#### If you use a hearing aid, contact the manufacturer for information about radio interference

The radio frequency emitted by your device may interfere with some hearing aids. Before using your device integrated by matching with some hearing aids. Before using your device, contact the manufacturer to determine whether or not your hearing aid will be affected by radio frequencies emitted by the device.

#### Do not use your device near devices or apparatuses that emit radio frequencies, such as sound systems or radio towers

Radio frequencies may cause your device to malfunction

- Turn off the device in potentially explosive environments Turn off your device in potentially explosive environments instead of removing the battery.
- · Always comply with regulations, instructions and signs in potentially explosive environments
- Do not use your device at refuelling points (petrol stations), near fuels or chemicals, or in blasting areas
- Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories

# If you notice strange smells or sounds coming from your device or the battery, or if you see smoke or liquids leaking from the device or battery, stop using the device immediately and take it to a Samsung Service Centre Failure to do so may result in fire or explosion

### Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle

While driving, safely operating the vehicle is your first responsibility Never use your mobile device while driving, if it is prohibited by law For your safety and the safety of others, use your common sense and

- ber the following tips Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time
- needed to place or receive calls on your mobile device
- Follow all instructions in this manual to ensure the longest lifespar of your device and battery. Damages or poor performance by failure to follow warnings and instructions can void you nce caused manufacturer's warranty.
- · Your device may wear out over time. Some parts and repairs are red by the warranty within the validity period, but damages rioration caused by using unapproved accessories are not

### When using the device, mind the following

Hold the device upright, as you would with a traditional phone

- Speak directly into the microphone. · Do not cover the antenna area with your hands or other objects. This
- may cause connectivity problems or drain the battery

### Do not disassemble, modify, or repair your device

 Any changes or modifications to your device can void your manufacturer's warranty. If your device needs servicing, take your device to a Samsung Service Centre. Do not disassemble or puncture the battery, as this can cause

- explosion or fire.
- Turn off the device before removing the battery. If you remove the battery with the device turned on, it may cause the device to

## When cleaning your device, mind the following

- · Wipe your device or charger with a towel or an eraser
- · Clean the battery terminals with a cotton ball or a towel · Do not use chemicals or detergents. Doing so may discolour or corrode the outside the device or may result in electric shock or fire

answer it for you. Suspend calls in heavy traffic or hazardous weather conditions. Rain sleet, snow, ice, and heavy traffic can be hazardous. Do not take notes or look up phone numbers. Jotting down a "to do"

Position your device within easy reach. Make sure you can access

your wireless device without taking your eyes off the road. If you receive an incoming call at an inconvenient time, let your voicer

- list or flipping through your address book takes attention away from your primary responsibility of driving safely. · Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary
- Do not engage in stressful or emotional conversations that may be distracting. Make the person you are talking to aware that you are driving and suspend conversations that could potentially divert your attention from the road

## Care and use your mobile device properly

### Keep your device dry · Humidity and liquids may damage the parts or electronic circuits in

- your devic Do not turn on your device if it is wet. If your device is already on, turn
- it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry the device with a towel and take it to a service centre.
- · Liquids will change the colour of the label that indicates water damage inside the device. Water damage to your device can void your manufacturer's warranty

# Store your device only on flat surfaces

If your device falls, it may be damaged

Your device may malfunction

card or device

from other devices.

sensitive information

#### Do not store your device in very hot or very cold areas. It is d to use your device at temperatures from 5 °C to 35 °C

Do not use the device for anything other than its intended use

Avoid disturbing others when using the device in public

Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty

Handle SIM cards, memory cards, or cables with care

When inserting a card or connecting a cable to your device, make sure that the card is inserted or the cable is connected to the proper

· Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the

Protect cards from strong shocks, static electricity, and electrical noise

Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

Inserting a card or connecting a cable by force or improperly may result in damage to the multipurpose jack or other parts of the device

Emergency calls from your device may not be possible in some areas or

circumstances. Before travelling in remote or undeveloped areas, plan an alternative method of contacting emergency services personnel.

Protect your personal data and prevent leakage or misuse of

· When disposing of your device, back up all data and then reset your

applications. Be particularly cautious with applications that have

# Caution

### Failure to comply with safety cautions and regulations can cause injury or property damage

- Do not use your device near other electronic devices
- Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices. Using an LTE data connection may cause interference with other such as audio equipment and telephones

#### Do not use your device in a hospital, on an aircraft, or in an automotive equipment that can be interfered with by radio frequency

- Avoid using your device within a 15 cm range of a pacemaker, if possible, as your device can interfere with the pac To minimise possible interference with a pacemaker, use your device
- only on the side of your body that is opposite the pacema If you use medical equipment, contact the equipment manufacturer before using your device to determine whether or not the equipment
- will be affected by radio frequencies emitted by the device. On an aircraft, using electronic devices can interfere with the aircraft's electronic navigational instruments. Make sure the device is turned off during takeoff and landing. After takeoff, you can use the
- device in flight mode if allowed by aircraft personne Electronic devices in your car may malfunction, due to radio interference from your device. Contact the manufacturer for information

Do not expose the device to heavy smoke or fumes Doing so may damage the outside of the device or cause it to malfunction.

#### Do not carry your device in your back pockets or around your waist

You could be injured or damage the device if you fall

## Do not paint or put stickers on your device · Paint and stickers can clog moving parts and prevent proper

· If you are allergic to paint or metal parts of the device, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the device and consult your physician.

# Do not use the device if the screen is cracked or broken Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it repaired.

- Install mobile devices and equipment with caution · Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted.
- Avoid placing your device and accessories near or in an airbag deployment area. Improperly installed wireless equipment can cause serious injury when airbags inflate rapidly.

### Do not drop your device or cause impacts to your device

Your device may be damaged or may malfunction.
If bent or deformed, your device may be damaged or parts may malfunction.

### Ensure maximum battery and charger life

- Avoid charging your device for more than a week, as overcharging may shorten battery life. Over time, unused device will discharge and must be recharged
  - before use. · Disconnect the charger from power sources when not in use
  - · Use the battery only for their intended purposes.
  - Leaving batteries unused over time may reduce their lifespan and performance. It may also cause the batteries to malfunction or explode, or cause a fire.

### Correct disposal of this product

(Waste Electrical & Electronic Equipment)

(Applicable in countries with separate collection systems) This marking on the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed X

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recvclina.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains
