

# The Stock Journal app – user guide

Our new app is designed to let you carry your paper in your pocket.

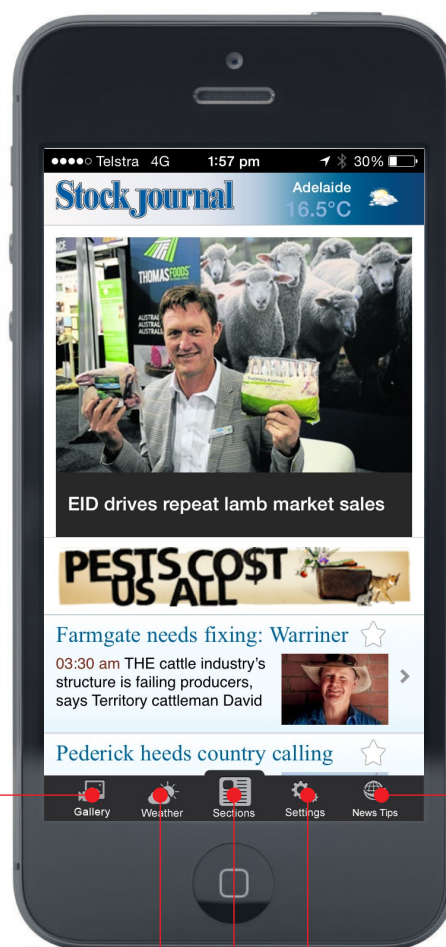

Keep in touch with the latest breaking news, track local weather conditions and see photos and videos from around the country.

And because we know not every paddock gets good service – or even any – we've made it easy for you to pre-load stories to read when you're out of range.

Here's a quick guide to the key features.

## HOME PAGE

### GALLERY

See photos and video from around the country

### NEWS TIPS

Send a news tip or photo to Stock Journal's team

### WEATHER

Track weather conditions including wind speeds, temperature and humidity

### SETTINGS

Log in with your subscription details to get access to premium content. The app will remember these unless you log out.

### SECTIONS

Skip straight to the news that matters to you – for example, livestock. You can even customise the feed to show the news most relevant to you first.
