

Health Claims for Auto Insurance

INSURER USER MANUAL

Chapter 6

Claim & Claimant Management

June 2014

OVERVIEW

HCAI delivers a standard solution for collecting and processing Claims data for the automotive insurance industry. HCAI manages the basic Claim data and the associated Claimant information to ensure plans, invoices and Adjusters are associated with the correct Claimant. Both the Facility and Insurer can manage this information in a way that enables them to accomplish their daily business goals without undue delay.

HCAI can accept both manual and data-feed driven updates to Claim and Claimant information, with the information from the Insurer feed considered authoritative. The option to manually handle Claim and Claimant information is available and is designed to support Insurers who decide not to provide Claim and Claimant data feeds.

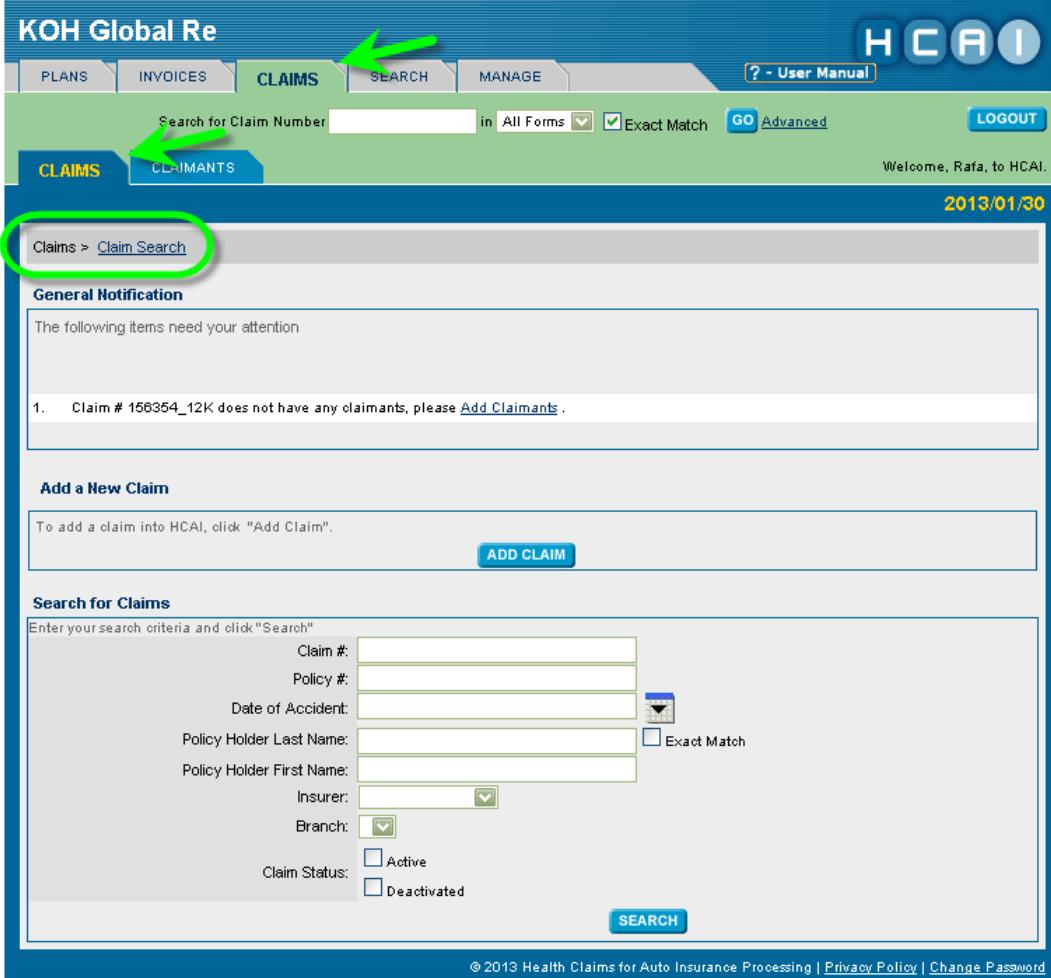

Only Users who have the Claim and Claimant Administrator role have access to the Claim and Claimant Management component of HCAI.

Claim Management

The Claim Management component includes the following topics: searching for Claims, updating Claim details, adding new Claims, deactivating/reactivating Claims. The User's ability to perform these tasks depends on his/her roles.

To open the Claim Management component, select the Claims tab at the top of the Insurer home page. The first screen that appears is *Claim Search*.

Working with Claim and Claimant Notifications

The General Notification Area is located in the upper part of either the *Claim Search* or *Claimant Search* screen, and is available only to Users who have been granted the Claim and Claimant Administrator or Plan/invoice Manager roles.

If you are responsible for Claim and Claimant administration, the General Notification Area displays Claims that do not have any associated Claimants. The <Add Claimants> text-link that appears here leads to the *Add Claimant* screen. From the *Add Claimant* screen, you can add a Claimant.

Searching for a Claim

Claim Search screen

Click the Claims tab at the top of the Insurer home page. The *Claim Search* screen appears by default.

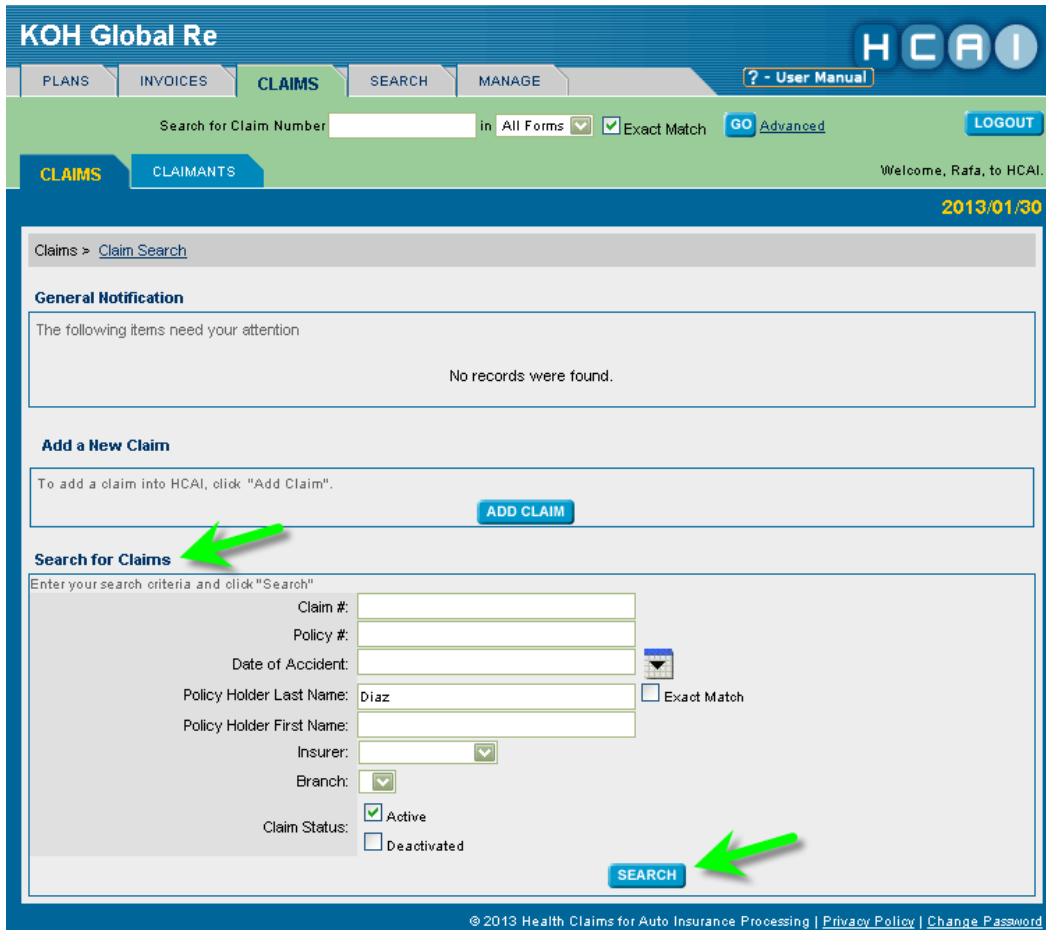

You can enter search criteria in the fields provided.

