Background

Improve was developed in response to a need within the school system for an interactive learning system that can be used by teachers and students around Australia to improve student learning and outcomes.

This guide uses step-by-step explanations and screenshots to provide an overview of the features of Improve that are most likely to be used by teachers.

As a teacher, you can:

- view and access existing tests and questions
- create customised tests and questions
- add learning activities to questions
- monitor the completion of tests and activities
- generate comprehensive reports to determine student outcomes.

All teachers of licensed schools in Australia can access Improve. Full access to learning resources is available via Scootle – www.scootle.edu.au. Access is managed by jurisdictions and various school bodies (not by Education Services Australia).

Register with Improve

You will firstly need to register with Improve via one of these options:

1. Existing Scootle user

If you are a registered Scootle user, you can access Improve using your Scootle username and password.

You will be able to log in to Improve from the website (improve.edu.au) or by using the Improve link in the menu bar of the Scootle website.

2. New Scootle user

To register for Scootle go to: <http://www.scootle.edu.au> and select the **New to Scootle? – Teachers can register here!** link. Enter your education email address and complete the registration form.

You will receive a confirmation email and you will need to select the link in this email to complete the registration process.

3. Jurisdiction website

If available in your state/territory, you can register with Improve via your jurisdiction website. From the jurisdiction website:

- Search for the 'Accessing Improve' resource **R12306**.
- Select **View** or **Open Resource** to continue.
- Select **Register for Improve**.

You will then be directed to the Improve registration page.

The image displays two screenshots of educational websites. The top screenshot is the 'improve' website's 'Teacher login' page. It features a navigation bar with links for Home, About us, Accessing Improve, Contact us, and a Login dropdown. The main content area is titled 'Teacher login' and instructs users to choose from three options to log in: 'Log in via Scootle' (using existing Scootle credentials), 'Or log in via Improve' (using Improve credentials), and 'Or log in via your jurisdiction' (selecting a jurisdictional portal like Tasmania). The bottom screenshot is the 'scootle' website's home page. It includes a search bar, a navigation bar with links like Home, Find by Australian Curriculum, A to Z, Learning paths, Improve, Community, and Language Learning Space. The main content area says 'Welcome to Scootle!' and provides information about the portal's resources and a registration link.

Access Improve

Log in

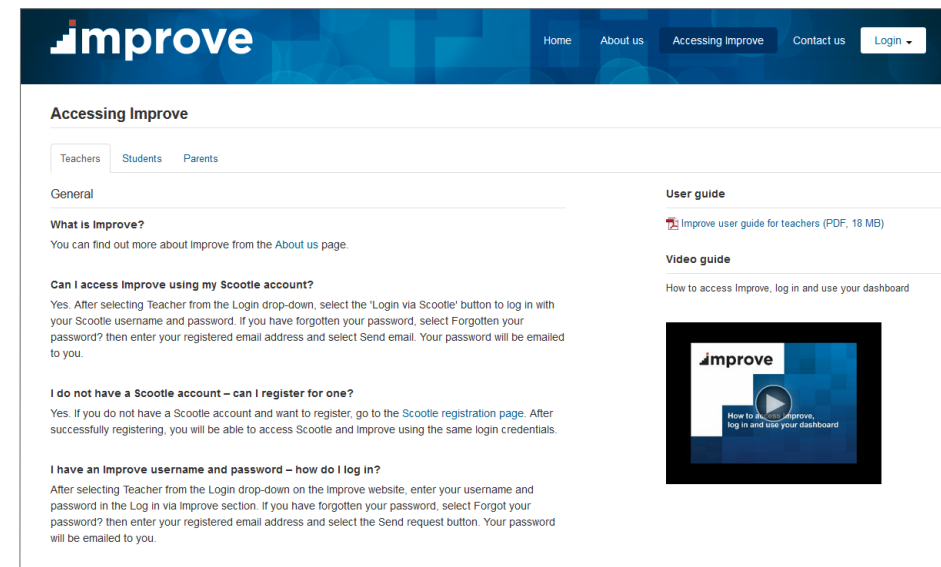

Enter the web address **improve.edu.au** into the address bar of your web browser.

Ensure that you have a Scootle account or that you have registered with Improve before you attempt to log in.

Select **Teacher** from the **Login** drop-down menu on the far right of the top menu bar. Alternatively, select the heading '**Teachers**' (located halfway down the page) or the image of the computer screen to access the **Teacher login** page.

View login instructions

Select **Accessing Improve** from the top menu bar to view login instructions and support materials.

Access Improve

Log in via Scootle

Select the **Login via Scootle** button, enter your username and password, and select **Login**.

If you have forgotten your Scootle password select the **Forgotten your password?** link, enter your email address and select **Send email**.

A temporary password (valid for 24 hours) will be emailed to you. You will need to change this password after login.

Log in via Improve

Enter your email address and password to log in via Improve.

