**FISHMAN**®

USER GUIDE
ISYS ONBOARD PREAMPS

Isys Quick Start

1. Set the controls • Set **volume** off and the **contour** control to off (button out).

2. Plug in • Connect the Isys to an amplifier or PA with a ¼-inch instrument cable. The **batt** light will flash once quickly to indicate it has switched on.

3. Turn up • Raise the **volume** and adjust the **contour** control to your liking.

Isys Controls

Volume • For the cleanest signal, set the **volume** knob as high as possible, without causing distortion or feedback.

Contour • This one-button tone control lets you choose between a natural sound with no EQ (button out) or a "Scooped" sound with emphasized treble and bass and reduced midrange (button in).
Phase • Use the **phase** switch to improve bass response at low volume and suppress feedback at high volume.

When the **batt** lamp lights steadily it is time to change the battery (approx. 125 hours of use). To conserve the battery, unplug the instrument when not in use.

Isys T Quick Start

1. Set the controls • Set **volume** off and the **contour** control to off (button out).

2. Plug in • Connect the Isys T to an amplifier or PA with a ¼-inch instrument cable. The **batt** light will flash once quickly to indicate it has switched on.

3. Tune up • Press the **tuner** button. When it's on, the tuner mutes the signal. Press again to exit.

4. Turn up • Raise the **volume** and adjust the **contour** control to your liking.

Isys T Controls

Volume • For the cleanest signal, set the **volume** knob as high as possible, without causing distortion or feedback.

Contour • This one-button tone control lets you choose between a natural sound with no EQ (button out) or a "Scooped" sound with emphasized treble and bass and reduced midrange (button in).

Phase • Use the **phase** switch to improve bass response at low volume and suppress feedback at high volume.

Tune • Use the tuner lights as shown below to tune your instrument.

When the **batt** lamp lights steadily it is time to change the battery (approx. 125 hours of use). To conserve the battery, unplug the instrument when not in use.

Isys Plus Quick Start

1. Set the controls • Set **volume** off and **bass** and **treble** controls to center.

2. Plug in • Connect the Isys Plus to an amplifier or PA with a ¼-inch instrument cable. The **batt** light will flash once quickly to indicate it has switched on.

3. Tune up • Press the **tuner** button. When it's on, the tuner mutes the signal. Press again to exit.

4. Turn up • Raise the **volume** and adjust the **bass** and **treble** controls to your liking.

Isys Plus Controls

Volume • For the cleanest signal, set the **volume** knob as high as possible, without causing distortion or feedback.

Bass • Boost here to add depth and weight to the sound of the guitar.

Treble • Boost to cut through the mix. Cut to mellow and subdue the sound.

Phase • Use the **phase** switch to improve bass response at low volume and suppress feedback at high volume.

Tune • Use the tuner lights as shown below to tune your instrument.
