

Multi-Function Power Monitor

User Manual

EPM_V (voltage): Reverse power, Short, Over load & phase power lack problems detected

(一) Product Specification :

- Stability ◦
- Safety ◦
- Outside Dimension : 100mmX80mmX48mm ◦
- Easy installation ◦ Adopt in common use 8PFA outlet, can install easily.
- Working Range : 160VAC ~ 600VAC
- Complete range specification : 220VAC , 380VAC , 415VAC , 440VAC ◦
- Multi-function detection can simplify the layout.
- **Auto or manual reset can be chosed.**

(二) Panel Description :

- (1) Normal: Normal status
- (2) Lack of Phase: Lack of phase power detected, Time of action (80ms).
- (3) Reverse: Reverse power detected, Time of action (80ms).
- (4) Low Volt.: Low voltage detected, Time of action (500ms).
- (5) High Volt.: High voltage detected, Time of action (500ms). ◦
- (6) Reset: Press this button after the troubleshooting.
- (7) Rotary switch (O.V) : Set the over voltage value.
- (8) Rotary switch (U.V.) : Set the under voltage value.
