- My Room, My Music: Listen to different music in each room
- Music Follows Me: take your music with you from room to room
- Music Broadcast for simultaneous playback to all Stations
- Rip CDs with Gracenote automatic song information search
- 2-Way LCD Remote Control with alphanumerical search

Quality sound performance

- Super Sound Panel for clear and deep bass sound
- Class 'D' digital amplifier for quality sound performance

PHILIPS
sense and simplicity

Highlights

Wireless streaming

With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favorite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Center to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Center or Station.

80GB hard disk/1500CDs

The 80GB hard disk provides a very large capacity for you to store your digital audio files, easily holding up to 1500 audio CDs. Space saving, smart audio collection management, easy access and all in one place.

USB Direct-MP3/WMA

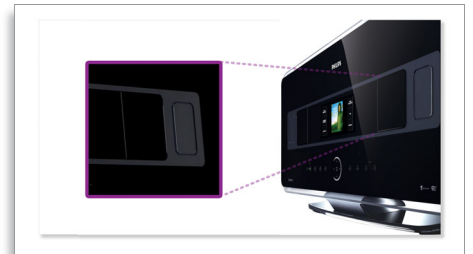

With the USB Direct mode, you can simply select the music on a USB device and playback all your content. All you have to do is plug in

your USB device to playback music or export content from the device.

Universal Plug & Play

Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play enabled device to receive or transmit music. Your Wireless Music Center utilizes Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play enabled devices. You can easily connect your Wireless Music Center to other media devices to receive or to transfer content.

Super Sound Panel

Super Sound Panel is an innovative, flat speaker panel that uses cutting-edge technology to provide high quality, full-range audio from a flat and compact speaker unit.
