

*CourseEval Faculty  
and Student User  
Guide*

# Preface

## General Information about CourseEval and this training guide

---

*by Academic Management Systems*

*Welcome to CourseEval*

*This manual walks faculty and students through the basic menus of CourseEval. The goal of this manual is to provide Academic Management System clients with the information necessary to manage the system and to create reports.*

*Thank you for choosing CourseEval. We hope you enjoy this training manual and find that CourseEval meets your needs.*

## 1 Faculty/Student Portal

The Faculty/Student Portal is used by participants to access surveys and results.

### 1.1 School Administrator View

The School Administrator View allows the Provost, Vice Presidents, Deans, or other individuals who need to view survey results for all courses at the school level. The report views are the same as a standard faculty member except that the School Administrator has access to all data within the school (all departments and courses) he/she is assigned to.

Below is an example of the Evaluation Report List from the School Administrators level:

AMS University Examples

## 1.2 Department Administrator View

The Department Administrator View allows Chairs or other assigned individuals to view survey results for all courses in a department. The report views are the same as a standard faculty member except that the Department Administrator has access to all data within the department he/she is assigned to.

Below is an example of the Evaluation Report List from the Biology Department Administrators level:

AMS University Examples

## 1.3 Course Administrator View

The Course Administrator View allows course supervisors to view survey results for all sections of a course. The report views are the same as a standard faculty member except that the Course Administrator has access to all data for the courses

he/she is assigned to.

Below is an example of the Evaluation Report List from the Biology 110 Course Administrators level:

Course Number - Sect. ID		Course Name	Responsible Faculty	Close Date	Resp. Rec'd	Resp. Exp.	% Rec'd	Include (All   None)
BIO 110 A 1		General Biology 1	Faculty, One	06/30/2009	4	29	14%	<input checked="" type="checkbox"/>

BIO 110 I 2		General Biology 1	Faculty, One	06/30/2009	1	2	50%	<input checked="" type="checkbox"/>

6 records found.

## 1.4 Faculty View

### 1.4.1 Reports

#### 1.4.1.1 Evaluation Reports

The Evaluation Reports screen displays the overall survey results information.

Period	Course Number	Course Name	Responsible Faculty	Resp. Rec'd	Resp. Exp.	% Rec'd	Include (All   None)
Fall	BIO 110 A	General Biology 1	Faris, Matthew J	32	59	54%	<input checked="" type="checkbox"/>
Fall	BIO 110 C	General Biology 1	Faris, Matthew J	41	60	68%	<input checked="" type="checkbox"/>
Fall	BIO 110 F	General Biology 1	Faris, Matthew J	30	59	51%	<input checked="" type="checkbox"/>
Fall	BIO 110 I	General Biology 1	Faris, Matthew J	26	57	46%	<input checked="" type="checkbox"/>

4 records found.

#### 1.4.1.1.1 Ability to Modify Reports

The ability to modify report layouts is managed by the CourseEval Administrator. If this functionality is turned on, the individual will be able to modify the layout of the report information.

View Report Print Report

Period	Course Number	Course Name	Responsible Faculty	Resp. Rec'd	Resp. Exp.	% Rec'd	Include All None
Fall	BIO 110 A	General Biology 1	Fatts, Matthew J	32	59	54%	<input checked="" type="checkbox"/>
Fall	BIO 110 C	General Biology 1	Fatts, Matthew J	41	60	68%	<input checked="" type="checkbox"/>

Select the Numeric Results setting:

- a. Include graphs with data tables.
- b. Include data tables only (No Graphs).
- c. Do not include Numeric Results in report.

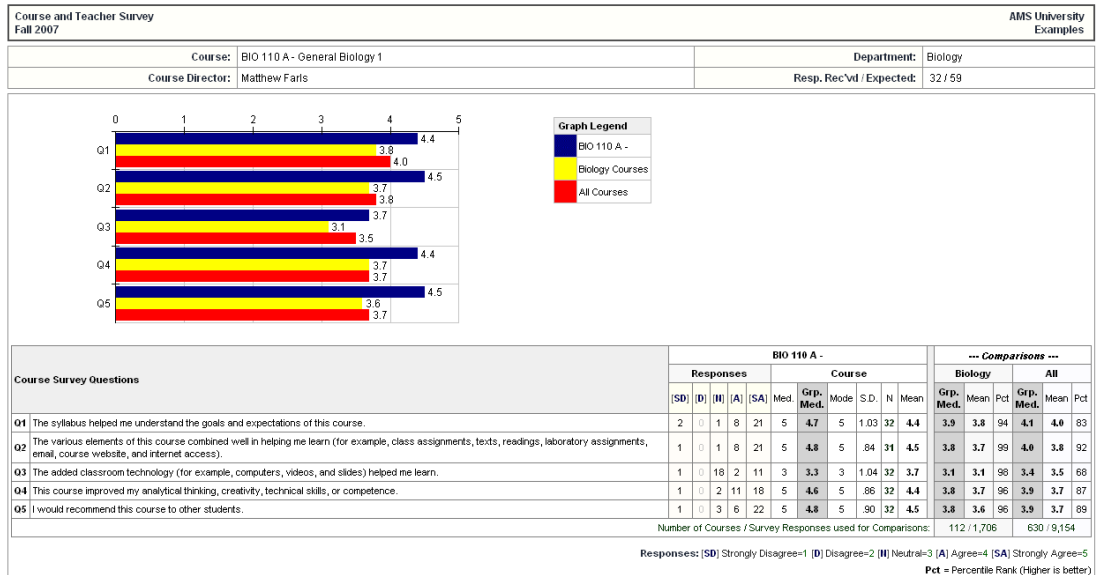

Select the Graph Options:

