## **USERS MANUAL**

## GENERAL SAFETY INFORMATION

This manual contains important information about the assembly, use and maintenance of this Propane / Butane Coffee Maker. Keep this manual for future reference. Be sure to read this manual completely before using this product. Keep this manual and review it regularly to maintain awareness of procedures and warnings. This manual should be read in conjunction with the warnings on the unit.

Failure to follow the warnings printed here and on the coffee maker may result in fire, property damage, injury or death.

Particular attention should be paid to information accompanied by the safety

alert words:  **WARNING** -  **CAUTION** -  **DANGER**

 **CAUTION:** Read all Warnings and Operating Instructions before use and retain for future reference.

### FOR YOUR SAFETY

Do not store or use gasoline or other liquids with flammable vapors in the vicinity of this or any other Propane/Butane appliance.

 **CAUTION:** If you smell gas:

1. Do not attempt to light appliance.
2. Extinguish any open flame.
3. Disconnect fuel supply.

 **WARNING: CARBON MONOXIDE HAZARD**

This appliance can produce carbon monoxide which has no odor.

Using it in an enclosed space can kill you.

Never use this appliance in an enclosed space such as a camper, tent or car.

 **WARNING: FOR OUTDOOR USE ONLY**

- Supply plenty of fresh air when using the Coffee Maker.
- Do not obstruct the flow of combustion air or ventilation air.
- Do not use as a space heater.
- This Coffee Maker produces heat. Keep away from burnable materials.
- Do not place the Coffee Maker closer than 24" to combustibles.
- Use a flat, level support surface where the Coffee Maker is safe from accidental tipping.

- Use only 16oz. disposable propane cylinders marked USDOT-39 or TC CAN/CSA B339. **OR** USDOT - E11914 Butane
- Use only with propane or Butane fuel.
- Use only the 16 psi regulator included with your coffee Maker.
- Do not attempt to alter this product in any way.

**CAUTION:** Propane & Butane are gasses that are under pressure and highly flammable.

- Do not store in temperatures over 120° F
- Never use a flame to check for leaks. Use soapy water.
- Keep out of the reach of children at all times.
- Keep cylinders upright in use and storage for vapor withdrawal.
- The smell of gas indicates a leak. Close valves and check for leaks by brushing soapy water on all joints. There is a leak if bubbles appear. Tighten the joint until the bubbles quit.
- Always check all connections for dirt or damage before use.
- Do not leave coffee maker unattended while in use.
- Always detach propane cylinder when coffee maker is not in use.

**WARNING:** DO NOT put hands or any other body parts near the burner during lighting or when in use.

**FOR YOUR SAFETY:** DO NOT store or use gasoline or other flammable vapors, liquids, or chemicals in the vicinity of this or any other Propane or Butane appliance.

**CAUTION:** DO NOT leave propane or Butane cylinder attached to the coffee maker while not in use.

# OPERATING INSTRUCTIONS

**WARNING:** PLEASE READ AND FOLLOW ALL INSTRUCTIONS  
THIS PRODUCT IS FOR OUTDOOR USE ONLY

Always operate BrewFire on a level surface.

Never use this product on a Gas or Charcoal Grill.

Be sure the BrewFire is placed on a level & stable surface before igniting.

Always pour water into reservoir prior to lighting burner.

Do not leave coffee maker burner on after coffee has finished brewing.

Close adult supervision is necessary while brewing coffee.

Do not touch hot surfaces. Allow coffeemaker carafe to cool before handling

## Carafe Use and Care

- Never place carafe on any other hot surface.
- Never place carafe onto a camping stove range, oven or in a microwave.
- Never set a hot carafe on a wet or cold surface.
- Do not use a cracked carafe or one with a loose or weakened handle.
- Do not clean carafe with cleansers, steel wool pads or other abrasive materials. Instead use a mild, non-abrasive detergent.
- Avoid sharp blows, scratches and rough handling.

## BENEFITS of your Brunton BrewFire

- 8-cup brewing capacity in 10 -12 minutes.
- Removable swing-out filter basket for easy cleaning.
- *Can't wait for it to finish?* With the pause feature, you are able to pour a cup of coffee without making a mess.
- Butane attachment for dual fuel use is included.
- Has a liquid suspension indicator gauge to view the amount of cups being brewed.
- This BrewFire coffee maker is equipped with safety features such as a 30 degree tilt auto shut off, burner flame blow out auto relight functions.

## 1

### BEFORE FIRST USE

Before using your BrewFire for the first time, wash carafe, lid and removable filter basket using a mild, nonabrasive detergent and water. Rinse thoroughly by cycling through one full reservoir of clean water to ensure that the system is clean.

## 2

### BREWING INSTRUCTIONS

Open the swing out filter basket and insert a #4 coffee filter. Or use the included #4 reusable filter.

- Add desired amount of coffee and be sure the paper filter is centered before closing the filter basket.
- Fill the stainless steel carafe with cold water to the desired number of cups which will be brewed.
- Pour water into the water reservoir and place the empty carafe onto the bottom plate.
- Be sure the carafe is pressed against the pause lever to allow coffee to flow into carafe.

## 3

### CLEANING & MAINTENANCE INSTRUCTIONS

**WARNING** ALL cleaning operations described in the manual must be performed with the coffee maker turned off and the fuel canister removed.

**WARNING** Regular Maintenance and cleaning helps preserve and keep the coffee maker running efficient for a longer amount of time. Never wash this coffee maker in the dishwasher. Do not use direct jets of water.

**WARNING** All cleaning and maintenance operations **MUST** be Performed while the coffee maker is cold.

#### **Cleaning the reusable filter containing grounds.**

Check that the screen is not clogged and if so, clean with a small brush and rinse in clean water. Dispense clean hot water from the filter by brewing a cycle through the coffee maker with out using coffee grounds.

#### **Cleaning the Machine's body.**

Clean ALL fixed parts by using only a damp, non-abrasive cloth so as to not damage the body.

#### **DECALCIFICATION**

By considerably limiting the risks of lime deposits forming on the inside of the coffee maker you can extend the life of this product greatly. In the case of loss of performance due to frequent use of hard water it is recommended to use a citric acid based decalcifying product.

**NOTE:** Brunton does not assume any responsibility whatsoever for damage to components inside the coffee maker caused by the use of non-compliant products containing chemical additives.

## Operation Illustrations

**1** - Insert 2 Dcell batteries (included) in the battery compartment on the bottom of the coffee maker as shown.

**2** - For use with Propane open the fuel compartment and insert a 1lb propane bottle and attach by pushing up and turning counter clockwise.

**2a** - For use with Butane open the fuel compartment remove the included brass butane adaptor, thread the adaptor onto a butane canister and insert the butane canister and adaptor and attach by pushing up and turning counter clockwise.

## Operation Illustrations (Cont)

**3** - Open the swing out filter basket and insert a #4 paper coffee filter. Or use the included #4 reusable filter. Fill filter with your desired coffee grounds.

**4** - Pour water into the water reservoir and place the empty carafe onto the bottom plate.

**4a** - Fill the reservoir to the 1.2L Max fill line as indicated on the water level gauge

**5** - Turn on the fuel flow by pressing down on the knob and turning counterclockwise to high.

**5a** - To ignite the burner and begin brewing, press the ON switch
