## ROTARY TILLERS

15 to 55 PTO HP

Turn hard ground into a perfect seed bed quickly and easily using the economical Worksaver rotary tiller. Ideal for gardening, landscaping, orchards, or any soil operation.

Each model is designed rugged and built to last many years. All models feature curved or "L" blades, oil-bathed over-sized chain drive, depth adjustment on skids, and adjustable lower hitch points. A rear deflector keeps soil and debris beneath the tiller for thorough pulverization. Gearbox is protected by either a shear-bolt or slip clutch PTO driveline.
