Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by the

Your device may malfunction and your risk of electric shock is increased

requirements.

Do not bend or damage the power cord

Do not short-circuit the charger or the battery

Do not use your device during a thunderstorm

- Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery For safe disposal of your Li-lon batteries, contact your nearest authorised service centre
- Handle and dispose of batteries and chargers with care
 - Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- Never dispose of batteries or devices in a fire. Follow all local regulations when disposing of used batteries or devices.
- Never place batteries or devices on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode wher overheated
- Never crush or puncture the battery. Avoid exposing the battery to hish external pressure, which can lead to an internal short circuit and
- Protect the device, batteries, and chargers from damage · Avoid exposing your device and batteries to very cold or very hot
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- · Prevent batteries from contacting metal objects, as this can create a connection between the + and - terminals of your batteries and lead to
- temporary or permanent battery damage r use a damaged charger or battery.

Caution: Follow all safety warnings and regulations when using your device in restricted areas

Turn off your device where prohibited Comply with all regulations that restrict the use of a mobile device in a

Do not use your device near other electronic devices Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices.

Do not use your device near a pacemaker

- Avoid using your device within a 15 cm range of a pacemaker if possible as your device can interfere with the pacemaker. If you must use your device, keep it at least 15 cm away from the
- pacemaker To minimise the possible interference with a pacemaker, use your device on the opposite side of your body from the pacemaker.

Do not use your device in a hospital or near medical equipment that can be interfered with by radio frequency

If you personally use any medical equipment, contact the manufacturer of the equipment to ensure the safety of your equipment from radio frequency.

If you are using a hearing aid, contact the manufacturer for information about radio interference

Some hearing aids may be interfered with by the radio frequency of your device. Contact the manufacturer to ensure the safety of your hearing aid.

- Turn off the device in potentially explosive environments Turn off your device in potentially explosive environments instead of removing the battery.
- · Always comply with regulations, instructions and signs in potentially explosive environments
- Do not use your device at refuelling points (service stations), near fuels or chemicals, and at blasting areas.
 Do not store or carry flammable liquids, gases, or explosive materials in
- the same compartment as the device, its parts, or accessories.

Turn off your device when in an aircraft

Using your device in an aircraft is illegal. Your device may interfere with the electronic navigation instruments of the aircraft.

Do not touch the device's internal antenna. Doing so may result in

he sta

- Do not disassemble, modify, or repair your device
- Any changes or modifications to your device can void your manufacturer's warranty. For service, take your device to a Samsung Service Centre.
- Do not disassemble or puncture the battery, as this can cause explosion or fire.

Do not paint or put stickers on your device

Paint and stickers can clog moving parts and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience tching, eczema, or swelling of the skin. When this happens, stop using the product and consult your physician

When cleaning your device:

· Wipe your device or charger with a towel or an eraser Clean the terminals of the battery with a cotton ball or a towel
 Do not use chemicals or detergents.

Do not use the device if the screen is cracked or broken Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it repaired.

Do not use the device for anything other than its intended use

Avoid disturbing others when using the device in public

Do not allow children to use your device Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges.

Install mobile devices and equipment with caution

 Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted. Avoid placing your device and accessories near or in an air bag

deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

TO RADIO WAVES

- While using your device, leave some lights on in the room and do not hold the screen too close to your eyes. Seizures or blackouts can occur when you are exposed to flashing
- lights while watching videos or plaving Flash-based games for extended periods. If you feel any discomfort, stop using the device immediately.

Reduce the risk of repetitive motion injuries

Use caution when exposed to flashing lights

When you repetitively perform actions, such as pressing keys, drawing When you repetitively perform actions, such as pressing keys, drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders, or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip, press the keys lightly, and take frequent breaks If you continue to have discomfort during or after such use, stop use and see a physician.

Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life. Over time, unused batteries will discharge and must be recharged
- before use
- Disconnect chargers from power sources when not in use
 Use batteries only for their intended purposes.
- Use manufacturer-approved batteries, chargers, accessories and sunnlies
- Using generic batteries or chargers may shorten the life of your device or cause the device to malfunction.
- Samsung cannot be responsible for the user's safety when using accessories or supplies that are not approved by Samsung
- Do not bite or suck on the device or the battery
- Doing so may damage the device or cause explosion · If children use the device, make sure that they use the device properly

Do not insert the device or supplied accessories into the eyes, ears
