

Pair it with your phone

Before you use your Jabra JX10, you need to pair it with your mobile phone.

1. Put the headset in pairing mode

- Make sure the headset is on.
- **Press** the pairing button marked  until the blue light (LED) turns solid blue.

2. Set your Bluetooth phone to 'discover' the Jabra JX10

Follow your phone's instruction guide. This usually involves going to a 'setup,' 'connect' or 'Bluetooth' menu **on your phone** and selecting the option to 'discover' or 'add' a Bluetooth device. * *(See example from a typical mobile phone in fig. 6).*

3. Your phone will find the Jabra JX10

Your phone then asks if you want to pair with it. Accept by pressing 'Yes' or 'OK' on the phone and confirm with the **passkey or PIN = 0000 (4 zeros)**.

Your phone will confirm when pairing is complete. In case of unsuccessful pairing, repeat steps 1 to 3.
