

INSTALLATION - ALL SEATS:

1. Position seat in closed position (see fig. 1).
2. Place strap around tree (see fig. 1).
3. Place buckle over S-hook (see fig. 2).
4. Pull strap through slide buckle until tight.
5. Lower seat into sitting position (see fig. 2).
6. If seat becomes loose, lift seat upright and retighten strap.

TO REMOVE:

1. Lift seat to upright position.
2. Loosen by sliding strap back through buckle.
3. Remove seat from tree.

WARNING: Tree Seats are to be used at a height that allows the feet to be on the ground at all times when in use. Use as a ground seat only! Failure to follow this warning may result in serious injury or death!