- a. Show patterned bars on graphs.
- b. Show data labels next to graph bars.

Select the Data Table Options:

- a. Show Standard Deviation - See [Glossary Term Standard Deviation](#)
- b. Show Median - See [Glossary Term Median](#)
- c. Show Mode - See [Glossary Term Mode](#)
- d. Show Group Median - See [Glossary Term Group Median](#) . The group median column will be highlighted and the text will appear in bold when selected for

both the manager and faculty portals.

- e. Standard Error - See [Glossary Term Standard Error](#)
- e. Show Frequency Distribution
  - i. Percentage
  - ii. Count
- f. Show Highs
- g. Show Lows
- h. Show Variance - See [Glossary Term Variance](#)
- i. Show N/A Count - Adds the count of non-applicable responses for each question.

Select the Text Results setting:

- a. Include Text Responses.
- b. Do not include Text Responses.

Select the Performance Comparisons:

- a. Include performance comparison data.
- b. Do not include performance comparison data.

Choose Comparisons:

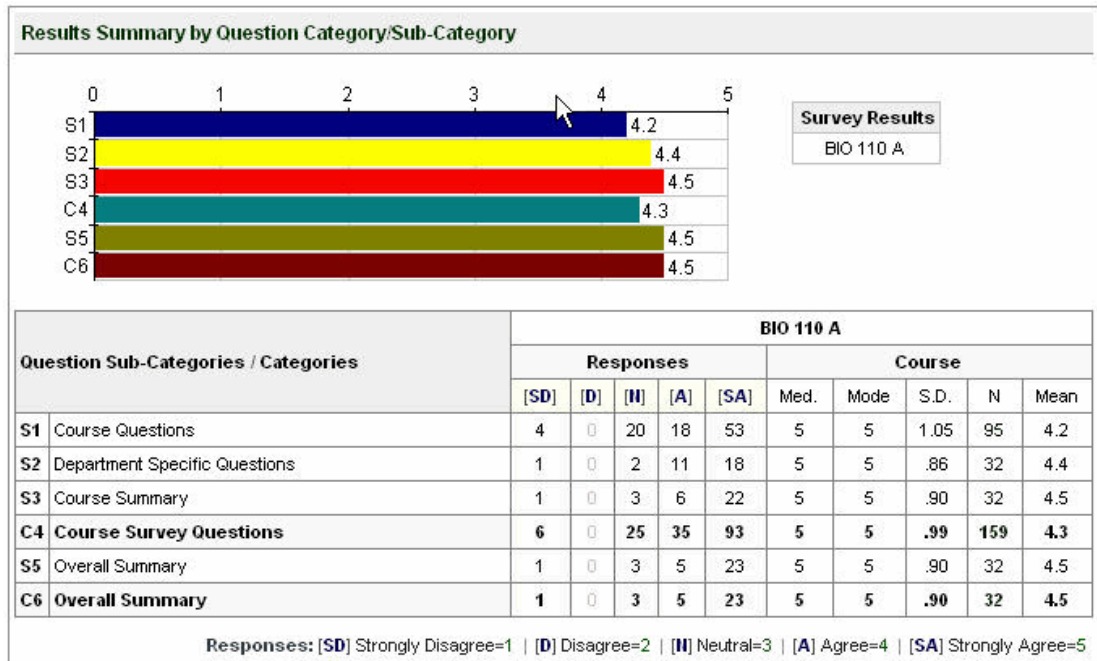

- a. Compare each course with other courses assessed in the same survey.
- b. Compare each course with other courses in the same department.
- c. Compare assessed individuals with others evaluated in the same survey.
- d. Compare assessed individuals with others in the same department.

Select the Comparison to Display from the drop-down menu:

- a. Percentile Rank - See [Glossary Term Percentile Rank](#)
- b. Decile Rank - See [Glossary Term Decile Rank](#)
- c. Quartile Rank - See [Glossary Term Quartile Rank](#)
- d. Symbolic - based on percentile rank .
- e. Symbolic - based on standard deviation - See [Glossary Term Standard Deviation](#)

Select Other Report Options:

- a. Start each Course's Report on a new page.
- b. If available, show picture in report header of Individual Summary reports.
- c. Group report sections by sub-category.
- d. Only show overall sub-category/category results when viewing Individual Summary (No Details).