If you have forgotten your password select the **Forgot your password?** link, enter your email address and select **Send request**. Your password will be emailed to you.

Note: If you have not completed the registration process, select the **Resend your activation email?** link to receive the activation email again.

Overview: My dashboard

Header bar

The header bar appears at the top of every page in Improve. This bar allows you to **Contact us** via email, to go to **My dashboard** and to **Log out**.

Main menu bar

The main menu bar appears at the top of every page. This bar gives you access to your dashboard, questions, tests, reports and support.

Icon links

The dashboard links menu allows you to access all existing tests and questions as well as create your own questions and tests. You can access a list of your registered students and set up a class to which you can assign students. Any notifications you have received can also be accessed from here.

Dashboard

You can access a number of functions from your dashboard. Change the view by selecting any of the options under the three headings on the left of the dashboard – **Assigned tests**, **Tests**, or **Questions**.

Log out

Use this drop-down to log out of Improve.

Teacher ID

You need to give your teacher ID to your students when you are ready for them to join your class and to access tests.

Search box

A search box appears at the top of every page. You can search for tests or questions using one or more keywords.

The screenshot shows the 'My dashboard' page. At the top is the 'improve' logo and a header bar with 'Contact us | Melinda.brennan@esa.edu.au'. Below this is a main menu bar with 'My dashboard', 'Questions', 'Tests', 'Reports', and 'Support'. A search box is on the right of the menu bar. The dashboard itself has a left sidebar with 'Assigned tests', 'Tests', and 'Questions' sections. The main area shows 'All my questions' in a table. A callout box points to the 'Log out' link in the header. Another points to the 'Teacher ID' (CWVWGQM) displayed below the search box. A third points to the 'Search box' in the main menu. A fourth points to the 'Live support' link at the bottom right. A fifth points to the 'Icon links' in the left sidebar.

Title	Updated	No. of times used	Subject	Year
Use semicolons	16/12/2013	1	English	9

My dashboard

About your teacher ID

Your teacher ID is always visible in the top right of **My dashboard**. It consists of six alphabetic characters and does not change at any time. You will need to provide your teacher ID to students to enable them to register for your class.

To register as a student in your class, students select the **Join a class** link from the Improve student dashboard. After registering, a student receives a password (in this example, **like group**) that identifies them uniquely as your student and allows them to access your assigned tests.

About student passwords and test PINs

A student's password is a unique identifier and cannot be shared. Your student will use this password to access tests assigned to them, and identify them to you after test completion. Please remind your students to keep their password(s) safe.

Tests in progress				
Title	PIN	Assigned date	Assigned to	Actions
New punctuation test	4YY9TJ	16/12/2013	Year 9 Literature	⚙️ Actions ▾
Remembering punctuation	Q9LTMB	16/12/2013	Year 9 Literature	⚙️ Actions ▾
Punctuation for year 9	KN43R2	11/12/2013	Year 9 Literature	⚙️ Actions ▾

Each test is also identified by a unique PIN. You can find this PIN on the following Improve pages:

- the **Assigned tests** section on the left of your dashboard
- the **assigned test settings** page, in the **Test PIN** box.

Provide this test PIN to your students to enable them to gain access to the test.

After selecting **Take a test** in the Improve student dashboard, a student enters:

- the PIN that you gave them
- their student password.

Overview: Main menu bar

The Improve main menu bar appears at the top of every page.

Questions

The **Questions** drop-down menu contains two options.

- Select **Create a question** to construct your own questions.
- Select **View my questions** to view all the questions that you have created.

Tests

The **Tests** drop-down menu contains two options.

- Select **Create a test** to set up your own test using existing questions or questions that you create.
- Select **View my tests** to view all tests that you have created.

Reports

The **Reports** drop-down menu contains four options.

