

BUNN® TU-3/TB-3 3 GALLON ICED TEA BREWER

On this card you'll find instructions for operating, cleaning and troubleshooting your tea brewer plus product hold time standards and water filter ordering information.

Instructions:

Always start with a clean server

1

Place three (3) Tazo® one gallon filterbags into the brew basket. Note: if using 3 oz. portion pack of loose leaf tea, place one 12.25" x 4.75" filter (SKU #11012306, SUPC# 0478406) into the brew basket before placing tea in brew basket.

2

Slide the brew basket into the rails until it stops. Make sure the server is under the brew basket.

3

Press the start button when ready to brew. When brewing has completed, dispose of used tea filterbags.

BUNN® TU-3/TB-3 3 GALLON ICED TEA BREWER

Brewer and Airpot Cleaning

- Rinse brew basket and airpot with hot water after each brew cycle.
 - Wipe around spray head of brewer daily. Do not use soap or abrasives.
 - Wipe exterior of brewer daily. Do not use abrasives.

Brewed Tea Hold-Time Standard

- 24 hours** — Refrigerated
12 hours — Not Refrigerated

Brewer & Server Troubleshooting Guide

PROBLEM	POSSIBLE CAUSE	SOLUTION
Brew cycle will not start	Power switch off	Turn on power switch
	No power to brewer	Make sure unit is plugged in
	No water to brewer	Make sure shut-off valve is open
Weak tea	Improper dose	Make sure you are using recommended dosage
	Ice added to server	Do not start brew until ready light is on Allow customers to pour freshly brewed Iced Tea into a cup of ice to insure quality
Strong tea / Tastes old	Improper dose	Make sure correct dosage is used
	Servers are not clean inside	Always start with a clean server
	Too much water added during dilution	There should be roughly 72 oz. of extracted tea before cold water is added to make 3 gallons
Tea is cloudy	Cold cycle not allowed to finish	Ensure that the brewer is allowed to complete its final cold water infusion
	Hard water	If cloudy tea persists after cold water cycle, have water hardness checked. A softener may be needed (at acct cost) to allow proper tea extraction
	Ice added to tea before serving	Do not add ice before serving
	Hot water hooked to machine	Check to make sure that a cold water line is attached to machine
	Water filter needs changing	Check water filter date and make sure it has been changed in the last 6 months. If not, change
Short potting	Plugged water filter	Change water filter
	Not using a dedicated water line	Hook up to a dedicated water line, a water line not shared with other equipment

Note — Ordering, changing and cost of water filtration is the customers responsibility.

To order water filters go to http://starbucksfs.com/ContactUs/Equipment/Order_Filter

For directions on how to change filters go to http://starbucksfs.com/Support/Equipment/Water_Filtration