This report shows results by Categories (C) and Sub-Categories (S) by their category number.

- e. Only show overall sub-category/category results when viewing Individual Summary (No Details)
- f. Show Question Category Comments entered for assessed individuals when viewing Individual Summary (No Details)
- g. Do not show feedback on report.

Enter your feedback about this report in the box below: Be sure to click the "Save" button when you are finished.

- h. Show Feedback at top of report in print view.

Adds a Custom Report Footer to the report. This footer can include any special instructions about the data or any notes that the CourseEval Administrator would like to include.

The graph shows the results for the course, compared to all courses in the same department on the survey, and then compared to all courses on the survey.

### 1.4.1.1.3 Screen Functions

1. 'Save Settings' saves the format created for future use.

2. 'Preview' allows the CoursEval Administrator to view the report before printing it. The Settings can be changed before printing the Overview Report.
3. 'Print' allows the CoursEval Administrator to print the reports. It is also possible to Print reports to PDF. See [Printing to PDF](#)

### 1.4.1.1.2 No Ability to Modify Reports

The ability to modify report layouts is managed by the CoursEval Administrator. If this functionality is turned off, the individual will only be able to modify the comparative or individual summary view of the report information.

### 1.4.1.3 Director Report

The Director's Report provides Department Administrators with an overview report of results for participants. This report can be used for an overall assessment of results by a third party because it allows results to be reviewed and commented on by another person, mainly Department Administrators. This report and review can be used for grading, reviewing self assessments, reviewing peer assessments, and wherever a "second opinion" about performance is needed.

**Note:** A survey must be non-anonymous to create this report.

#### 1.4.1.3.1 Edit Report

The Edit Report view gives the reviewer the ability to scan results about an assessed individual. If the reviewer disagrees with the results posted, he/she can override the answers given and save the changes to the report. Once the reviewer has overridden the report, the icon will turn green.

To Edit the Report

1. Click the 'Edit Report' icon for the correct assessed individual.

## 1.4.2 Other

### 1.4.2.1 Contact Site Administrator

The Contact Site Administrator function allows the participant to contact the school's CourseEval Administrator via e-mail from any computer.

**Send Message to Site Administrator**

This form allows you to send a message to the site administrator. Enter your message into the space below and click the "Send" button.

The Site Administrator will most likely respond to your message via email. If you prefer to be contacted at an email address other than **ts9999@academicmanagement.com** or by phone, you should specify more appropriate contact information in the message you submit.

**Message:**

Email a copy of this message to me.

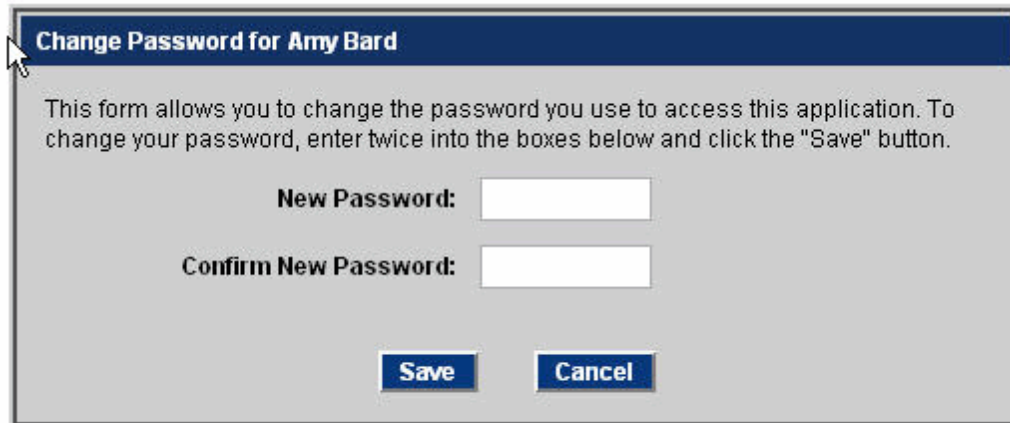

**Send** **Cancel**

### 1.4.2.2 Bulletins

Bulletins are used to distribute general information to CourseEval users. This method of communication is not recommended for information that requires immediate attention. Individuals will not be notified when a bulletin is created, but will need to check for bulletins on the Welcome screen when they log in to the CourseEval Site.