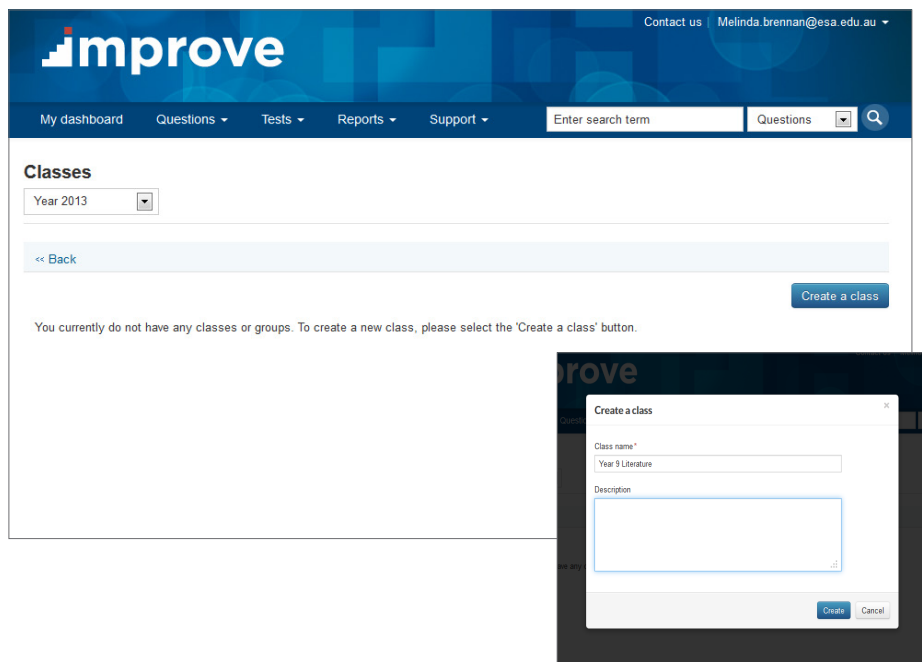

- Select **Test Summary Results** to generate a report for a specific test.
- Select **Class Test Results** to generate a report for a specific class.
- Select **Student Test Results** to generate a report for a specific student.
- Select **Registered Students** to generate a report listing student names and login details.

Support

Select the relevant **Support** link to access video guides, user guides, contact details for helpdesk and general assistance.

Create a class

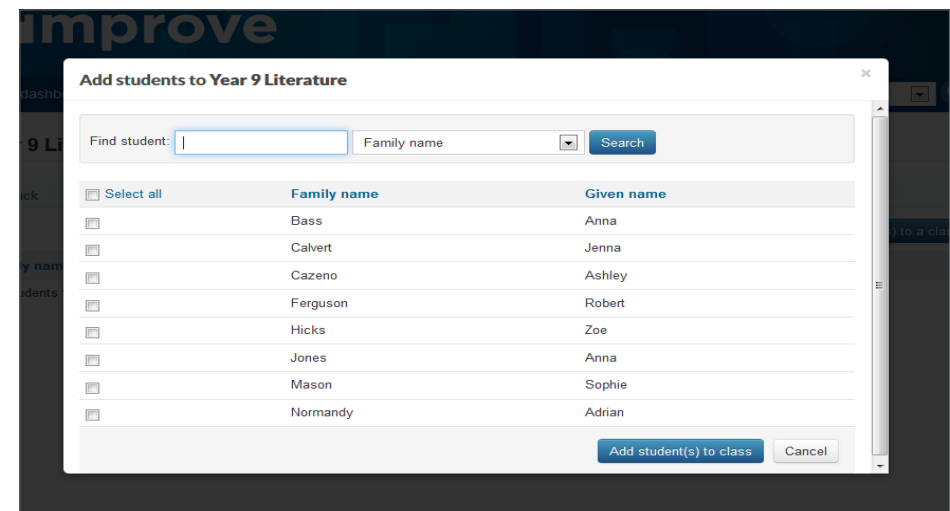

View and create a class

To display a list of classes for the current year, select **Manage my classes** from your dashboard.

To create a new class, select the **Create a class** button, and enter a name and description details for the new class.

Add students to a class

After a student joins your class, their name will appear in the **Registered Students** list that you can access from the **Manage my students** link on the dashboard.

To add a student to a class:

- Select **Manage my classes** from the dashboard.
- Select **Manage students** from the **Actions** drop-down menu of the relevant class.
- Select **Add student(s) to a class**.
- Either enter the student's name in the search field or select the checkbox next to student's name.
- Select the **Add student(s) to class** button to save.

Create a class

Edit a class

Classes

Year 2013

<< Back

Create a class

Name	No. of students	Status	Actions

- **Question type** – select one or more of the seven types
- **Question source** – public questions, my questions, shared questions
- **Subject area** – English, mathematics, science.

Select the **Apply filters** button to display the filtered results.

Create your own test

View a question

From this view, you can choose several options for the relevant question from the **Add to test** and **Actions** drop-down menus.

