#### GT-C3011 Safety precautions

sockets

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord Do not use your device while charging or touch your device with wet hands

Do not short-circuit the charger or the battery

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by the manufacturer

### Do not use your device during a thunderstorm

Your device may malfunction and your risk of electric shock is increased. Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery For safe disposal of your Li-lon batteries, contact your nearest authorised service centre

### Handle and dispose of batteries and chargers with care

- · Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- · Never dispose of batteries or devices in a fire. Follow all local regulations when disposing of used batteries or device
- Do not store your device with such metal objects as coins, keys and necklad
- · Your device may become deformed or malfunction · If the battery terminals are in contact with metal objects, it may cause a fire

#### Do not store your device near magnetic fields

- · Your device may malfunction or the battery may discharge from exposure to magnetic fields. Magnetic stripe cards, including credit cards, phone cards, passbooks,
- and boarding passes, may be damaged by magnetic fields. Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended periods of time.

#### Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

- · The battery may leak.
- · Your device may overheat and cause a fire.

#### Do not drop your device or cause impacts to your device

- · The screen of your device may be damaged. · If bent or deformed, your device may be damaged or parts may
- malfunction

#### Do not use a flash close to the eyes of people or animals Using a flash close to the eyes may cause temporary loss of vision or damage to the eyes

Ensure maximum battery and charger life

reuse of material resources.

disposal.

1-0

- · Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over time, unused batteries will discharge and must be recharged before use.
- · Disconnect chargers from power sources when not in use
- · Use batteries only for their intended purposes

To prevent possible harm to the environment or human health from

uncontrolled waste disposal, please separate these items from other

types of waste and recycle them responsibly to promote the sustainable

Household users should contact either the retailer where they purchased

this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and

conditions of the purchase contract. This product and its electronic

accessories should not be mixed with other commercial wastes for

Correct disposal of batteries in this product

Where marked, the chemical symbols Hg, Cd or Pb indicate that the

battery contains mercury, cadmium or lead above the reference levels

in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

separate batteries from other types of waste and recycle them through your local, free battery return system.

To protect natural resources and to promote material reuse, please

**CE0168** 

(Applicable in the European Union and other European countries with separate battery return systems)

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of

with other household waste at the end of their working life

Do not distribute copyright-protected material that you have recorded to others without the permission of the content owners. Doing this may violate copyright laws. The manufacturer is not liable for any lega issues caused by the user's illegal use of copyrighted material

### Specific Absorption Rate (SAR) certification information

Your device conforms to European Union (EU) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum exposure level (known as the Specific Absorption Rate, or SAR) of 2.0 W/kg.

During testing, the maximum SAR recorded for this model was 0.876 W/kg. In normal use, the actual SAR is likely to be much lower, as the device has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station. By automatically emitting lower levels when possible, your device reduces your overall exposure to RF energy.

The Declaration of Conformity statement at the back of this manual demonstrates your device's compliance with the European Radio & Terminal Telecommunications Equipment (R&TTE) directive. For more information about the SAR and related EU standards, visit the Samsung website

### Correct disposal of this product

(Waste Electrical & Electronic Equipment) (Applicable in the European Union and other European countries with separate collection systems) This marking on the product, accessories or literature indicates that the product and its electronic accessories

(e.g. charger, headset, USB cable) should not be disposed th other household waste at the end of their working

overheated · Never crush or puncture the battery. Avoid exposing the battery to

- high external pressure, which can lead to an internal short circuit and rheating
- Protect the device, batteries, and chargers from damage Avoid exposing your device and batteries to very cold or very hot

· Never place batteries or devices on or in heating devices, such as

- temperatures · Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and terminals of your batteries and lead
- to temporary or permanent battery damage. Never use a damaged charger or battery.

#### Caution: Follow all safety warnings and regulations when using your device in restricted areas

Turn off your device where prohibited

Comply with all regulations that restrict the use of a mobile device in a particular area.

Do not use your device near other electronic devices Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices.

Use manufacturer-approved batteries, chargers, accessories

Samsung cannot be responsible for the user's safety when using

accessories or supplies that are not approved by Samsung.

· If children use the device, make sure that they use the device

· Hold the device upright, as you would with a traditional phone

Avoid contact with your device's internal antenna. Touching the

nna may reduce the call quality or cause the device to transmit

· Hold the device with a relaxed grip, press the keys lightly, use specia

templates and predictive text), and take frequent breaks.

features that reduce the number of keys you have to press (such as

more radio frequency than necessary.

Do not use your device near a pacemaker · Avoid using your device within a 15 cm range of a pacemaker if possible, as your device can interfere with the pacemaker.

# · If you must use your device, keep at least 15 cm away from the

To prevent injury to yourself and others or damage to your device, read all of the following information before using your device

· To minimise the possible interference with a pacemaker, use your device on the opposite side of your body from the pacemal

#### Do not use your device in a hospital or near medical equipment that can be interfered with by radio frequency

If you personally use any medical equipment, contact the manufacturer of the equipment to ensure the safety of your equipment from radio frequency.

#### If you are using a hearing aid, contact the manufacturer for information about radio interference

Some hearing aids may be interfered with by the radio frequency of your device. Contact the manufacturer to ensure the safety of your hearing aid.

#### Turn off the device in potentially explosive environments

- · Turn off your device in potentially explosive environments instead of removing the battery.
- Always comply with regulations, instructions and signs in potentially explosive environments. · Do not use your device at refuelling points (service stations), near
- fuels or chemicals, and at blasting areas.
- · Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories

### Turn off your device when in an aircraft

Using your device in an aircraft is illegal. Your device may interfere with the electronic navigation instruments of the aircraft.

### Electronic devices in a motor vehicle may malfunction due to

the radio frequency of your device Electronic devices in your car may malfunction due to radio frequency of your device. Contact the manufacturer for more inform

### Protect your hearing

· Excessive exposure to loud sounds can cause hearing damage *1*33 · Exposure to loud sounds while driving may distract

your attention and cause an accident. Always turn the volume down before plugging the earphones into an audio source and use only the minimum volume setting necessary to hear your conversation or music.

Use caution when using the device while walking or moving Always be aware of your surroundings to avoid injury to yourself or others

Do not carry your device in your back pockets or around your

You can be injured or damage the device if you fall

### Do not disassemble, modify, or repair your device

- Any changes or modifications to your device can void you manufacturer's warranty. For service, take your device to a Samsung Service Centre.
- · Do not disassemble or puncture the battery, as this can cause explosion or fire.

#### Do not paint or put stickers on your device

Paint and stickers can clog moving parts and prevent proper operation. If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the product and consult your physician

### Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle

While driving, safely operating the vehicle is your first responsibility Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common sense and remember the following tips:

· Use a hands-free device.

- · Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device.
- · Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voice mail answer it for you.
- · Let the person you are speaking with know you are driving. Suspend calls in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility of driving safely.
- Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then continue. • Do not engage in stressful or emotional conversations that may be
- distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
- · Use your device to call for help. Dial a local emergency number in the case of fire, traffic accident, or medical emergencies

### Do not use the device for anything other than its intended use Avoid disturbing others when using the device in public

## Do not allow children to use your device

Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges.

### Install mobile devices and equipment with caution

· Ensure that any mobile devices or related equipment insta your vehicle are securely mounted. · Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

#### Allow only gualified personnel to service your device

Handle SIM cards or memory cards with care