### 1.4.2.3 Change Password

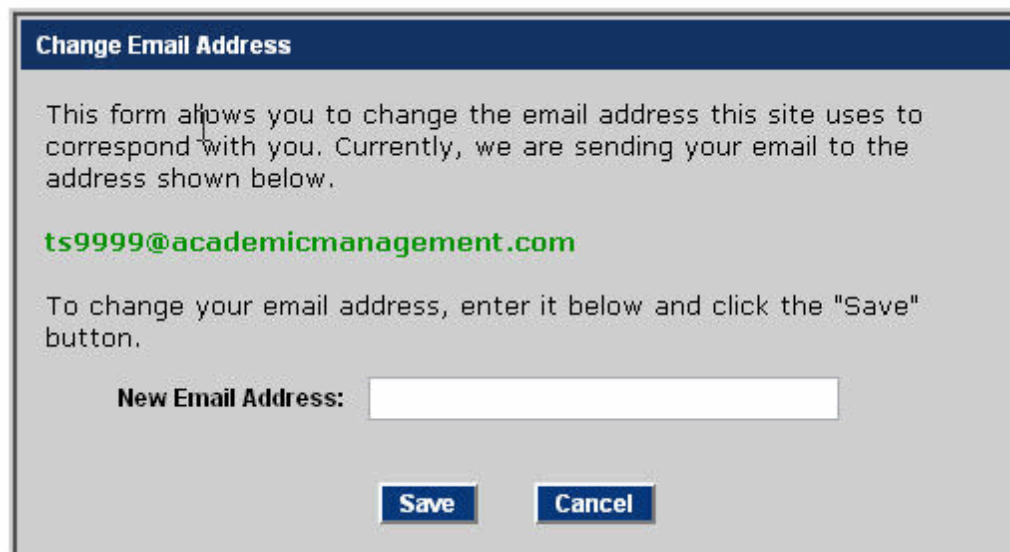

This function is used by participants to change his/her password.

The screenshot shows a web form titled "Change Password for Amy Bard". The form has a dark blue header with the title in white. Below the header, there is a paragraph of text: "This form allows you to change the password you use to access this application. To change your password, enter twice into the boxes below and click the 'Save' button." Below this text are two input fields. The first is labeled "New Password:" and the second is labeled "Confirm New Password:". At the bottom of the form are two buttons: "Save" and "Cancel", both with a blue background and white text.

### 1.4.2.4 Change E-mail Address

This function is used by participants to change his/her e-mail address. The ability to allow users to change their e-mail address is managed by the CourseEval Administrator.

The screenshot shows a web form titled "Change Email Address". The form has a dark blue header with the title in white. Below the header, there is a paragraph of text: "This form allows you to change the email address this site uses to correspond with you. Currently, we are sending your email to the address shown below." Below this text is the email address "ts9999@academicmanagement.com" displayed in green. Below the email address is another paragraph of text: "To change your email address, enter it below and click the 'Save' button." Below this text is a single input field labeled "New Email Address:". At the bottom of the form are two buttons: "Save" and "Cancel", both with a blue background and white text.

### 1.4.3 Help

### 1.4.3.1 CoursEval Help

The CoursEval Help provides a general overview of the Participant portal.

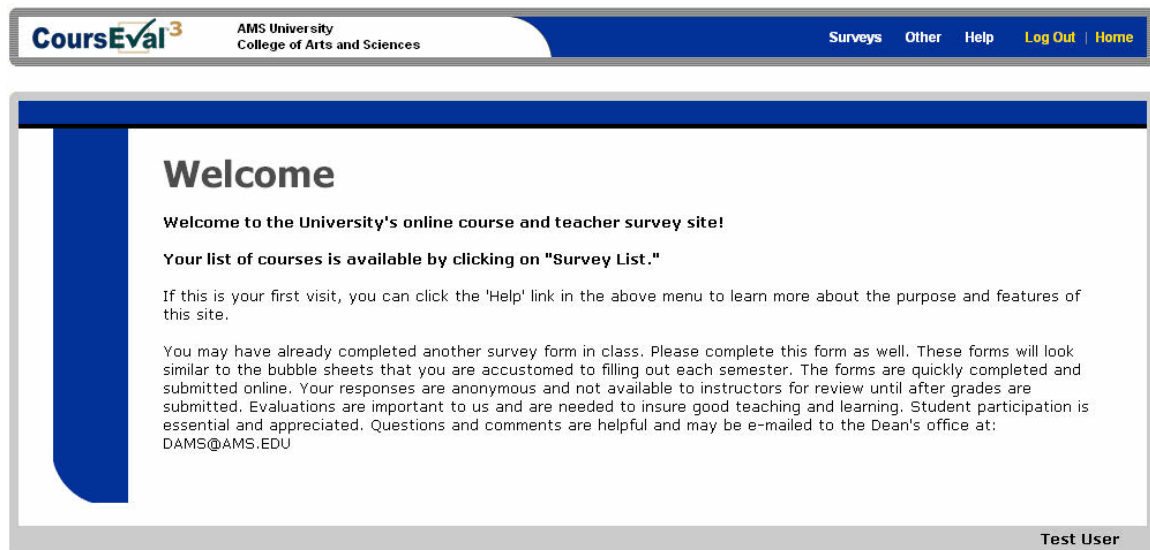

### 1.4.3.2 Local Help

The CoursEval Help provides a general overview of the Participant portal.

### 1.4.3.3 About CoursEval

About CoursEval displays the build number and general information about CoursEval.

College of Arts and Sciences

Surveys Other Help Log Out Home

## Welcome

Welcome to the University's online course and teacher survey site!

Your list of courses is available by clicking on "Survey List."