To search for a Claim, enter data in any of the following fields:

- **Claim #.** If known, the Claim number returns the exact Claim for which you searched.
- **Policy #.** If known, the policy number returns the exact Claim for which you searched.
- **Date of Accident.** Enter the date of accident in YYYY/MM/DD format, or use the icon to engage the calendar feature.
- **Policy Holder.** Last Name and First Name. The "Policy Holder First Name" field cannot be used to search unless you also use the "Policy Holder Last Name" field.
- **Insurer.** Select the Insurer with which the Claim is associated from the Insurer drop-down list.
- **Branch.** Select the branch with which the Claim is associated from the branch drop-down list.

Specify the status of the Claim by selecting "Active," or "Deactivated" using the checkbox. Active Claims are those still being worked on in HCAI; deactivated Claims are those that have been concluded in HCAI.

Click .

Sorting the Search Results

When working with a large number of search results, you can sort the results using different criteria. The default sort order is alphanumeric, ascending by Claim number. The items can be sorted in ascending or descending order, based on field type, by clicking on the highlighted header of the column on which you wish to sort.

Several Pages of Results

If your search results comprise several pages, you can use the numbered links located on the right, above the search results list, to page through the entire set of results.

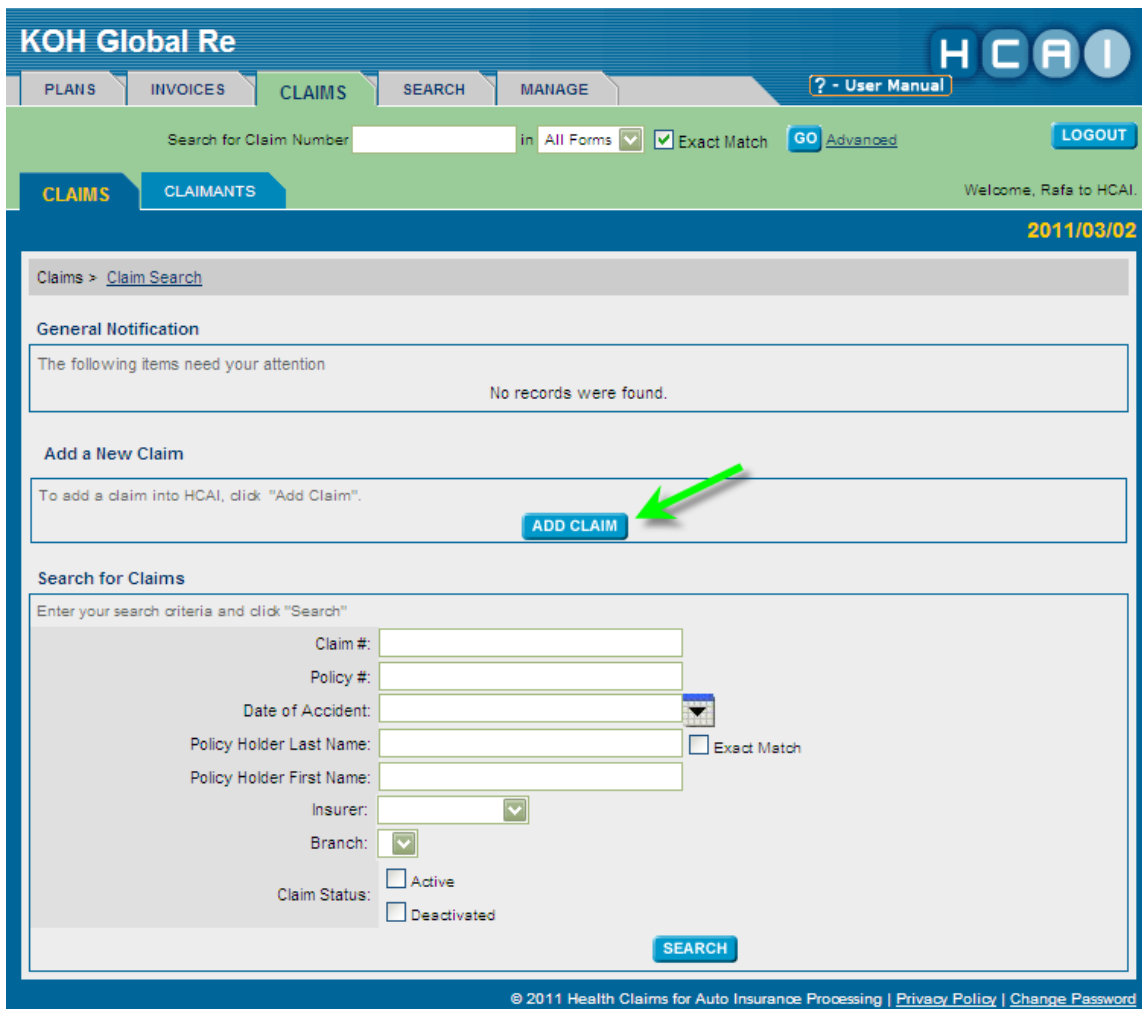

To Return to the Claim Search Form

To return to the Claim search form, click the <Refine Search> text-button above the search results list.

Adding a New Claim

