Jamo S 413 HCS 5

With 820W of total music power, this 5.1 Home Cinema package is packed with power! It offers excellent value for the money, without compromising design or sound. In contrast to many other Home Cinema Systems in this price range, the S 413 HCS 5 is so solid acoustically speaking that it can easily out-perform most competitors.

The subwoofer is perfect for adding another dimension of depth to the low frequencies. Equipped with an

8in down-firing woofer combined with a true 200W amplifier, the SUB 200 has a level of performance which is second to none in this class!

All 5 speakers come with wall mounts, allowing terrific versatility in terms of placement. Finally, we should also mention that all these speakers have curved removable front fabric grilles since they are all "honest" speakers with nothing to hide.