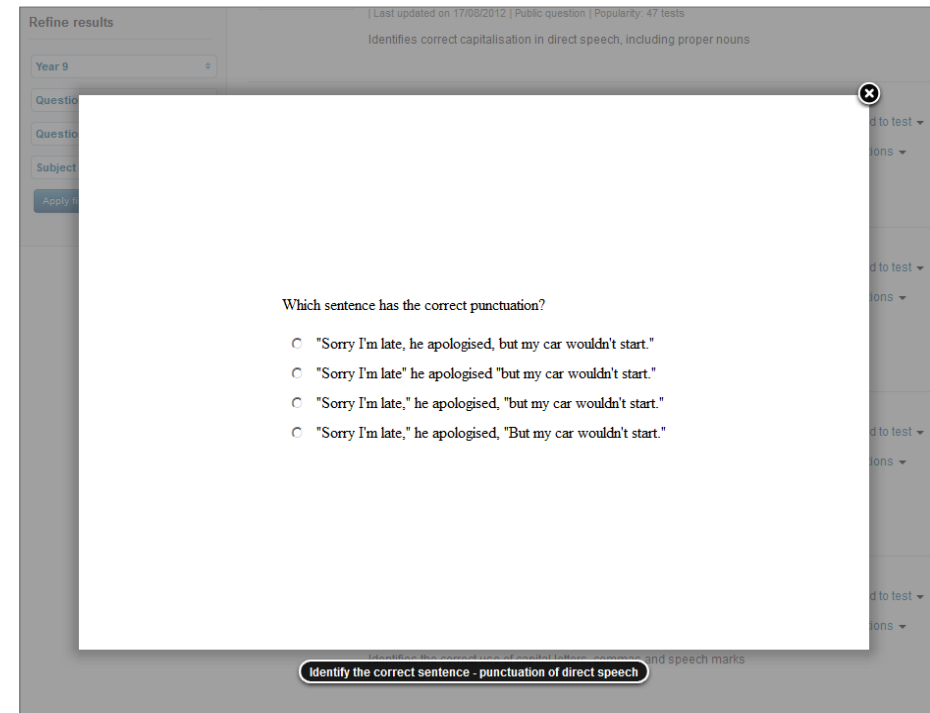

From the **Add to test** drop-down menu, you can add the question to:

- a recently used test
- an existing test
- a new test.

From the **Actions** drop-down menu, you can:

- preview the question
- view details for the question
- share the question
- copy the question
- delete the question.

Preview a question

Select **Preview** to display the question. To return to the search results select **(x)** from the top right of the preview screen.

Create your own test

View the details of a question

This page displays additional details related to the question. The level of detail displayed will depend on your access rights. Not all fields will be populated but there will be sufficient data to enable you to determine if the question is suitable for your requirements.

General data

General data provides basic information about the question such as ID, title, description and correct response (answer). For multiple choice type questions, the response feedback indicates the incorrect responses and for short response type questions, it lists alternatives.

Any supporting document or learning resource linked to the question will be listed here. You can select a resource to open and view it in a new window.

The subject, year level and any external tools that are allowed for the test are also listed.

You can also view **contributor data** and **copyright data** for the question.

Select **Back** to return to the search results.

You can only share a test with another Improve user.

Select **Share** from the **Actions** drop-down menu of the relevant test and enter the email address of the user.

Select the **Search** button. The recipient's name (or username) will display below the box. You can enter more than one email address by separating with a semicolon.

If an email address is not found, an error message will be displayed.

To complete the sharing process, check the box to agree to the terms and conditions and select the **Share** button.

Your shared test

Test shared

You have successfully shared the test with:

- Vlad Sirota (vlad.sirota@esa.edu.au)

Close

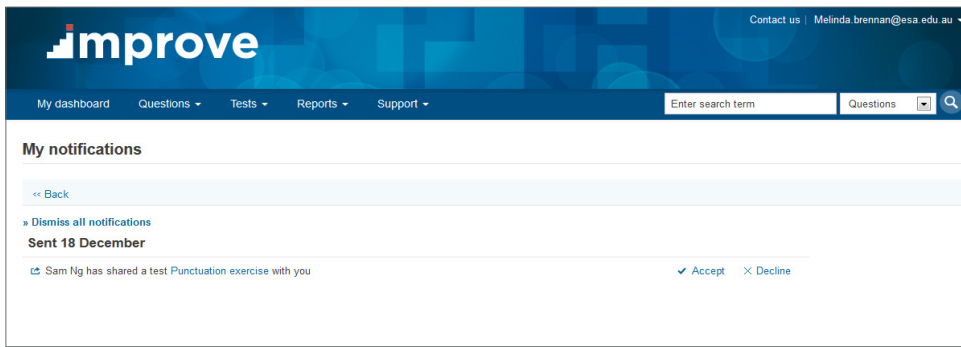

A pop-up message displays a list of the users you have shared the test with.

The **Test details** page will also display a message indicating that the test has been shared. To view details of the user, date and time shared, select the link in the message.

The status will be updated from **Pending** to **Accepted** when the test is accepted by the recipient.

