KEURIG

Digital User Interface

LED Water Tank Level Indicator

Shows cold water tank level in pour over mode. Level will always show "full" when unit is in plumbed mode.

In Pour Over Mode

Cold water reservoir can be easily filled, holds 64oz. and includes removable filter screen. You get continuous back-to-back brews every 60 seconds until tank is empty.

Brew Buttons

Serve as two cup size selections for end users, 8oz. (top) and 6oz. Allow KAD to toggle and select LCD menu options when menu button at back of brewer is activated.

Fill Door

Allows easy pouring access to fill cold water tank. Brewer will beep and water level indicator will completely illuminate when cold water tank is full.

In Direct Water Line Plumbed Mode

Easily connects to existing water line or bottled water supply with an in-line water filter. This allows unlimited back-to-back brewing every 60 seconds.

Filter Mounting Screws

Easily attach a water filter to back of unit.

Panel Access Door

Remove door to access menu button, switches and breaker.

Water Tank Drain Tubes

Red drains the hot water tank. Blue drains the cold water tank.

Panel Access Screw

Power Switch
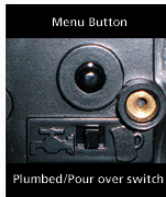

Power Cord

Water Plumbing Inlet

Designed to accept ¾" garden hose fitting for plumbed-in mode.

Quick Start Guide ~ Get Brewing Quickly!
Initialization, Priming and First Brew
