for constant speed even under load
  - Timber 135mm; NFMetal 30mm; SheetSteel 10mm
  - Made in Germany

**STE 135**  
**720 Watt**  
**Jig Saw**

- Ideal for carpenters, woodworkers and shopfitters
- 'Quick' tool-less blade change saves you time
  - 5 stage orbital blade action for fast, smooth cuts
  - VC electronics for constant speed even under load
  - Timber 135mm; NF Metals 30mm; Sheet Steel 10mm
  - Made in Germany

## UNIQUE PRODUCT

**LF 724 S**  
**710 Watt**  
**Paint Remover**

Removes paint 3 times faster than a belt sander, it can also be used as a fine planer on untreated wood. Strip rebates in windows and doors with the side cutting blades. Less toxic than chemical paint removal, it's also easy to clean up afterwards - just connect a Metabo dust extractor

**Ho 0882**  
**800 Watt**  
**Planer**

- Ideal for builders, carpenters and renovators
- Cutting width 82mm, 0-3mm cutting depth
  - Solid, 2-sided TCT blades, in quick cassette system for easy blade change
  - Chip and shaving ejector can be set left or right
  - Made in Germany

**Ho E 0983**  
**900 Watt**  
**Electronic Planer**

- Ideal for carpenters, woodworkers and shopfitters
- Cutting width 82mm, 0-3mm cutting depth
  - Electronic speed control for uniform planing results
  - Planing guide tiltable to 45° for bevels
  - Solid 2-sided TCT blades, in quick cassette system
  - Made in Germany

**KS 66**  
**1400 Watt**  
**190mm Circular Saw**

- Ideal for carpenters, woodworkers and builders
- Use with optional guide system for precise results
  - Max cutting depth 66mm, bevels up to 45°
  - Automatic safety clutch to prevent kick back injuries
  - Built to last with aluminium gear housing
  - Made in Germany

**PSE 1200**  
**1200 Watt**  
**Sabre Saw**

- The most powerful sabre saw in Australia
- 28mm cutting stroke cuts more stock in less time
  - Variable speed control maintains speed under load
  - Rotatable rear handle for those difficult positions
  - Blade can be inverted 180° to get into tight spots
  - Tool-less blade changes in seconds

**DSE 300 Intec**  
**300 Watt**  
**Triangular Sander**

- Ideal for carpenters, woodworkers and builders
- Unique integrated sanding dust collector
  - Variable speed for sanding a variety of materials including heat-sensitive materials and surfaces
  - Soft foam base-plate adapts perfectly to work piece
  - Made in Germany

**Sr 10-23 Intec**  
**200 Watt**  
**1/3 Sheet**  
**Orbital Sander**

- Fine-balancing system ensures the smoothest finish
- Quick clamping system for easy paper changes
- No protruding parts give full access into corners
- Built-in dust collector, so you don't need an extractor for a clean work space

**SXE 450 Duo**  
**400 Watt**  
**Electronic Orbital Sander**

World's only dual orbit sander, with 6mm orbit for fast stock removal and 3mm orbit for fine finishing

- Ideal for anyone who finishes wood or metal surfaces
- Perfectly balanced and equipped with variable speed, it's the right sander for any application
  - 150mm Velcro-backed pad for fast disc changes
  - Sturdy die-cast alloy bearing housing for long life
  - Made in Germany

## DUAL ORBIT SIZES

**Sr 358**  
**350 Watt**  
**1/2 Sheet**  
**Orbital Sander**

- Ideal for woodworkers and French polishers
- High-grade base-plate for a smooth, even finish
  - Low-vibration is ensured by fine-balancing system
  - Quick-grip, rubber coated paper clamping device
  - Die-cast aluminium bearing housing for long life
  - Made in Germany

**SPA 1101**  
**Dust Collector**

- The SPA 1101 is designed for use with all wood working machines in the workshop
- Vacuum 740 Pa
- Filter Surface Area 2m²
- 60L Collection Bin Size
- Rated Volume Flow 548m³/h
- Made in Germany

Metabo's XXL Warranty Program is a 2yr extension of the 1yr warranty for customers who register personal information online ([www.metabo.com/xxl](http://www.metabo.com/xxl)) within four weeks of purchase.

