Safety Precautions

On Battery

- Charge the battery only in temperature that ranges from 0°C to 35 °C.
- Do not charge Tablet PC if the battery is found damaged or leaking.

On Operation

- Never subject Tablet PC to extremes of light, temperature, moisture or vibration.
- Do not use or store Tablet PC in a location subject:
 - A. Extreme high temperature, such as in a sun-heated car.
 - B. Direct sunlight.
 - C. High humidity or places with corrosive substances.
 - D. Sub-zero condition, especially during winter.

On SD card

- After inserted a SD card, if the device has no response, please take out and insert again.
- Do not remove SD card or turn off Tablet PC during data writing or reading to prevent damage to data and to the device.
- Make sure the SD card is unlocked before writing or deleting data in the card.
- Backup your files and data before formatting the SD card. Please format the SD card in FAT.

Chapter 1 Basics

TABBY is a Tablet PC with touch screen. It supports Wi-Fi function and third party software.

Parts and Control

1. **Speaker**
2. **Display**
3. **Volume +/- button** – Press to adjust volume level.
4. **Power button** – Press and hold for 3 seconds to turn on.
5. **Home button** - Press to return to home screen.
6. **Return button** - Press once to return to previous screen, long press to return to home screen.
7. **Earphone jack**
8. **USB jack**- for charging or data transfer.
9. **Clip button**

Chapter 1 Basics

10. SD card slot

11. Camera

Packet Contents

- 1x Tablet PC
- 1x USB cable
- 1x User Manual

Power On and Off the device

- Press and hold the Power button for 3 seconds to turn the device on.
- It may take a moment for the device to turn on and load.
- Press and hold the Power button for 3 seconds to select **Power off**, then it will appear a confirmation window, tap **OK** to turn off the device.

Charging the device

- You need to charge the device prior to use it for the first time or when battery power is low.
- Charge the device using AC adapter with output 5V, 1.5A.
- Charging through PC may not be able to fully charge the device due to the low output charging current from PC USB port.
- Please turn the device to standby mode to shorten the charging process.

Chapter 1 Basics

- It will take about 4 hours to fully charge the device in standby mode (LCD off).
- When the power cable is connected to the device for charging, the device will enter into standby mode after remains idle for 60s. Press the [Power] button to wake up the device.
- The battery status is displayed at the top of the screen.

Battery full

Low battery

Charging

Transferring Contents

From Computer

- The device supports USB Mass Storage Device function.
- To import contents (ebooks, video, audio, photo etc) into the device, connect the device to PC via the supplied USB cable.
- Upon successful connection to PC, turn to the TABBY, on the status bar, flick upwards to display an ongoing list.
- Select “**USB connected**”, then tap on “**Turn on USB storage**” to enter USB mode and all operation will be halted.
- Go to [**My Computer**], double click on the device’s disk to open.
- Perform normal file management operation like other USB device.

From memory card

This unit supports SD card up to 32 GB

To insert a Memory card

First open the door of the jacks/slots at the bottom of the unit.

Insert the card correctly with the contact pin facing downwards as illustrated below. Pushing the card into the SD card slot, then you should hear a click when the card is seated correctly. You may damage the

card and the device if SD card is not inserted

correctly.

To remove SD card, push the card once again until it clicks.

When a SD card is inserted in or ejected from the device, it may take few seconds for the device to update the content. Please avoid inserting or ejecting SD card when other operation is running as this may cause the system hang.

- Do not remove the card if the content inside the card is being played. This will halt the operation of the device and cause the device to restart.
- If the system is not responding, press **Power** button for 6 seconds to reset.

Chapter 1 Basics

Stand by /Wake up mode

Press **Power** button to enter Stand by mode, then the device locks automatically.

Locking the device turns off the display to save your battery and to prevent unintended operation of the device.

To wake up the device, press **Power** button again, then press the Lock button and drag the slider.

Home screen

When the device is turned on, it will enter into the Home screen.

Menu bar

1. Search bar for web browser

Allows you to backup account, app data, Wi-Fi passwords, and other settings to Google servers. Additionally, you can erase all data on MDTabby and reboot into the system in Recovery mode.

Date & Time

Set date, time, time zone and display format.

Accessibility

Allows you to install web scripts, set large text, auto-rotate screen feature, speak passwords, touch and hold delay.

Chapter 4 Troubleshooting

If the device does not function as it is expected, please try the following steps.

The device is not responding or can't be turned on.

- Reset the device by pressing the **Power** button for 6 seconds. The device will be forced shutdown if it is on and you are required to restart the device again.
- Battery has been fully depleted. Please charge the device via USB or USB AC Adapter.

Battery Life seems short

- The operating temperature is below 5°C, this is due to the characteristics of battery and not a malfunction.
- The battery is not used for prolonged period. Please recharge the battery of the device again
- The battery is not fully charged. Please charge the device for 4 hours.
- The battery needs to be replaced. Please consult the authorized dealer for service.

The device can not be operated during USB connection

- The device cannot be operated while it is connected to PC.
- At status bar, flick upwards to display a Ongoing list, then select "**Turn off USB storage**" to resume operation.

Maintenance

- If Tablet PC does get wet, turn off Tablet PC immediately. Wait for Tablet PC to dry completely before turning on again.
- Clean the screen with a soft cloth; be careful not to wipe it with anything abrasive. When carrying your Tablet PC in bag, keep Tablet PC in the protecting case supplied to avoid scratches.
- If Tablet PC needs service, please consult the authorized dealer through the contact information provided in the warranty card. Faulty service may void the warranty.

Certification information

On FCC

This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment

and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THE DEVICE. ANY SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

On CE

The symbol means that the unit complies with European safety and electrical interference directives.

Copyrights and Trademark Notice

Copyright laws prohibit copying the data of this product or the contents of this manual (illustrations, related documents, etc.) in whole or in part without the permission of the copyright holder. Additionally, use of the data of this product or the contents of this manual is not allowed without vendor's permission except for personal use.

All the brand and product names are trademarks of their respective companies.

Disposal and Recycling Information

Your Tablet PC must be disposed of properly according to local laws and regulations.

Because this product contains a battery, the product must be disposed of separately from household waste. When your Tablet PC reaches its end of life, contact your local authorities to learn about recycling options.

Battery Replacement:

The rechargeable battery in it should be replaced only by an authorized service provider.

This symbol on the product or in the instruction means that your electrical or electric equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU, For more information, please contact the local authority or your retailer where you purchased the product.
