

**FM-AM Clock Radio****Operating Instructions**Model No. **RC-6266**

**Supplied accessory (Except for the U.S.A. and Canada):**  
Power plug adaptor

Before connecting, operating or adjusting this product, please read these instructions completely.

Please keep this manual for future reference.

**Before using this unit please read these operating instructions carefully.**

Take special care to follow the warnings indicated on the unit itself as well as the safety suggestions listed below.

Afterwards keep them handy for future reference.

**Safety**

- 1. Power Source**—The unit should be connected to power supply only of the type described in the operating instructions or as marked on the unit.
- 2. Polarization**—If the unit is equipped with a polarized AC power plug (a plug having one blade wider than the other), that plug will fit into the AC outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.
- 3. Power Cord Protection**—AC power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. Never take hold of the plug or cord if your hand is wet, and always grasp the plug body when connecting or disconnecting it.
- 4. Nonuse Periods**—When the unit is not used, turn the power off. When left unused for a long period of time, the unit should be unplugged from the household AC outlet.

**Installation**

 Press.  Press and hold.

## Power supply

**Voltage selector A - (a)** (Except for the U.S.A. and Canada)  
Use a screwdriver to set the voltage for your area.

**Frequency selector A - (b)** (Except for the U.S.A. and Canada)  
Select the frequency for the power supply in your area.

**Dry cell memory back-up battery (not included) A**

This battery saves the clock and alarm settings if there is a power interruption.

**Using AC power cord E**

Ⓢ If the power plug will not fit your socket, use the power plug adaptor (included). (Except for the U.S.A. and Canada)

**If the power is interrupted**

• The time display clears until the unit is turned on again. The clock can gain or lose up to six minutes an hour while the power is interrupted.

**Replacing the battery**

• The service life of this battery is approximately 1 year.  
• If, after a power interruption, the display flashes after turning the unit on again, the battery needs to be replaced.

### Note

- Align the poles (⊖ and ⊕) properly when inserting the battery.
- Do not heat or disassemble the batteries. Do not allow them to contact flame or water.
- Remove the battery if the unit is not to be used for a long time.
- Do not peel off the covering on batteries and do not use if the covering has been peeled off.

Mishandling of battery can cause electrolyte leakage which can damage items the fluid contacts and may cause a fire.

If electrolyte leaks from the batteries, consult your dealer.

Wash thoroughly with water if electrolyte comes in contact with any part of your body.