**metabo**  
work. don't play.

# METABO TOOLS FOR THE PROFESSIONAL

**KGS 331**  
**1600 Watt 10"**  
**Sliding Compound Mitre Saw**

- Equipped with a powerful 1600 watt induction motor and 80 tooth TCT blade, the KGS 331 gives you precise, maintenance-free performance when cutting timber and aluminium.
- Max cutting depth 54mm and max cutting width 300mm (with packing)
- Mitres up to 45° left and 45° right as well as beveling up to 45° left
- Built for hard work with a powerful motor and tough, die cast aluminum base

**BAS 260 Swift**  
**350 Watt**  
**Band Saw**

- Cast iron saw table: 340 x 335, tiltable to 45°
- Throat Capacity: 245mm, cutting height: 100mm
- Mitre fence and rip fence included • Weight 32 kg
- Adjust the top and bottom roller guides without tools
- Safety switch on doors stop machine when opened

**KGS 305**  
**2000 Watt 12"**  
**Sliding Compound Mitre Saw**

- With the biggest cutting capacity around, it's German-engineered and designed with professionals in mind
- 305mm blade (std): max 320mm cutting width, 115mm cutting depth
- Can also be used with a 315mm blade to give a max 330mm cutting width, 120mm cutting depth
- Set mitre & bevel angles from the front of the machine. Mitres up to 50° L, 60° R & bevels up to 47° L & R
- Switch between trenching and cross-cutting in seconds

**BAS 317**  
**900 Watt**  
**Band Saw**

- Machine Size: 590 x 610 x 1265
- Cast iron saw table: 400 x 548, tiltable to 45°
- Throat Capacity: 305mm, Throat height: 160mm
- Workstand, mitre fence and rip fence included
- Weight 60 kg

**HC 300**  
**1850 Watt**  
**Planer/Thicknesser**

- Tough, teflon-clad die cast aluminium planing bed & cast iron thickening bed for accurate results
- The long, stable mitre fence can be adjusted from 0° - 45°, giving you plenty of support for accurate cuts
- High grade steel rollers ensures a smooth, even feed rate of 5m/min
- The patented specially sprung rollers minimise sniping of your workpiece
- In the event of a power failure, the HC 300 won't restart until you want it to

**BAS 505 G**  
**1500 Watt**  
**Band Saw**

- Cast iron table size: 536 x 640mm, tiltable to 45°
- 280mm saw blade stroke length
- Super-speed brass rollers and 3 pulley guide for accuracy and durability
- Made in Germany • Weight 146kg

**TS 250**  
**2000 Watt**  
**Table Saw**

- It's got the power you need for big cuts and the precision you'd expect from a more expensive saw.
- Quickly adjust the FULL bevel angle range without any tools, from -1.5° to 46.5°
- The extendable table gives you a huge 620mm RHS ripping capacity
- At only 32kg, it's also light and compact for easy transport if you work on site.

**TKHS 315 M**  
**2500 Watt**  
**Site Saw**

- Perfect for cutting beams, boards and large panels.
- Motor speed 2,750 rpm
- Depth of Cut 85mm at 90°; 60mm at 45°
- Weight 71kg
- Made in Germany

Metabo's XXL Warranty Program is a 2yr extension of the 1yr warranty for customers who register personal information online ([www.metabo.com/xxl](http://www.metabo.com/xxl)) within four weeks of purchase.