Only Users with the Claim and Claimant Administrator role can add new Claims in HCAI. Claims can be created manually in the Claims, *Claims Search* screen.

Note that, in the event that an OCF is received for a Claim that has been archived, HCAI allows for the creation of a duplicate Claim.

The **DEACTIVATE** button is enabled only when all the Claimants associated with a Claim have been deactivated.

The **ACTIVATE** button is enabled when a Claim is deactivated.

Claimant Management

The Claimant management functionality is accessed from the Claimants sub tab, which is accessible from the Insurer home page if you have the Claim/Claimant Administrator or Plan/Invoice Manager role. Claimant Management enables search, update, add, deactivate/reactivate Claimant(s) functionality.

The ability of Users to perform these tasks depends on the roles they have been assigned in HCAI. For more information on task authority and User roles, see [Chapter 10: Insurer User Management](#).

When you successfully add a new Claimant, HCAI performs a check against all unmatched documents and attempts to match them with the new Claimant. The following matching criteria are used: Policy number or Claim number, Date of Accident, Gender, and Date of Birth. Documents that match are displayed in the Associated Documents section at the bottom of the *Claimant Details* screen.

Click on the Claimant in the Claimant Name column of the Claimant search results list to proceed to the *Claimant Details* screen. The fields are pre-populated with the current Claimant data.

Searching for a Claimant

To search for a Claimant,

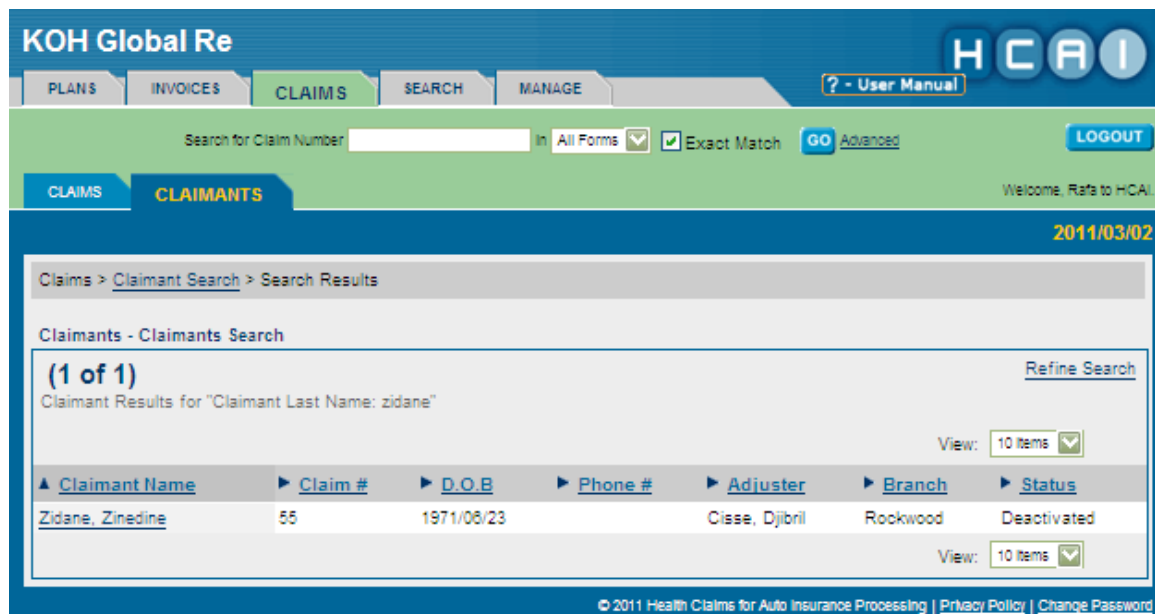

In the Claimant Search screen, specify the Claimant status (“Active” or “Deactivated”), and any of the following criteria:

