General Information Intended for the Attending Physician and the Employee Claiming Salary Insurance Benefits

Salary Insurance Plan

The costs related to the salary insurance plan in the education network are assumed in their entirety by the employer for the first 104 weeks of disability. This is a self-insurance plan to which the employee does not contribute.

While the employer is responsible for the payment of salary insurance benefits, he or she must ensure that the benefits are paid in accordance with the rules governing the collective agreements in force in the education network.

The employer may, if he or she deems it appropriate, require additional information in order to enable him or her to assess the eligibility of the claim, as well as any extension of the absence. He or she may refer an employee to a physician he or she may designate. Any cost related to a medical report, such as professional fees or additional information, are assumed by the employee, unless otherwise stipulated in the collective agreements or working conditions.

Definition of "Disability"

To be eligible for salary insurance benefits during a disability period, the employee must demonstrate that his or her medical condition meets the following criteria:

1. the state of incapacity **must result from an illness, accident, pregnancy complication** or **surgical procedure related to family planning**;

2. the illness (or accident) **necessitates medical care**;
   AND
3. the disability must render the employee **totally unable to perform the usual duties of his or her position,** or **any other similar position** calling for comparable remuneration.

Definition of "Functional Disability"

A functional disability or incapacity is any restriction resulting from an impairment which significantly limits the employee's ability to perform an activity. This indicates what the employee is no longer able to do.

Gradual Return to Work