**metabo**<sup>®</sup>  
**work. don't play.**

## Cordless Drills

### S18TXC

- 2 x 18V, 2Ah reversible batteries
- 5 planetary gears
- FIXTEC - spindle lock + keyless chuck
- 20 stage torque adjustment
- Ergonomic Softgrip on rear handle
- QUICKSTOP motor-brake

• Also available in 14.4V, 12V & 12V angle versions

## Handheld Band Saw

### HBS120E

- Powerful 800W motor
- Well balanced - motor positioned centrally
- Precision blade guides
- Tool-free blade changes
- Externally accessible brushes
- 120 x 120mm throat

## Cordless Impact Drills

### P18TXC

- 2 x 18V, 2.4Ah reversible batteries
- 5 planetary gears
- FIXTEC - spindle lock + keyless chuck
- 20-stage torque adjustment
- Ergonomic Softgrip on rear handle
- QUICKSTOP motor-brake

• Also available in 14.4 & 12V versions

## Drills - Pistol Grip

### HDE13RQX

- Lightweight ergonomic design
- Softgrip on handle & housing
- Automatic spindle lock
- Comfortable, 2 finger switch
- Variable speed, reversible

• Also available with 10 & 6mm chuck capacity

## Drills - Rear Handle

### B2E16RLD

- Powerful 900W motor
- Static stalling torque: 88Nm
- Gear neck diameter: 57mm
- Weight: 4.2Kg

• Also available with 13mm geared chuck & No.3 Morse Taper

## Diamond Drilling Motors

- Triple reduction gearing
- Internal slip clutch
- Soft start switch
- Motor overload protection
- Built-in water swivel

• Available in 300/600, 450/900 & 600/1200rpm models  
• Large and small base stands are also available to suit

## Rotary Hammers - Pistol Grip

### PFH25QE

- Versatile through the high torque & blow energies
- Fast tool changing with the FIXTEC system
- Roto-stop facility for light chiselling
- Angle of chisels can be set through the variolocking system for best handling

• Also available in 26mm (750W) & 30mm (1010W) capacity

## Impact Drills

### PD2E20R

- Heavy duty 705W percussion drill
- Synchromesh gears
- Keyless chuck
- Reverse operation
- Variable speed

• Also available in 750W, 850W and 1010W

## Rotary Hammers - L Shape

### PLH32XE

- 32mm Rotary Hammer with chiselling function
- 900 Watt Industrial Motor
- 3.8 Joules Impact Force
- Anti Vibration Technology
- 0 - 800 rpm
- SDS + Fitting

• Also available in Chipping Hammer and in 40mm (1005W)

## Rotary & Demolition Hammers - Upright

### Kango 950

- 1700 Watt Motor creating a 27J Impact Force
- 3 Handles, All with Anti Vibration Technology
- 125 - 250 rpm
- In-Line Motor for Greater Operator Comfort
- Safety Clutch Protects Operator and Tool
- Full Wave Electronics Can Be Used With Generators
- Also available as demolition hammers in 1800W (27J), 1400W (24.5J), and 2200W (59.9J)

## Impact Wrench

### IPWE400RQ

- 400Nm of Torque
- 725 Watts
- Variable Speed, 0-1700 rpm
- Lightweight 2.7 Kg
- Reversible, with switch above the handle.

• Also available in 3/4" drive (520Nm) and 18V, 1/2" drive (325Nm), 14.4V Hex (85Nm) and 14.4V 1/2" drive (158Nm)

## Screwdrivers

### TKSE2500Q

- Variable Speed Reversing TEK-gun
- 725 Watts
- Metal Gearbox
- Easy snap-on depth-setting nose cone
- 0-2500 rpm
- QUIK-LOK Cable

• Also available in 4000rpm, 1200rpm and with a Sharpfire magazine (opt.)

All **Milwaukee Electric Tools** come with a  
**2 YEAR WARRANTY**  
(Batteries and Chargers - 12 month warranty)

## Sawzalls

### SSPE1000QX

- 300mm cutting depth in timber
- Oscillating action for fast cutting in timber
- 0-2800 strokes per minute at 32mm
- 32mm Stroke
- Low Vibration through counter-balance mechanism

• Also available in non-oscillating 1000W, 18V pivoting handle, and 18V D-handle versions

