

High-Speed Cable Modem

Connect your PC or network for high-speed Internet access

Now you can connect to the Internet up to 100 times faster than a dial-up connection. Belkin networking products give you an exciting way to bring the experience of high-speed cable Internet access to your PC and home network. Simply connect your Belkin High-Speed Cable Modem to your cable line and to your PC, through either the USB or Ethernet connections. The easy setup gets you online quickly, so you can begin downloading files and streaming music or movies right to your desktop. Using your modem with a Belkin Cable/DSL Gateway Router allows you to start sharing files and Internet access, and to join online multiplayer games easily. Be sure to check out complete sharing solutions from Belkin at <http://networking.belkin.com>.