Work with your test

Access shared tests

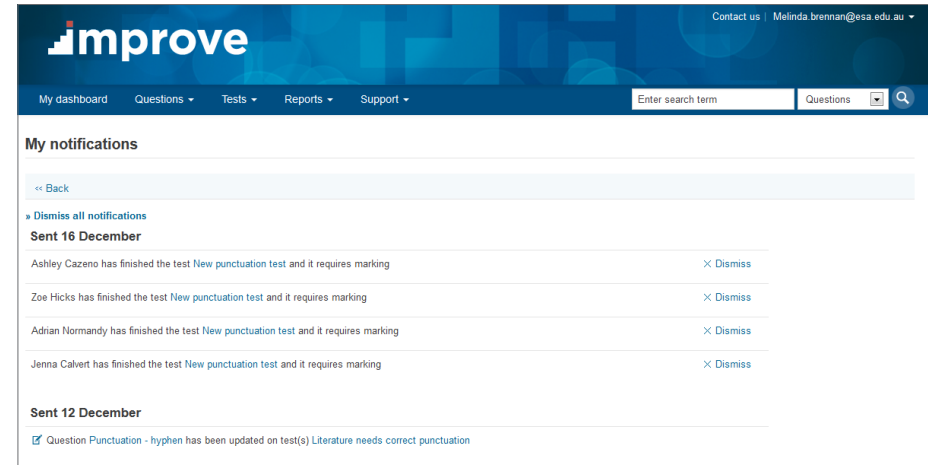

If another Improve user shares a test with you, a message will be sent to your email inbox with a link to the **Notifications** area of your dashboard.

All notifications are listed in date order with the most recent message at the top.

To accept a test that has been shared with you, select **Accept**. If you do not wish to copy the test to your dashboard, select **Decline**.

When you accept a shared test, it will move from **Notifications** to the **Tests** area of your dashboard.

View your notifications

Messages related to shared tests and alerts about completed tests awaiting marking will be displayed in the **Notifications** area of your dashboard. The red flag attached to the **Notifications** icon indicates the number of notifications awaiting your attention.

If you do not want to action any notifications, select the **Dismiss all notifications** link from the top of the page.

Title: Punctuation for year 9

Class: Year 9 Literature

Format: For help with formats, select the help link for each type.
☐ Skill assessment and learning
☒ 2 Test assessment and learning
☐ 3 Test assessment and learning

Confidence levels:
☒ On
☐ Off

I don't know I am guessing Somewhat sure Very sure!

Duration:
☒ Unlimited
☐ Time limit

hours minutes

Theme:
☒ Primary
☐ Secondary

The themes were designed with primary or secondary school students in mind.

Format
 Select the appropriate test format. For help with formats, select the **help** link for each type (see next page for explanations).

Confidence levels
 Select 'on' or 'off' for confidence level indicators. Students will be required to select their confidence level for each question before moving to the next question.

Duration
 Default is 'unlimited'. To add a time limit, select the hours and minutes from the drop-down lists.

Theme
 Select 'primary' or 'secondary'.

To assign a test to students, select **Assign test** from the **Actions** column of the **Unassigned tests** link on your dashboard.

You can also assign a test from the test details page. Select **Assign test** from the **Actions** drop-down menu.

Note: Test details can be modified until the test is accessed by students after which time it will be 'locked' for editing.

Work with your test

Test formats

In all tests, the order of responses for a multiple choice question will be randomised.

When assigning a test, you will need to choose from one of three available formats.

Skill assessment and learning

- Students complete one test only.
- Questions appear in the order they were created (or added).

2 Test assessment and learning (also called 'full test')

- Students have two opportunities to complete the test.
- Any student who does not achieve 100% in the first test can attempt the test a second time.
- A second test will include all questions but the order of the questions will be randomised.

3 Test assessment and learning (also called 'adaptive test')

- Students have three opportunities to complete the test.
- Any student not achieving 100% in the first test will be able to access a second test, and so on.
- Second and third tests will include only questions marked as incorrect in the preceding test.

Review student information

The screenshot shows the 'Student information' form and a 'View assigned test settings' dialog. The form has fields for 'Test title *', 'Teacher', 'Instructions', and 'Access information'. The 'View assigned test settings' dialog shows a confirmation message and a table of test settings.

Title	Punctuation for year 9
Class	Year 9 Literature
Format	2 Test assessment and learning
Confidence levels	Off
Duration	30 minutes
Theme	Secondary
Assigned date	11/12/2013

The 'Student information' form shows the following details:

- Test title *: Punctuation for year 9
- Teacher: Melinda Brennan
- Instructions: Please specify (500 chars max.)
- Access information: 1. Go to improve-uat.esa.edu.au. 2. Select the 'Student login' button on the right side of the screen. 3. Select the 'Take a test' button. 4. Enter the Test PIN and your password. (500 chars max.)

The 'View assigned test settings' dialog also shows the 'Test PIN' field with the value KN43R2 and a 'Print student handbook' button.

All fields are populated except the test instructions. Enter any specific instructions for your students into the **Instructions** field, up to a maximum of 500 characters, then select the **Assign test** button.

The **Test PIN** is now generated. This PIN will need to be provided to your students in order for them to take the test. The test PIN is also visible in the tests area of your dashboard.

From the **View assigned test settings** page, you have the option to **Print student handout** (bottom of page under the Test PIN).

Select the **Print** button from the top right of the page or **Close** the student handout to return to the **View assigned test settings** page.

To view a list of tests that you have assigned, select either **Tests not started** or **Tests in progress** from the **Assigned test** section on the left of the dashboard.

To edit a test, select **Edit assigned test settings** from the **Actions** drop-down menu of the appropriate test.

