

KULTIVATORI

JB 55

Tiller JB 55

Robust and powerful rotary cultivator for different types of applications.

An easy-to-start, powerful rotary cultivator with a clean and silent engine producing 5.5 hp.

The rotary cultivator is comfortable to use with adjustable steering. JB 55 is also easy to manoeuvre forwards/backwards and has a large, adjustable working width and lateral support as standard.

JB 55 is very flexible and can cope with different duties. Iron wheels and plough are available as accessories.

Equipped with 6 rotors cultivator as standard.
