

## USB 2.0 Hub, 10-Port Quick Start Guide

### Specifications

USB Interface	USB 2.0 High-Speed
Power Mode	Bus-powered mode (without power adapter); Self-powered mode (with power adapter)
Supported OS	Windows® 2000, Windows XP, Vista, Win 7, Win 8, Mac OS® 10.x and above

#### NOTES:

1. *Make sure to connect your USB device to the hub only after the auto-installation is completed.*
2. *USB 2.0 performance (high-speed of up to 480 Mbps) can only be expected when connected to a USB 2.0 port.*
3. *We recommend using the power adapter if you are connecting multiple USB devices.*

### Overview

The USB 2.0 Hub, 10-Port (IC640A) is a 10-port hub that allows you to add multiple high-performance USB 2.0 peripheral devices to your computer. The hub also complies with the USB 1.1 specification, so your previous USB 1.1 devices can function as usual. Installing the hub is simple—just connect it to your computer and it's ready to use.

### What's Included

Your package should include the following items. If anything is missing or damaged, contact Black Box Technical Support at 724-746-5500 or [info@blackbox.com](mailto:info@blackbox.com).

- USB 2.0, 10-Port Hub
- Power adapter
- USB cable

### Installation

Connect the USB cable to your computer. (If your hub is not attached with a USB cable, use the provided USB cable and connect the smaller end to the hub's mini-USB port and the other end to your computer.) After the connection, the system will detect the hub and automatically complete the installation.