If this is your first visit, you can click the 'Help' link in the above menu to learn more about the purpose and features of this site.

You may have already completed another survey form in class. Please complete this form as well. These forms will look similar to the bubble sheets that you are accustomed to filling out each semester. The forms are quickly completed and submitted online. Your responses are anonymous and not available to instructors for review until after grades are submitted. Evaluations are important to us and are needed to insure good teaching and learning. Student participation is essential and appreciated. Questions and comments are helpful and may be e-mailed to the Dean's office at: DAMS@AMS.EDU

Test User

### 1.5.1 Surveys

#### 1.5.1.1 Available Surveys

The Available Surveys screen shows the participant the surveys that he/she has been assigned to that need to be completed.

**Survey List**  
Click the 'Open Survey' button to view a survey questionnaire. Buttons with green pages indicate you have begun completing the survey, but have not finished.

Fall Survey				
Course Name	Course Number	Course Director(s)	Submission Deadline	Open Survey
Human Gross Anatomy	100 BH	T. Asbawa D. Aade		
Introduction to Writing 1	ENG 117 FLE	O. Aabitgil		
Introduction to Writing 2	ENG 118 SCH	L. Jdan		

Sample - Self Assessment - Non Course Based				
Course Name	Course Number	Course Director(s)	Submission Deadline	Open Survey
Sample - Self Assessment - Non Course Based	General	U. Faculty		

### 1.5.1.1.1 Taking a Survey

To take a survey, the participant clicks on the 'Open Survey' icon next to the survey's name. The survey will open and the participant can answer the questions.

**Methods and Procedures Survey (Fall 2005)**

**Course Information**

**Course Name:** BIO 110 A - General Biology 1  
**Department:** Biology  
**Instructors:** Dr. Nader Bbadir; Dr. Benjamin Tabatini

**BFT**  
**Aabawa, Thomas C**

To mark all questions in this section as Not Applicable, click here:

**1) The instructor explained material clearly.**

Strongly Disagree  Disagree  Undecided  Agree  Strongly Agree  Not Applicable

If the participant wishes to save their survey and finish it later, he/she can click the 'Save Progress' button. This button will save the answers selected and allow the participant to come back to the survey at a later time.

Once the progress is saved, the following message will appear.

Survey progress  
has been saved.

Close

### 1.5.1.2 Completed Surveys

The Completed Surveys screen shows the participant the surveys that he/she has completed.

Completed Survey List					Lori Deal
Survey Type: Standard		Year: 2007		Period: Fall	
Survey Name	Course Number	Course Name	Responsible Faculty	Date/Time Completed	
Course and Teacher Survey	ENG 117 FLE	Introduction to Writing 1	J. Peters	04/17/2004 10:55:01 AM	
Course and Teacher Survey	HIS 460 BON	Modern Political Theory	Z. Yia	04/17/2004 10:58:48 AM	
					<i>2 records found.</i>

### 1.5.1.3 Incomplete Surveys

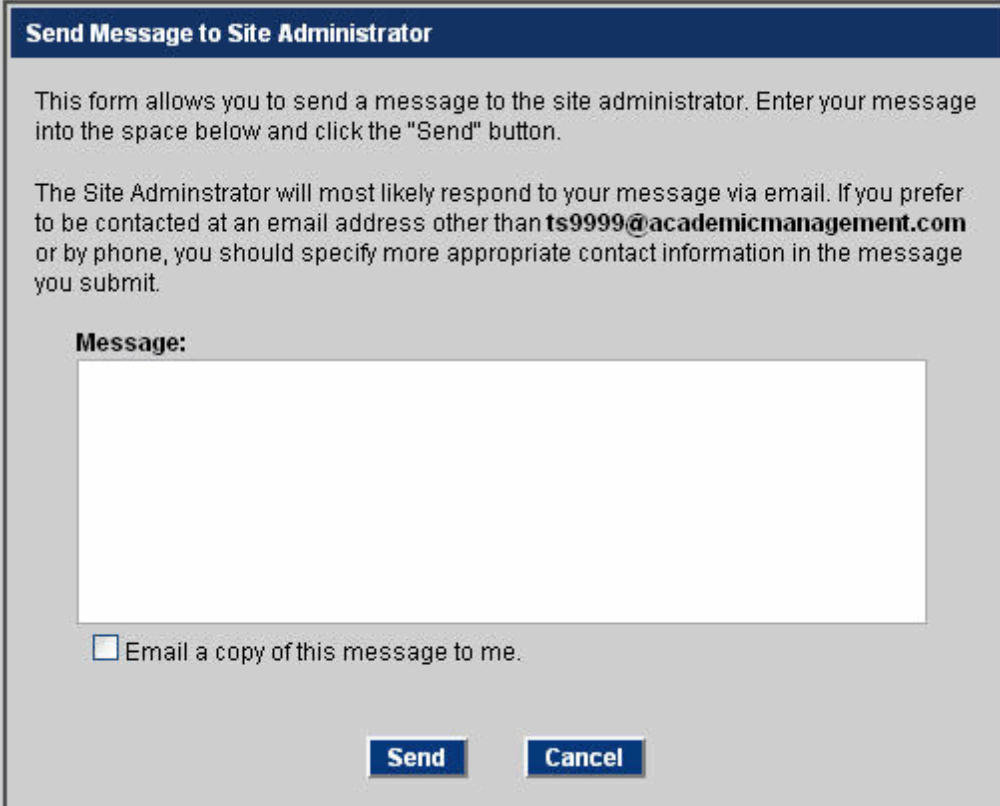

This option allows users to view past surveys that were available to the participant at one time but never completed.