- **Date of accident.** Enter the date of the accident in YYYY/MM/DD format, or use the icon to use the calendar feature.
- **Claimant last name and first name.** The “Claimant Last Name” field must contain at least two characters. The “Claimant First Name” field cannot be used to search unless you also use the “Claimant Last Name” field.
- **Claimant date of birth.** Enter the date.
- **Claimant phone number.** Enter at least the area code and the prefix (i.e., the first three digits) of the number.
- **Claimant postal code.** Enter at least the first three characters of the postal code.
- **Adjuster.** Select the Adjuster associated with the Claimant from the respective drop-down list. The set of Adjusters visible is restricted by the User’s domain.
- **Insurer.** Select the Insurer from the drop-down list.. Select the desired Branch from the drop-down list.

Click  .

If there are no Claimants that match your search criteria, or if any of your search criteria is invalid, HCAI provides a notification message and you are returned to the *Claimant Search* form. If your search criteria are validated, you proceed to the *Claimant Search Results* screen.

4. Select the province of residence from the respective drop-down list. This list defaults to "Ontario."
5. Specify the Claimant's postal code.
6. Select an Adjuster to manage the Claimant from the "Adjuster" drop-down list. This list contains only active Adjusters and is restricted by your access domain.
7. Enter the Claimant's date of birth in YYYY/MM/DD format, or use the calendar function.
8. Select the gender of the Claimant.
9. Enter the Claimant's phone number.
10. Click **SAVE** to save the new Claimant details. If any information is missing or invalid, you are returned to the *Add Claimant* screen. An error message appears in the error list at the top of the screen, referring you to the field(s) in error.
11. Click **CANCEL** to clear the Claimant details you have entered. In the confirmation dialog box, click <Yes> or <OK>.

Note: All fields with an asterisk (*) are required.