## Jigsaws

### FSPE110QX

- 710 Watt motor
- 110 mm cutting depth in timber.
- Four-stage pendulum action
- FIXTEC - Rapid blade change system
- Die cast aluminium base plate
- Extra large roller guide for greater accuracy
- Also available in a 14.4V cordless version

## Circular Saws

### SCS65Q

- 1900 Watt motor
- 65mm cutting depth
- Tilting handle with Softgrip for maximum comfort
- 5800rpm
- Great visibility and convenient adjustment levers
- Also available - 18V wood & metal saws & 1800W compound mitre saw

## Biscuit Joiner & Router

### PJ710

- 710 Watt motor
- 19mm cutting depth
- 100 diameter cutter
- 6 preset depth stops and 3 preset angle positions
- Spindle lock
- Easy to read markings and scales
- Also available - 1 1/4hp plunge router

## Sanders

### ROS150

- 450 Watt industrial motor
- 150mm disc diameter
- Oscillates 7mm every 5500rpm
- Integrated dust extraction
- All-metal gear drive

• Also available in 125mm, plus a delta sander & finishing sander

## Disc Sanders & Polishers

### AS12QE

- 178mm disc sander
- 1200 Watt motor
- 1800-4800 rpm
- Thermal overload protection
- Large comfortable trigger
- Only 2.1 Kg

• Also available as a polisher and 14.4 sander

## Wall Chasers & Dust Extractors

### WCS45

- 1900 Watt motor
- 2 x 150mm blades
- 45mm width and depth
- Variable auto cutting width
- Tilting handle with softgrip for maximum cutting comfort
- Integrated dust extraction adaptor
- Also available in 125mm & 230mm plus a 3600l/min dust extractor

## Angle Grinders - Barrel Grip

### AG8-100

- 100mm angle grinder
- 750 watt motor
- Patented spindle lock
- Convenient safety switch
- Quick action disc guard
- 4m Quik-lok cable
- Also available in 115mm, 125mm (1200W & 1500W) & variable speed 125mm

## Angle Grinders - Rear Handle

### AG23-230

- 230mm angle grinder
- 2300 watt motor
- Safety lock off deadman switch
- Quick release disc guard
- Patented safety spindle lock
- Only 4.8kg

• Also available in 180mm & 125mm (1200W & 1500W)

## Grinders - Die & Straight

### DGL30QE

- 600 Watt motor
- Precision spindle with double bearing
- Metal gearbox
- 10,000 - 30,000rpm
- 1/4" collet
- Also available without extension shaft plus two-handed version and 125mm straight grinder

## Shears & Nibblers

### S2.5Q

- Sheet metal shear
- 500 Watt motor
- 2.5mm cutting capacity
- 7m/min cutting speed
- Four-sided reversible blades
- Safety hand guard

• Also available as a nibbler & slotting shear

## Magnetic Drill Stands

### MDE42

- 1200 Watt motor
- 42mm max. broach diameter
- 16mm max. solid bit diameter
- 10,000N holding power at drill point
- 300-640rpm (no load)
- 11.5 Kg
- Also available with 38mm capacity and with No3 Morse Taper (3 motor speed options)

All **Milwaukee Electric Tools** come with a  
**2 YEAR WARRANTY**  
 (Batteries and Chargers - 12 month warranty)

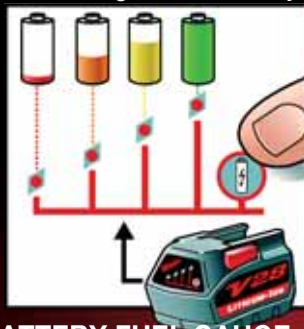

## INTRODUCING REVOLUTIONARY 28 VOLT LITHIUM-ION TECHNOLOGY

### 28V POWER AT 18V WEIGHT

With V28 Lithium-Ion more power no longer means more weight. Weighing slightly less than a conventional 18V battery, V28 delivers up to twice the run-time and up to 50% more power, perfect for high current drain jobs.

### BATTERY FUEL GAUGE

Milwaukee takes the guess work out of cordless tools. With its on-board fuel gauge feature, the V28 Lithium-Ion battery tells you how much more power you have to work with.