Create your own question

Create a question

The screenshot shows the Improve dashboard. At the top, there's a navigation bar with 'My dashboard', 'Questions', 'Tests', 'Reports', and 'Support'. A search bar is also present. Below the navigation bar, the 'Create a question' link is highlighted in the 'Questions' dropdown menu. The dashboard also displays 'My teacher ID is CWWGQM' and a grid of icons for various functions like 'Browse all tests', 'Create a question', 'Manage my students', etc. Below this, there are sections for 'Assigned tests' and 'Unassigned tests' with a table of test details.

Title	Updated	No. of Questions	Shared by	Actions
Refresher punctuation for year 9 - T11201	10/12/2013	6		Assign test
Punctuation for year 9 - T11200	10/12/2013	6		Assign test

To create your own question, select **Create a question** from the **Questions** drop-down menu or select the **Create a question** link on your dashboard.

Creating a new question involves six steps. The amount of detail required for each step will depend on the interaction/response type that you choose for your question.

Note: The question types that can be created differ slightly from question types that already exist in Improve.

Enter a title and description

The screenshot shows the 'Create new question' form. It has a progress bar at the top indicating six steps: 1. Title, 2. Question, 3. Interaction, 4. Response, 5. Resources, and 6. Finish. The first step, 'Enter title and description', is active. It contains four mandatory fields: 'Title', 'Description', 'Subject', and 'Year level'. Each field has a dropdown menu for selection. At the bottom right, there are 'Cancel' and 'Next step' buttons. The footer includes the Education Services Australia logo and a note that Improve is supported by the Australian Government Department of Education.

Enter a title and a description for your new question, then select the subject and the year level from the drop-down menus.

All four fields are mandatory.

Select the **Next step** button to continue.

Create your own question

Enter question text and/or images

Create new question
Complete each step to create a question.

2 Enter question text and/or image(s)

When you see parentheses in a sentence, you know they are being used to enclose extra information that is not essential to the meaning of the sentence.

Which image shows the correct shape of parentheses?

Path: p

Insert image dialog:

Upload New Image
Browse: No file selected.
Upload

Available Images

2/7 7/2 7 1/2

Insert Cancel

Enter the question or statement text to which the student will respond into the free-text box. You can change the formatting of the text by highlighting it and selecting the relevant icon located in the toolbar.

You can also upload an image by selecting the far right toolbar icon – .

Please note: A number of restrictions apply to the image upload feature.

- Width: 785 px maximum
- Height: 500 px maximum
- Internet images must be royalty-free and of good quality.

Select the interaction type

3 Specify interaction type

☒ Multiple choice with images (e.g.)    
Students select from multiple-choice image options.

☐ Multiple choice with text (e.g.) 5.00pm 5.15pm 4.45pm 3.20pm
Students select from multiple-choice text options.

☐ Multiple response (e.g.) A B C D
Students select two or more correct answers.

☐ Short free-text response (e.g.) 1, 3, 5, 7, 9
Students enter a short free-text response.

☐ Long free-text response (e.g.) How do these 2 objects differ in appearance?
Students enter a long free-text response.

« Previous step Cancel Next step »

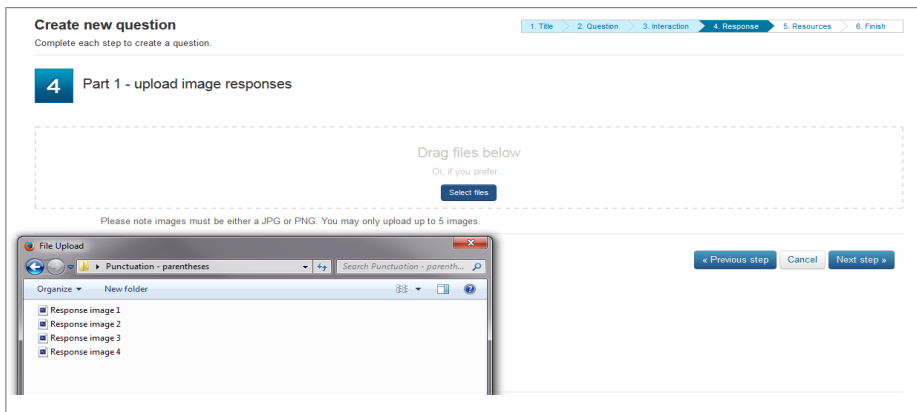

Select an interaction (response) type from these five options then select the **Next step** button:

- multiple choice with images – student selects one image response as correct
- multiple choice with text – student selects one text response as correct
- multiple response – student selects at least two responses as correct
- short free-text response – student enters a short response into a field
- long free-text response – student enters a long response into a field.

Create your own question

The next step requires you to enter the details for the correct response. Depending on the interaction type, you will be required to upload a file, enter text or select the correct option(s).