Incomplete Survey List					Lori Deal
Survey Type: Standard		Year: 2006		Period: Fall	
Survey Name	Course Number	Course Name	Responsible Faculty	Date Closed	
Blackboard Test Survey	ENG 250 KEM	Major American Writers 1	A. Mabrozzi	02/24/2006	
Blackboard Test Survey	ENG 273 STU	Books Of the World	N. Hadgil	02/24/2006	
					<i>2 records found.</i>

## 1.5.2 Other

### 1.5.2.1 Contact Site Administrator

The Contact Site Administrator function allows the participant to contact the school's CoursEval Administrator via e-mail from any computer.

**Send Message to Site Administrator**

This form allows you to send a message to the site administrator. Enter your message into the space below and click the "Send" button.

The Site Administrator will most likely respond to your message via email. If you prefer to be contacted at an email address other than **ts9999@academicmanagement.com** or by phone, you should specify more appropriate contact information in the message you submit.

**Message:**

Email a copy of this message to me.

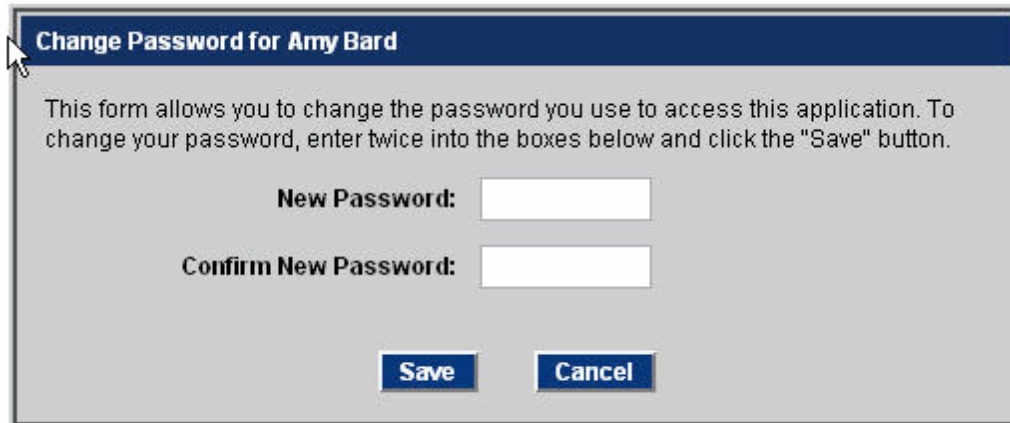

**Send** **Cancel**

### 1.5.2.2 Bulletins

Bulletins are used to distribute general information to CoursEval users. This method of communication is not recommended for information that requires immediate attention. Individuals will not be notified when a bulletin is created, but will need to check for bulletins on the Welcome screen when they log in to the CoursEval Site.

### 1.5.2.3 Change Password

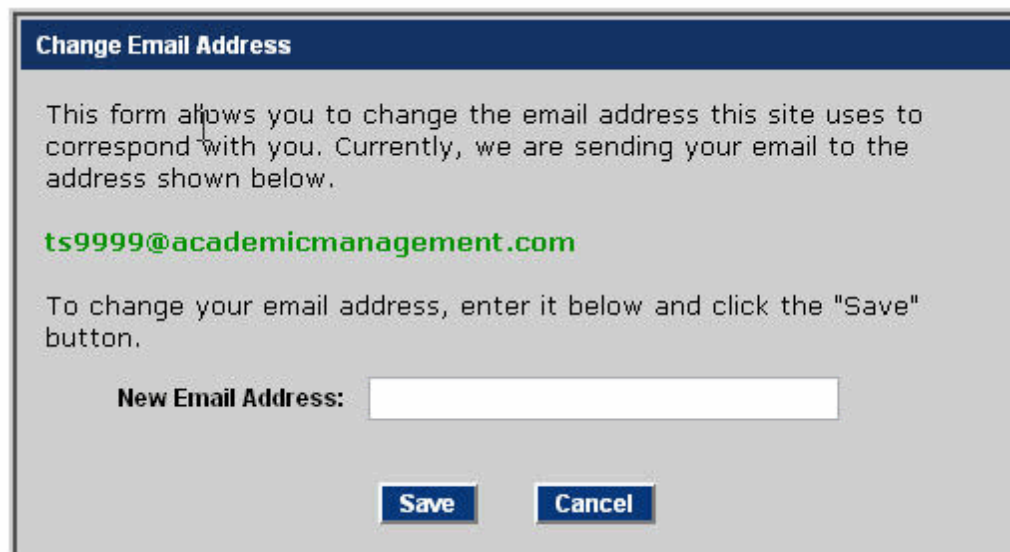

This function is used by participants to change his/her password.