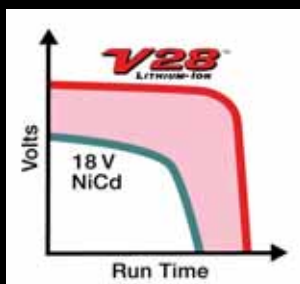

### HASSLE FREE CHARGING

Milwaukee's V28 technology redefines down time. Equipped with a Performance Optimising Circuit, the V28 Lithium-Ion battery runs from efficiently, charges immediately and is ready to go back to work faster as they are not effected by extremes of temperature.

EXTENDED RUN-TIME

CONSTANT POWER

### 0724-37

#### PERCUSSION DRILL

2 x 3Ah reversible 28 Volt Lithium-Ion batteries  
85Nm torque  
Full load speed (1st/2nd gear): 0-600/0-1800rpm  
0-9000 / 0-27,000bpm  
13mm All-metal keyless chuck

### 0779-37

#### IMPACT WRENCH

2 x 3Ah reversible 28 Volt  
Lithium-Ion batteries  
0-1450 rpm  
0-2450 ipm  
440Nm of torque  
1/2" square drive shank

### 0730-37

#### CIRCULAR SAW

2 x 3Ah 28 Volt Lithium-Ion batteries  
Saw blade diameter: 165mm  
No load speed: 4200 rpm  
50° bevel cuts  
All-metal guards with aluminium base plate

### 0737-37

#### BAND SAW

1 x 3Ah 28 Volt Lithium-Ion battery  
0-225 / 0-350 rpm  
Cutting diameter: 120mm x 120mm  
Central motor for best balance  
LED light aids visibility  
9 Kg in weight

Milwaukee's V28 Lithium-Ion technology delivers up to twice the run time of 18V tools. Unlike NiCd or NiMH batteries, the V28 Lithium-Ion cells maintain consistent, fade-free power throughout the discharge cycle. The last use is as powerful as the first.

# V28™

## LITHIUM-ION

**0756-37**

### ROTARY HAMMER

2 x 3Ah 28 Volt Lithium-Ion batteries  
3.2 Joules impact force  
26mm concrete capacity  
SDS+ fitting  
Available mid-2006

**0719-37**

### SAWZALL® RECIP SAW

2 x 3Ah 28 Volt Lithium-Ion batteries  
Stroke rate: 0-2000/0-3000 spm  
29mm stroke  
FIXTEC blade change system  
Gear protection clutch

# AWESOME POWER

## 12v Cordless Digital Impact Driver

**Model No: EY7202GQW**

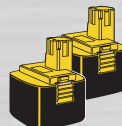

- Digital Clutch with auto shut off
- 3 Speed (High/Medium/Low)
- High Capacity 3.5Ah Ni-MH Battery
- Variable Speed Control/Reversible
- Compact Body (Length 167mm)
- Light Weight (1.85Kg)
- High Power (Max. 120 N~m)
- 55 Min Charging System
- Electric Brake
- Ergonomic Design
- Includes Extra Battery Pack

### DIGIPOWER

**55 Min.**

Variable speed control

**3.5Ah Ni-MH**

**ADDITIONAL MODELS AVAILABLE! ASK IN-STORE**

## Cordless Drill and Drivers

**15.6V Cordless Drill & Driver**

**Model No: EY6432GQKW**

- High Capacity 3.5Ah Ni-MH Battery
- Compact Body (Length 208mm)
- Light Weight (2.2Kg)
- High Power (31.9 N~m)
- Variable Speed Control/Reversible
- 18-Stage Clutch Plus Drill Position
- 13mm Heavy-Duty Keyless Chuck
- 2 Speed Gearbox
- 55 Min Charging System
- Electric Brake
- Ergonomic Design
- Includes Extra Battery Pack