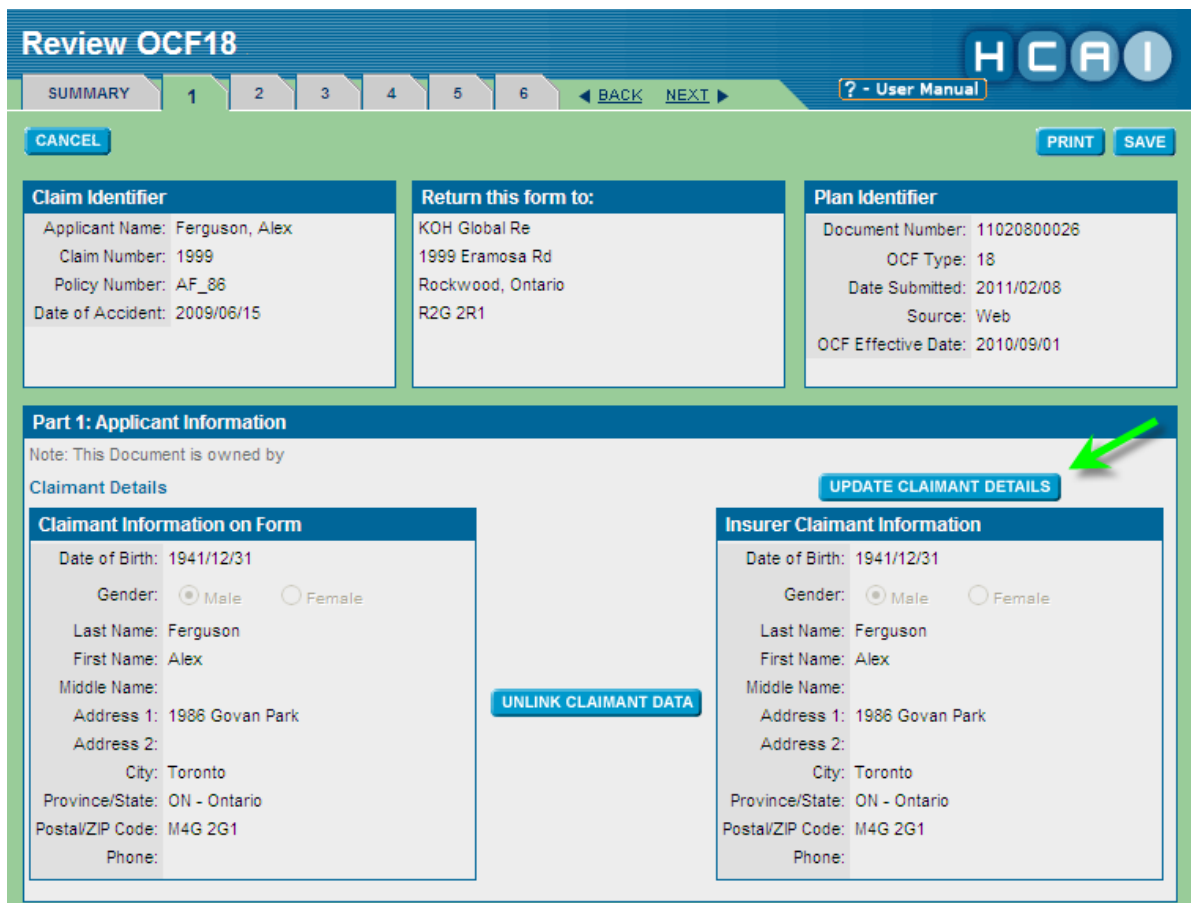

When you successfully add a new Claimant, HCAI performs a check against all unmatched documents and attempts to match them with the new Claimant. The matching criteria used are the policy number or Claim number, date of accident, gender, and the date of birth. If any documents are found that match, they display in the Associated Claimants section at the bottom of the *Claimant Details* screen.

Updating Claimant Details

This section describes the process of updating and viewing Claimant details that have been provided either through an Insurer's data feed or created manually. You can update a Claimant associated with a specific Claim in the *Claimant Details* screen.

To update Claimant details:

- Open the Plan that belongs to the Claimant whose information you wish to update.
- Navigate to Part 1 of Tab 1 in the selected Plan and click on the **UPDATE CLAIMANT DETAILS** button.
- Edit the content as required in any of the available fields.

Batch Transfer of Claimants

Individuals with either the Plan/Invoice Manager or Claim/Claimant Administrator role have the ability to use the "Reassign Adjuster" feature in batch. Multiple Claimants can be transferred from one Adjuster to another at the same time. This feature is commonly used to reassign Claimants when an Adjuster leaves the company or takes on a new role.

To transfer multiple Claimants from the Claimants > *Claimant Search Results* screen:

1. Navigate to the Claims > Claimants sub-tab.

- Apply your search parameters in the relevant fields (viz., Insurer, Branch and/or Adjuster) in the “Search for Claimants” section, then click **SEARCH**. To reassign the Adjuster, Branch must be selected.

Matching Claimant Details – Linking Claimants with Documents

If there is a perfect match between the applicant details specified by the Facility and the Claim and Claimant details recorded in HCAI by the Insurer, HCAI links the information and documents automatically so there is no need for Users to match documents to Claimants. A perfect match occurs when the following data elements match between the information provided by the Facility and the information provided by the Insurer:

- Either the policy number or the Claim number matches (Facility leaves the other one blank);
- Date of Loss / Accident;
- Date of Birth;
- Gender.

However, if the Facility does not leave the other one blank (either the policy or Claim number) and enters some information that is not matched, HCAI will cross-match the Claim and policy number. The cross-match allows for the following additional matches:

- If either the Policy number or Claim number match, the other one need not be matched and need not be blank;
- Policy number that is set up by the Insurer matches the Claim number that is set up by the Facility;
- Claim number that is set-up by the Insurer matches the policy number that is set up by the Facility.

When the cross-match rules are initiated and a match is made for a submission that is not exact, the following warning message is provided for the Adjuster in receipt of the form:

“Please review the matching of Claim/Claimant and un-match if incorrect.”

This warning will display until the form changes from a “Submitted” state to a “Review Required” state.

Organizations containing more than one insurance company as part of their structure, or more than one branch, may have forms that are misdirected by the Facility to a Branch or Insurer in error. If the form is a match with one of the group of companies or another Branch of the company, HCAI will search the organization structure for a match and, upon discovery, will match the form. If the form has incorrect information and is “Unmatched”, it will stay in the unmatched bucket of the Branch to which it was submitted until a match can occur.