The screenshot shows a web form titled "Change Password for Amy Bard". The form has a dark blue header with the title in white. Below the header, there is a paragraph of text: "This form allows you to change the password you use to access this application. To change your password, enter twice into the boxes below and click the 'Save' button." Below this text are two input fields. The first is labeled "New Password:" and the second is labeled "Confirm New Password:". At the bottom of the form are two buttons: "Save" and "Cancel", both in blue boxes with white text.

### 1.5.2.4 Change E-mail Address

This function is used by participants to change his/her e-mail address. The ability to allow users to change their e-mail address is managed by the CourseEval Administrator.

The screenshot shows a web form titled "Change Email Address". The form has a dark blue header with the title in white. Below the header, there is a paragraph of text: "This form allows you to change the email address this site uses to correspond with you. Currently, we are sending your email to the address shown below." Below this text is the email address "ts9999@academicmanagement.com" displayed in green. Below the email address is another paragraph of text: "To change your email address, enter it below and click the 'Save' button." Below this text is a single input field labeled "New Email Address:". ### 1.5.3.3 About CoursEval

About CoursEval displays the build number and general information about CoursEval.

## 1.6 Resources on Evaluation

The following website and PDF file are good sources of information for planning the evaluation process.

[University of Washington, Office of Educational Assessment](#)

[University of Washington Evaluation Planning Guide PDF](#)

## 1.7 Printing to PDF

**Note:** To print to PDF, a user will need a PDF writer program.

1. Create the report to be printed.
2. Select the print icon at the top of the page.
3. The Windows File Print Dialog box will appear.
4. Select the printer named 'Adobe PDF' or whatever PDF program the institution is using from the drop-down menu.
5. Click 'OK.'
6. The Windows File Save As Dialog box will appear. Select the location to save the file to and type in a file name.
7. Click 'Save.' The PDF will be created and saved in the location specified and can be e-mailed as an attachment.

## 1.7.1 PDF Programs

Some commonly used PDF programs are:

PDF 995 - <http://www.pdf995.com>

Adobe - <http://www.adobe.com/products/acrobatstd/main.html>

## 1.8 Glossary

### 1.8.1 Academic Administrator

The CoursEval Administrator is responsible for the maintenance and use of CoursEval at a school.

### 1.8.2 Cookie

A cookie is a message given to a Web browser by a Web server. The browser stores the message in a text file. The message is then sent back to the server each time the browser requests a page from the server.

The main purpose of cookies is to identify users and possibly prepare customized Web pages for them. When a user enters a Web site using cookies, he/she may be asked to fill out a form providing such information as his/her name and interests. This information is packaged into a cookie and sent to the users Web browser which stores it for later use. The next time he/she goes to the same Web site, the browser will send the cookie to the Web server. The server can use this information to present the user with custom Web pages. So, for example, instead of seeing just a generic welcome page the user might see a welcome page with his/her name on it.

The name cookie derives from UNIX objects called 'magic cookies.' These are tokens that are attached to a user or program and change depending on the areas entered by the user or program.

Cookies are small pieces of information that we may send through the browser or other software to the users hard drive. A cookie lets CoursEval recognize a user when he/she comes back to the CoursEval site. Most web browsers are set to accept cookies automatically, but users can change this setting.

### 1.8.3 Course Administrator

A role, called Course Coordinator was added as a way to handle responsible faculty/course supervisors that are not being evaluated. This role acts like the responsible faculty role EXCEPT people in this role will not appear for selection in the Detailed Settings/Question Category Settings and survey questions will never be attached to them. People in this role will have view access to all results for all course sections that they supervise, similar to a Department Administrator.

### 1.8.4 CourseEval Administrator

A CourseEval Administrator manages a school's CourseEval database.

### 1.8.5 Decile Rank

A rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

Any of nine points that divided a distribution of ranked scores into equal intervals where each interval contains one-tenth of the scores.

### 1.8.6 Department Administrator

Individuals who can view survey results for all courses in a department and perform other administrative actions.

### 1.8.7 Group Median

The Group Median function calculates the median response for a rating item. It makes the following assumptions.

- The rating item is measured on a 5-point Likert scale. For example, the scale might be "Excellent" to "Very Poor."
- The calling program has already counted how many students gave each of the 5 possible answers. That is, it has accumulated the item response frequencies.
- The calling program has passed 1 argument to this function, which is the array containing the 5 item response frequencies.
- $rspfrq[0]$  = no. of students giving the answer worth 1 point ("Very Poor")  
 $rspfrq[4]$  = no. of students giving the answer worth 5 points ("Excellent")
- Any or all of the elements of  $rspfrq$  may be 0. That is, any of the possible responses may not have been picked at all.