**12V Cordless Drill & Driver**

**Model No: EY6432GQKW**

- High Capacity 3.5Ah Ni-MH Battery
- Compact Body (Length 208mm)
- Light Weight (1.9Kg)
- High Power (22.6 N~m)
- Variable Speed Control/Reversible
- 18-Stage Clutch Plus Drill Position
- 13mm Heavy-Duty Keyless Chuck
- 2 Speed Gearbox
- 55 Min Charging System
- Electric Brake
- Ergonomic Design
- Includes Extra Battery Pack

**55 Min.**

Variable speed control

**3.5Ah Ni-MH**

**ADDITIONAL MODELS AVAILABLE! ASK IN-STORE**

## Specialist Tools

**2.4V Cordless Drill & Driver**

**Model No: EY503B**

- Converts from Straight to Pistol Form
- 1 Hour Charging System
- 2 Speed Gearbox
- 6.5mm Hex Drive
- Multi-Stage Clutch Plus Drill
- Reversible
- Gear Lock Mechanism for Manual Tightening

**3.6V Cordless Drill & Driver**

**Model No: EY6225CQ**

- 'Auto Shut-Off Clutch' extends battery life by immediately stopping rotation once selected torque setting is reached
- Powerful: 1.5 N~m (at low speed)
- 22-Stage Clutch
- 6.5mm Hex Quick Connect Chuck
- 15 Minute Charging System
- Easily Converts from Straight to Pistol Form

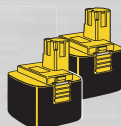

## 24v Cordless Rotary Hammer

**Model No: EY6813NQKW SDS-plus**

- High Capacity 3.0Ah Ni-MH Battery
- Dual Function-Rotary Hammer & Drill
- Variable Speed Control / Reversible
- Two Speed Hammering / Drilling Selection
- Slow Start Switch for Accurate Drilling with a Clean Finish
- Ergonomic Soft Rubber Grip for Stress Reduction
- 360° Auxiliary Side Handle with Built-in Depth Gauge
- Dust Collection Cup (EY9X004E) as Standard Equipment
- 45min. Charging System
- 3/4" SDS-plus Bit System
- Includes Extra Battery Pack

**3.0Ah  
Ni-MH**

**45  
Min.**

Variable speed control

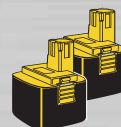

## 18v Cordless Hammer Drill / Driver

**Model No: EY6813NQKW SDS-plus**

- High Capacity 3.5Ah Ni-MH Battery
- Compact Body (Length 255mm)
- Light Weight (2.7kg)
- High Performance (Max.torque 35Nm - Max.capacity ø50mm with low speed)
- High Speed Brick/Masonry Drilling (Max.1,550rpm/28,000bpm)
- Ergonomic Balanced Tool Body
- 65min. Charging System
- Variable Speed Control / Reversible
- 13mm Heavy-Duty Keyless Chuck
- Sure-Grip Support Handle
- Includes Extra Battery Pack

**3.5Ah  
Ni-MH**

**65  
Min.**

Variable speed control

**ADDITIONAL  
MODELS  
AVAILABLE!  
ASK IN-STORE**

## Cordless Sealing Gun

**7.2V Cordless Sealing Gun  
Model No: EY3654CQ**

- Accepts both Cartridge and Sausage Material up to 600ml
- Electric Operation to Reduce User Fatigue
- Drip Prevention Mechanism for a Clean Finish
- Electric Speed Control
- 20min. Charging System
- Compact Battery Pack
- Two Types of Plunger

**20  
Min.**

Variable speed control

## 18v Wood Combo Kit

**OTHER PANASONIC CORDLESS COMBO KITS AVAILABLE. ASK IN-STORE.**

**Model No: EYC155GQW**

- 18V Wood Cutter (EY3551GQ) + Standard Wood Cutter Blade
- 18V Reciprocating Saw (EY3544GQK) + Standard Reciprocating Saw Blade
- 18V Hammer Drill & Driver (EY6950)
- 18V Flashlight (EY3796B)
- Charger for Ni-MH Battery Pack
- 2 x High Capacity 3.5Ah Ni-MH Battery Packs + Carry Case
