ED2SYS-72/2S SERIES

MULTI-SHELF HEATED DISPLAY

ED2-72/2S

ED2SYS-72/2S

• HALO HEAT ... a controlled, uniform heat source that gently holds and surrounds food for better appearance, taste, and longer holding life.

- Holds and displays hot food fresh and moist for hours.
- **SELF-SERVICE HOT DISPLAY CASE**
 - Curved glass styling.
 - Thermostatically controlled heat source radiates from the base of each shelf in multiple heat zones.
 - Top shelf incorporates thermal kinetic glass technology to provide an evenly heated display surface.
 - Bottom shelf is heated by an aluminum plate with a resistive heat pad.
 - Overhead lighting on each shelf.
 - Solar cool bronze sliding glass doors reflect heat back into the products and mirror the display to enhance merchandising effect.
 - Customer self-service opening is across the full width of case.
 - Front-mounted heat guard on each shelf provides customer protection.

MULTI-SHELF HEATED DISPLAY CASE

The display case is constructed of 18 gauge, non-magnetic stainless steel. A curved, tempered glass top frames the display case. Removable, sliding glass doors on the operator side are included. Sliding door tracks have a "clean sweep" cutout allowing for easy cleaning and crumb removal. Each shelf is controlled by two (2) adjustable thermostats with a range of 1 to 10, and includes one (1) heat-on indicator light. The two-shelf self-service display system includes a low-profile, European style base with one (1) storage shelf. As an additional option, the base can be adapted to accommodate two (2) 500-1D drawer warmers. Counter-top display cases include one set of 4" (102mm) legs.

Note: For use with pre-packaged foods only.

- ED2-72/2S - 72" (1829mm) length
- ED2SYS-72/2S - 72" (1829mm) length, with base

FACTORY INSTALLED OPTIONS

INSTALLATION REQUIREMENTS
Display case must be installed level. The display case must not be installed in any area where it may be affected by steam, grease, dripping water, high temperatures, or any other severely adverse conditions.
Do not install a heated display case near a cold air source such as a freezer, air conditioning vents, or in any area where outside air fluctuation can affect performance.
