Manual abstract:

Carefully lift the coffee maker from the remaining inserts. Remove the plastic bag from the coffee maker. We suggest you save all packing materials in the event that future shipping of the machine is needed. Keep all plastic bags away from children. Heat are sealed in. Now, you can program your coffee maker to start brewing when you want. Simply set the desired brew time, fill the reservoir with water, put in your filter, add ground coffee and press the "ON" button. In minutes, you'll have a wonderfully fresh pot of coffee. We know the Cuisinart® Automatic Brew and Serve will bring you years of pleasure. Nothing is more satisfying than a rich cup of your favorite brew.

DESCRIPTION OF PARTS Your thermal carafe coffee maker brews fresh, filtered coffee in minutes. The thermal carafe contains a vacuum-sealed glass inner liner which delivers heat retention superior to other containers used with drip coffee makers and helps keep full coffee flavor.
