# VERSA POOL AND SPA HEATER

model

# 155

- 151,000 BTUH
- Natural or propane gas
- Indoor/outdoor
- User-friendly control panel
- High efficiency for economical operation
- Electronic ignition or millivolt pilot
- Lightweight combustion chamber
- Copper fin tube heat exchanger design
- Completely field serviceable
- Small footprint
- Patented Unitherm governor eliminates condensation
- Optional bronze castings - 1-1/2" and 2" NPT water connections

# VERSA-155 Pool and Spa Heater

Note: Outdoor stack and indoor draft hood can be supplied but must be ordered separately.

Specifications						
Model	BTUH Input (000)	Castings	Shipping Weight (lbs.)			
			Heater Base	Stackless Top	Draft hood	Outdoor Stack
C-155	151	Cast Iron	135	11	8	7
B-155	151	Bronze	135	11	8	7

## Patented Econotherm Heat Exchanger

Your VERSA is equipped with a unique all-copper-fin-tube heat exchanger, designed for efficient heat transfer and built to provide years of trouble-free performance. Both header castings are made of porcelainized cast iron for durability and resistance to corrosion and rust. Your VERSA is also available with optional premium bronze headers for completely rust-free operation.

## Advanced Unitherm Plus Full-Flow System

Condensation-free operation is ensured even with low temperature inlet water. Both water temperature and flow rate inside the heater are controlled to eliminate condensation, sooting and scale build-up that can shorten heater life. More hot water moves through faster, and more efficiently.

## Heating Capacity

The table below shows the heating capacity of the VERSA 155 in temperature rise per hour for a given amount of water. For example, the heater will raise the temperature of a 400-gallon spa 36 °F in one hour. (Spa size in gallons = surface area x average depth x 7.5.) The same heater will raise the temperature of a 400-square-foot pool 1-1/8 °F in one hour.

	Spa Size (Gallons)					
	300	400	500	600	700	800
Temp. rise per hour	48 °F	36 °F	29 °F	24 °F	21 °F	15 °F
	Pool Size (Square Feet)					
	300	400	500	600	700	-
Temp. rise per hour	1-1/3 °F	1-1/8 °F	1 °F	3/4 °F	1/2 °F	-

## Two-Year Limited Warranty

The VERSA features a two-year limited warranty against defects in materials and workmanship (see warranty for details). In addition, every VERSA is thoroughly tested in simulated field conditions before shipment.
