

Evobook3

USER MANUAL

Safety Precautions

On Battery

- Charge the battery only in temperature that ranges from 0 to 35 degree Celsius.
- Do not charge reader if the battery is found damaged or leaking.

On Operation

- Never subject reader to extremes of light, temperature, moisture or vibration.
- Do not use or store reader in a location subject:
 - A. Extreme high temperature, such as in a sun-heated car
 - B. Direct sunlight
 - C. High humidity or places with corrosive substances
 - D. Sub-zero condition, especially during winter.

. On micro SD card

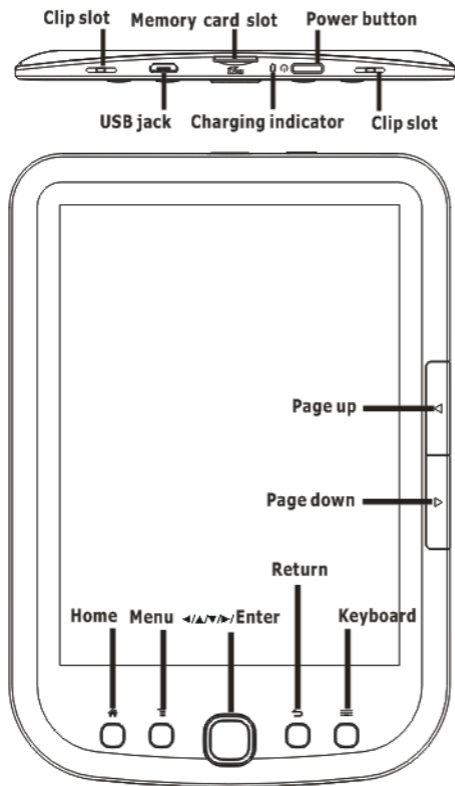

- After inserting a micro SD card, if the reader has no response, please take out and insert again.
- Do not remove micro SD card or turn off reader during data writing or reading to prevent damage to data and to the reader.
- Make sure the micro SD card is unlocked before writing or deleting data in the micro SD card.
- Backup your files and data before formatting the micro SD card. Please format the micro SD card in FAT.

Power On and Off the Reader

- Press and hold the **Power** button for 3 seconds to turn on reader.
- It may take a few moments for reader to turn on and load the content.
- If Reader does not turn on, charging is required.
- To turn off reader, press and hold the **Power** button for 3

Seconds again.

Charging the Reader

- You need to charge the reader prior to using it for the first time or when battery power is low.
- Charge the reader using AC adapter with output 5V, 1.5A.
- Charging through PC may not be able to fully charge the reader due to the low output charging current from PC USB port.
- Please turn the reader to standby mode to shorten the charging process.
- It will take about 4 hours to fully charge the reader in standby mode .
- When the reader enters into standby mode, press the **Power** button to wake up the reader.
- The battery status is displayed at the bottom left corner. The status is shown as below:

Low battery

Charging

Battery full

Importing contents

From Computer

- The Reader supports USB Mass Storage Device function.
- To import contents (ebooks, photo etc) into the reader, connect the reader to PC via the supplied USB cable.
- Upon successful connection to PC, the reader will enter USB mode and all operation will be halted.
- Go to [My Computer], double click on the reader's disk to open.
- Perform the file management operation like USB device.

From memory card

This unit supports micro SD card up to 32GB.

To insert a memory card

Insert the card correctly with the contact pin facing downwards as illustrated below. Pushing the card in, then you should hear a click when the reader is seated correctly. You may damage the card and the reader if micro SD card is not inserted correctly.

To remove micro SD card, push the card once again until it contact the back of the slot.

When the card is inserted or removed, it will take several seconds to load.

Please avoid inserting or ejecting the card when other operation is running as this may cause the system hang.

Do not remove the card if the content inside the card is being played. This will halt the operation of the reader and cause the reader to restart.

Importing DRM Contents

The Reader supports Adobe DRM contents. Adobe Digital Editions (ADE) is required.

Installing Adobe Digital Editions (ADE)

- The ADE installer is preloaded into the computer.
- Make sure your computer is connected to internet.
- Double click on the ADE installer file to start the installation.

Alternatively, you can download the installer from <http://www.adobe.com/products/digital-editions/download.edu.html>.

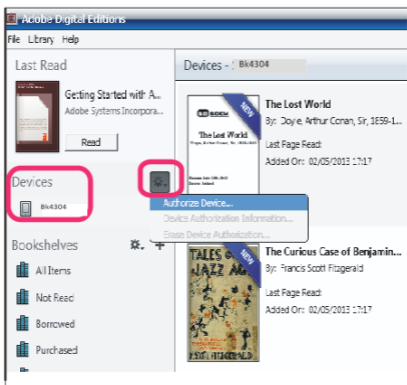

Authorizing PC and Reader

Authorizing your PC and reader with an authorization ID enables you to easily transfer Adobe DRM protected items between your ADE library and this device.

- Launch the **Adobe Digital Editions (ADE)**.