Upload image responses

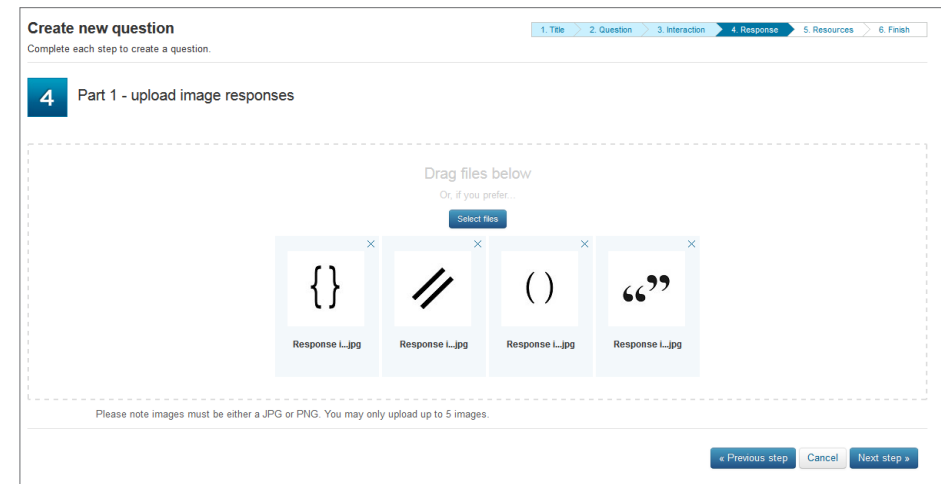

If you select the multiple choice with images response type, you will be prompted to upload the images in either JPG or PNG format.

A maximum of five images can be uploaded.

You can drag and drop your images into the space provided or upload using **Select files**.

View uploaded images

When you have uploaded your images you will see a preview of the order in which they will appear. The default view is horizontal; however, you will have an opportunity to change this to vertical.

Select the **Next step** button to continue.

Create your own question

Indicate correct response image

Create new question

Complete each step to create a question.

1. Title 2. Question 3. Interaction 4. Response 5. Resources 6. Finish

4 Part 2 - indicate correct response

Four symbols are displayed horizontally: a closing curly brace $\}$, two parallel diagonal lines $//$, an opening parenthesis $($, and a closing quotation mark $”$. Below each symbol is a radio button. The radio button under the opening parenthesis $($ is selected.

« Previous step Cancel Next step »

Select the correct option and then select the **Next step** button to continue.

Select orientation for responses

Create new question

Complete each step to create a question.

1. Title 2. Question 3. Interaction 4. Response 5. Resources 6. Finish

4 Part 3 - select orientation

Horizontal

Four radio buttons are displayed horizontally. The first radio button is selected.

Vertical

Four radio buttons are displayed vertically. The first radio button is selected.

« Previous step Cancel Next step »

Response options display horizontally by default.

If you would like to change the orientation to vertical, select this option and then select the **Next step** button to continue.

Create your own question

Phrase 7

« Previous step Cancel Next step »

In order for the automarking feature to be effective for short free-text response questions, all variations of the correct answer will need to be entered into the fields. Only exact matches and correct capital or lower case letters will be recognised.

Up to a maximum of seven, enter all possible options that a student may provide. For example, the student may be asked to correctly spell a word that appears at the end of a sentence. If you have only entered the word with a full stop and the student does not add the full stop, the question will be marked as incorrect.

Enter prompt text for long free-text response type

Create new question

Complete each step to create a question. 1. Title 2. Question 3. Interaction 4. Response 5. Resources 6. Finish

4 Enter phrase responses

Correct phrases

1.

2.

3.

4.

5.

6.

7.

« Previous step Cancel Next step »

For a long free-text response type, you will be required to enter text in at least one field. These questions cannot be automarked by the system, therefore text in these fields represents prompts to the teacher for marking purposes only.

Select the **Next step** button to continue.

Create your own question

Upload learning resource and support documentation

The screenshot shows the 'Edit Resources' step of a question creation process. At the top, a progress bar indicates steps: 1. Title, 2. Question, 3. Interaction, 4. Response, 5. Resources (current step), and 6. Finish. Below the progress bar, the title '5 Specify Resources' is displayed. The main section is titled 'Learning resources' and contains a 'Use my learning resources' area with a 'Drag files below' instruction and a 'Select files' button. A dashed box indicates the upload area. Below this, a note states: 'Please note learning resources must be either a PDF, Powerpoint or Word document. You may only upload up to 3 learning resources'. There is also a section for 'Learning resources from Scootle' with an 'Edit' link. Below that is a text area for 'Additional resource URLs' with a note '(One URL per line)'. The bottom section is titled 'Support documentation' and contains a 'Supporting document' area with a 'Drag file below' instruction and a 'Select file' button. A dashed box indicates the upload area. Below this, a note states: 'Please note supporting document must be a PDF file. You may only upload 1 supporting document'.