- The students who gave any particular answer are actually spread out evenly throughout an interval that extends from half a point below that answer to half a point above that answer. For example, suppose that 8 students gave the answer worth 4 points. The formula assumes that one of them might have been wavering between choosing the 4-point answer and the 5-point answer, but finally decided to pick the 4-point answer because it was the closest one available. The student really would have liked to give a response worth 4.5 points, but it wasn't available. Similarly, another student might have been wavering between the 4-point answer and the 3-point answer, and finally chose the 4-point answer because it was the closest one available. This person would have given a 3.5 response if he could have. Therefore the formula assumes that the 8 students who gave the 4-point answer are evenly spread throughout the range 3.5 to 4.5. It makes a similar assumption about all 5 answer categories.
- There is a problem with the definition of the median. It doesn't have a single unique value if there are empty categories in the item response frequencies. For example, suppose that in a very small class one student gives a response of "Very Poor," which is worth 1 point, and another student gives a response of "Excellent," which is worth 5 points, and that's all. Then the array of item response frequencies would be [1, 0, 0, 0, 1]. What should the median be? The median is the score with half the scores above it and half below it, so any number from 1.0001 to 4.9999 could be chosen. This function uses some rule-of-thumb procedures to try to generate sensible values in these cases, but in general it tends to give the instructor the benefit of the doubt and assign relatively high scores.

Written by Gary Wright, Instructional Data Processing, Division of Instructional Services, Purdue University, West Lafayette, IN. 1-17-01

### **1.8.8 Mean**

The mean is the sum of scores divided by the number of scores (the average).

### **1.8.9 Median**

The median is the midpoint of a distribution, above which half of the scores occurred and below which half of the scores occurred.

### **1.8.10 Mode**

The mode is the most frequently occurring score.

### **1.8.11 Percentile Rank**

The percentile rank of a score is the percentage of scores in its frequency distribution which are lower. For example, a test score which is greater than 90% of the scores of people taking the test is said to be at the 90th percentile.

Percentile ranks are commonly used to clarify the interpretation of scores on standardized tests. If the distribution is normally distributed, the percentile rank can be inferred from the standard score.

### **1.8.12 Participating Faculty**

Faculty involved with a course in a secondary capacity, such as an guest lecturer or preceptor.

### **1.8.13 Quartile Rank**

Quartile Rank is a statistical term describing a division of observations into four defined intervals based upon the values of the data and how they compare to the entire set of observations.

Each quartile contains 25% of the total observations. Generally, the data is ordered from smallest to largest with those observations falling below 25% of all the data analyzed/allocated within the 1st quartile, observations falling between 25.1% and 50% and allocated in the 2nd quartile, then the observations falling between 51% and 75% allocated in the 3rd quartile, and finally the remaining observations allocated in the 4th quartile.

### **1.8.14 Responsible Faculty**

Faculty who are primarily responsible for a course.

### **1.8.15 School Administrator**

Provost, Vice Presidents, Deans, or other individuals who need to view survey results for all courses at the school level.

### **1.8.16 Standard Deviation**

The standard deviation is the square root of the average squared deviation from the mean.

### **1.8.17 Standard Error, Margin of Error and 95% Confidence Interval**

The standard error is used to give some sense as to the reliability of the mean (based on sample size and variability of the responses themselves). From the standard error one can calculate a 95% confidence interval for the mean (that is, the range of values that one say with 95% confidence that the mean could be were every possible student enrolled in the course). Technically, the confidence interval depends on a quantity called 't' which in turn depends on the sample size. For convenience, use 2 as the multiplier for the standard error. That is, the 95%

confidence interval is  $\pm 2SE$ , the latter being called the “margin of error.”

$$\bar{X} = \frac{\sum fX}{N}$$

$$SD = \sqrt{\frac{\sum fX^2}{N} - \bar{X}^2}$$

$$SE = \frac{SD}{\sqrt{N-1}}$$

$$ME = 2 * SE$$

$$95\% CI : \bar{X} \pm 2 * SE$$

Here is an example:

Score	Frequency			
X	f	fX <sup>2</sup>		
5	3	75	Mean	2.892857
4	4	64	SD	1.08032
3	10	90	SE	0.204161
2	9	36	ME	0.408323
1	2	2	95% CI Upper bound	3.30118
			95% CI lower bound	2.484534
	28	267		

### 1.8.18 Teaching Assistant

Teaching Assistants spend time teaching, assist professors by leading quiz sections, staff laboratories, work in departmental study centers, etc.

### 1.8.19 Teaching Site

A teaching site is anywhere a student can go for a learning experience outside of the classroom.

### 1.8.20 Variance

The variance is one of several indices of variability that statisticians use to characterize the dispersion among the measures in a given population. To calculate the variance of a given population, it is necessary to first calculate the mean of the scores, then measure the amount that each score deviates from the mean and then square that deviation (by multiplying it by itself). Numerically, the variance equals the average of several squared deviations from the mean.