The Claimant matching functionality can be accessed only if you have been assigned the role of Plan/Invoice Manager.

To match a Claimant with a plan or invoice:

- Open a plan or invoice with “Unmatched” status from the Work In Progress work list on the Insurer home page using the “Review Form” () button.

If the plan or invoice has not been automatically matched by HCAI, you are taken directly to the *Match Claimant* screen.

MATCH

If you are satisfied with one of the possible matches presented by HCAI, click the **MATCH** button next to the respective item. This takes you back to the OCF from which you accessed the *Match Claimant* screen, and the OCF is now linked to the Claimant.

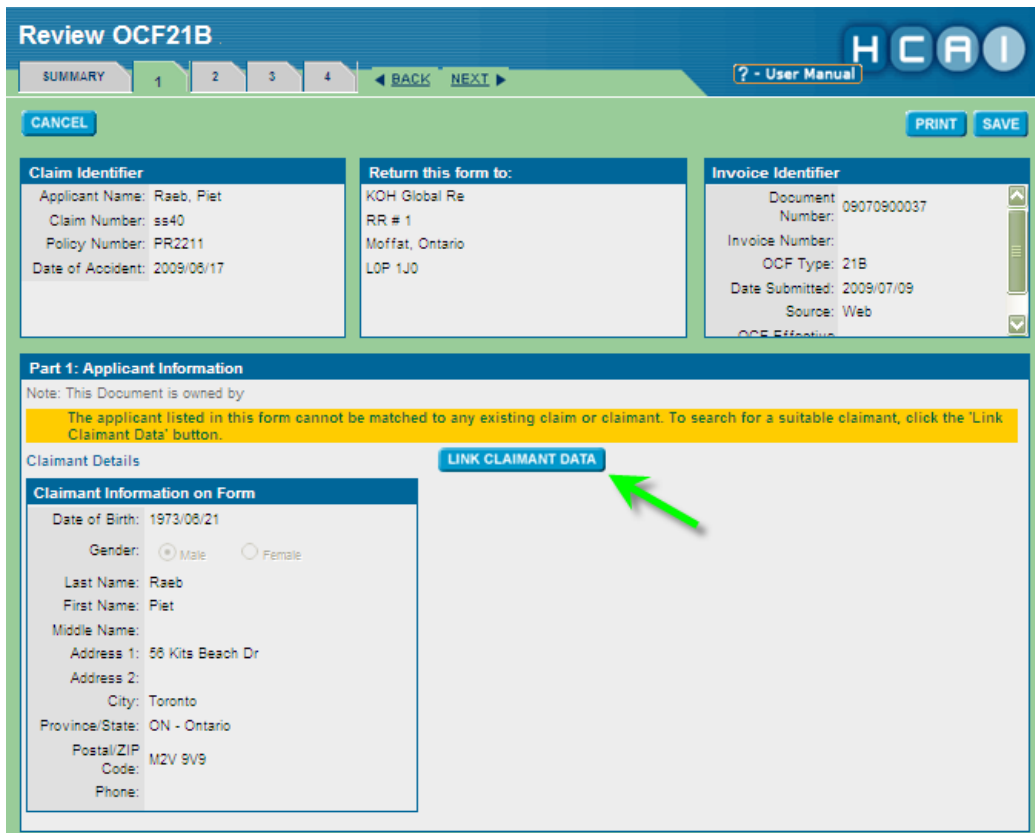

When the Possible Matches section does not contain the Claimant you are looking for, you must decide whether to search for the Claimant, or to create a new Claim and Claimant to which the document can be linked.

Should you want to search for the Claimant, click the **SEARCH FOR CLAIMANT** button. This takes you to the *Claimant Search* screen where you can specify your search criteria.

When the Claimant search produces a possible match that you want to link to the Claim, click on the **MATCH** button to complete the link and return to the original OCF.

If, based on the search criteria entered, no potential Claimant matches are found, you are then returned to the *Claimant Search* screen where you can try another Claimant search, cancel the matching attempt, or create a new Claim and Claimant in HCAI to link with the document.

If you want to create a new Claim to match to the document, click the **CREATE CLAIM** button and proceed to add a new Claim from the *Claim Details* screen. If HCAI has made an automatic match that you want to change, you can unlink the document from the Claimant and make a manual match.
