

TECHNICAL DATA ELECTRONIC DRILLS BE 4006 / BE 4010

1

User-friendly exhaust guide

The machine air is guided out towards the front, to the benefit of the user. This prevents the user from being hit in the eyes by the outgoing air when working at head height.

2

Variospeed (V) electronics

For variable speed change.

3

Metabo Marathon Compact Motor

High performance in narrow spaces: The robust and durable Marathon Compact Motor was designed to cope

with all types of important applications.

Particularly flat design with favourable angle dimension
especially suitable for working in narrow spaces and corners.

TECHNICAL DATA BE 4006 / BE 4010

	BE 4006	BE 4010
Torque	6 Nm	8 Nm
Drilled diameter in steel	6 mm	10 mm
Drilled diameter in wood	12 mm	20 mm
Rated input power	400 W	400 W
Speeds at no load	0?4.000/min	0?2.850/min
Chuck capacity	1,5-10 mm	1,5-10 mm
Weight	1,2 kg	1,2 kg
Standard equipment	Futuro Plus keyless chuc	Futuro Plus keyless chuck
Order no.	6.00554	6.00555