Chapter 1 Basics

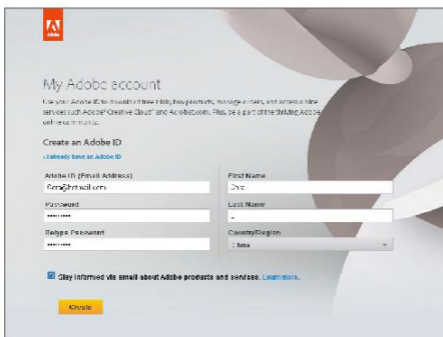

- Connect the reader to computer, make sure it is in USB mode(Data transfer mode), ADE will automatically detect the presence of your device.
- The reader will be recognized in “**Devices**” at the top left of ADE window.
- To authorize PC and reader, click on **Devices** “**EVOBOOK 3**” →  → **Authorize Device**, as the below figure shown:

- After authorization, you will be able to find the Reader content recognized in ADE. Click on **Devices** “**EVOBOOK 3**” , contents inside the Reader will be displayed on the right of windows.

Chapter 1 Basics

- For first time user, you will need to get a free adobe ID from adobe website, click on the **“Create an Adobe ID”** link.
- Enter your email address and complete the online form as per instructed.

The screenshot shows the Adobe website's 'My Adobe account' page. At the top left is the Adobe logo. Below it, the heading 'My Adobe account' is followed by a brief description of the account's purpose. The main section is titled 'Create an Adobe ID' with a link for users who already have an account. The form contains several input fields: 'Adobe ID (Email Address)' with the value 'Cnn@fhtmail.com', 'Password' (masked with dots), 'Repeat Password' (masked with dots), 'First Name' with the value 'Dip', 'Last Name' (empty), and 'Country/Region' with a dropdown menu showing 'India'. A checkbox for 'Stay informed via email about Adobe products and services' is checked, with a 'Learn more' link. A yellow 'Create' button is at the bottom.

- Upon registration, return to the ADE window. Enter the user name and password, click on **“Authorize device”**.
- You can now start downloading or buying ebooks from online Ebook stores supporting Adobe DRM.
- Choose a file folder to store the Purchased or downloaded ebooks link, open the desired books using ADE to import the ebooks into ADE library. You can find your ebooks in the **“My Digital Editions”** folder in your computer's documents folder.

Chapter 1 Basics

Transferring DRM ebooks to Reader

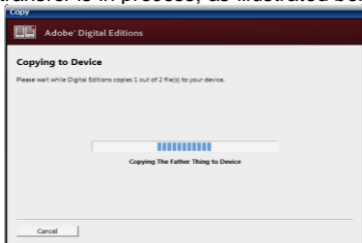

- From ADE menu, click on [All Items] on the left column.
- Items in ADE library will be listed down in right window.
- Select the desired item(s) to be transferred, <Ctrl> + <Left click> to select multiple ebooks.
- Drag and drop the selected item(s) into the **Devices** “**EVOBOOK 3**” located on the left side column, until the mark “” near the mouse pointer is changed into “”, release the mouse button, as illustrated below.

You can also right click on the selected items, and from the Edit menu, choose “**Copy to Computer/Device**”→ “**EVOBOOK 3**”.

Chapter 1 Basics

The transfer is in process, as illustrated below.

When the books are transferred successfully, they all will be stored in [Digital Editions] folder of EVOBOOK 3 reader's disk.

Notes For using ADE

Each ADE ID supports only 6 devices, this includes the master device (the reader) and the slave device (Micro SD card).

When the reader is restored to default settings, ALL DRM activation record and data (including DRM books purchased) will be erased from the reader. You are required to authorize the device with your ADE ID again.

When the number of authorized device has exceeded the allowable amount, you will come across the following error message:

Chapter 1 Basics

To request for extension and reset of your ADE ID, go to <http://helpx.adobe.com/digital-editions.html> for more information.

Home screen

When the reader is turned on, it will enter the Home screen.

- Select the desired book to open. Selected item will be underlined.

Chapter 4 Troubleshooting

The Reader is not responding or can't be turned on.

- Reset the reader by pressing and holding the power button for 6 seconds. The reader will be forced shutdown if it is on and you are required to restart the reader again.
- Battery has been fully depleted. Please charge the reader via USB or USB AC Adapter.

Battery Life seems short

- The operating temperature is below 5°C. this is due to the characteristics of battery and not a malfunction
- The battery is not used for prolonged period. Please recharge the battery of the reader again
- The battery is not fully charged. Please charge the reader for 4 hours.
- The battery needs to be replaced. Please consult the authorized dealer for service.

A Book cannot be read

- Copyright protected books cannot be read on any device other than the authorized one.
- Check if the book has expired.
- Check if the book format is supported by the reader.

The reader cannot be operated during USB connection

- The reader cannot be operated while it is connected to PC.
- Eject the reader from computer to resume operation.
- To use the reader while charging, click on the [Safely Remove Hardware] icon located on the left lower corner to disconnect data connection with computer. After the reader is safely removed, computer will only charge the reader and you can now resume normal operation.

Maintenance

- If reader does get wet, turn off reader immediately. Wait for reader to dry completely before turning on again.
- Clean the screen with a soft cloth; be careful not to wipe it with anything abrasive. When carrying your reader in bag, keep reader in the protecting case supplied to avoid scratches.
- If reader needs service, please consult the authorized dealer through the contact information provided in the warranty card. Faulty service may void the warranty.
