Make Things Easier for Yourself

Everything in this manual is designed to ensure that the exercise bench can be assembled successfully by anyone. Most people find that by setting aside plenty of time, assembly will go smoothly.

Before beginning assembly, carefully read the following information and instructions:

- Place all parts in a cleared area and remove the packing materials. Do not dispose of the packing materials until assembly is completed.
- Tighten all parts as you assemble them, unless instructed to do otherwise.

- As you assemble the exercise bench, make sure all parts are oriented as shown in the drawings.

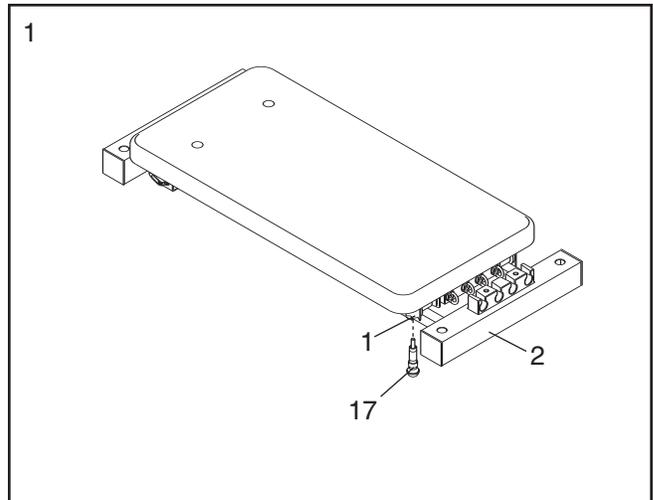

- Assembly requires two people.

The following tools (not included) are required for assembly:

- **two adjustable wrenches** 
- **one standard screwdriver** 
- **one Phillips screwdriver** 
- **one Rubber Mallet** 

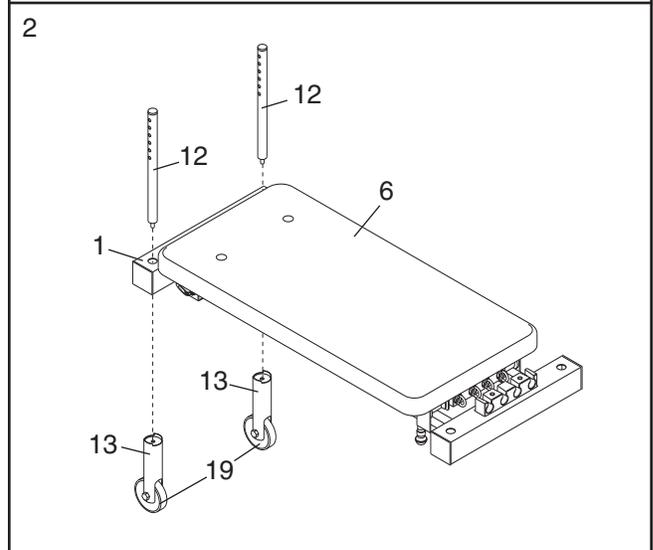

Assembly will be more convenient if you have a socket set, a set of open-end or closed-end wrenches, or a set of ratchet wrenches.