Learning resource

A learning resource is mandatory when creating your own question. Learning resources are designed to fill gaps in learning that were identified through the formative assessment. They can also be used to expand a student's knowledge.

Students are referred to the learning resource(s) at the end of a test.

You can upload your own learning resource in PDF or Word format or you can refer students to Scootle resources or internet resources.

Support documentation

For a question that requires the student to read a supporting document in order to answer the question, you can upload the document in PDF format.

Support documentation is optional.

Create your own question

The final step is to view your question as it will display in a test. To make changes, select the **Previous step** button. To save the question, select the **Create question** button.

View completed question – multiple choice image, multiple choice text and multiple response

1. Title 2. Question 3. Interaction 4. Response 5. Resources 6. Finish

6 Finish

Rewrite this paragraph using as many semicolons as you think are necessary.

Adding a villain to your story will provide motivation for your hero to act, create tension and pace, and engage your readers. If your villain is memorable enough they may even be compared to great literary villains such as Police Inspector Javert from Hugo's *Les Misérables*, Iago from Shakespeare's *Othello* and Raskolnikov from Dostoyevsky's *Crime and Punishment*.

Title: Punctuation - hyphen

Question description

Correct response: ear-shattering

middle-aged

Supporting Document

Learning resources

Subject

Year level and difficulty

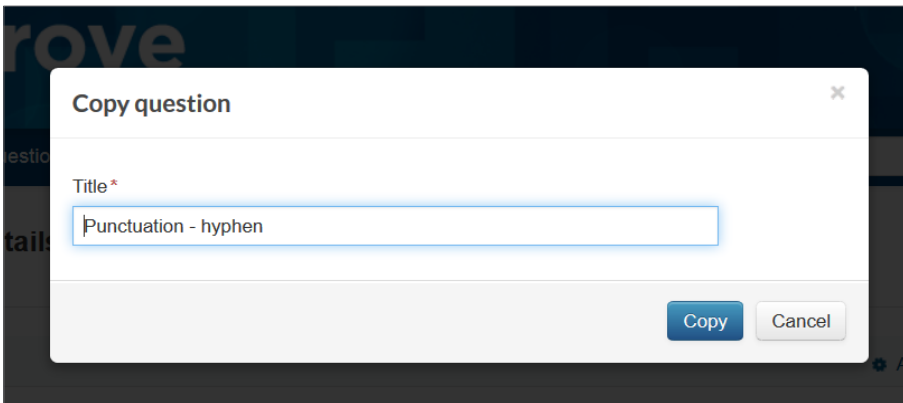

External tools

From the question details page, you can perform a number of actions:

- preview the question
- edit the question text
- edit the answer
- share the question
- copy the question
- delete the question.

Work with your question

Copy a question

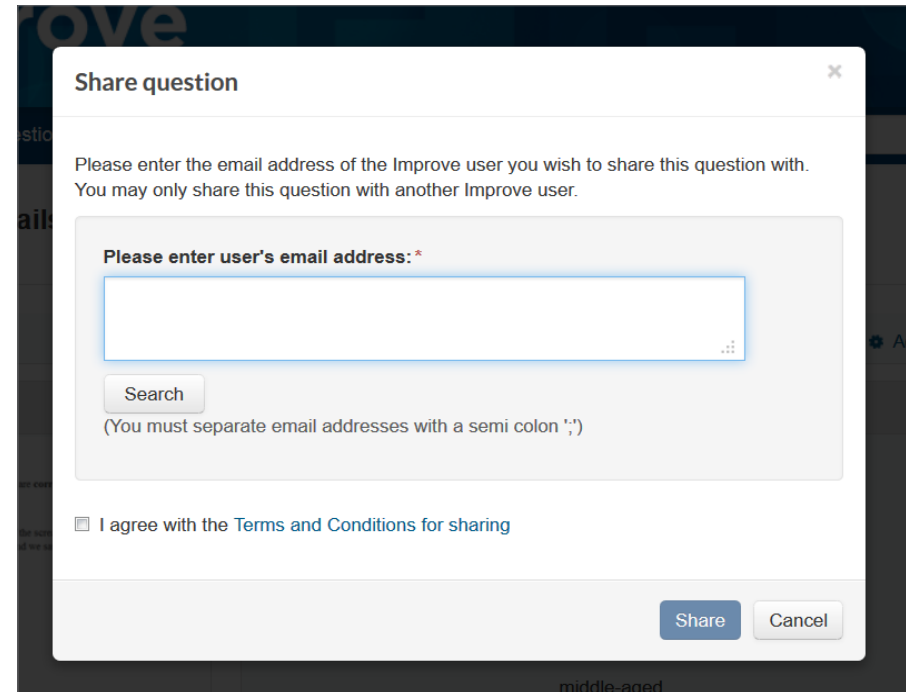

A screenshot of a 'Copy question' dialog box. The dialog has a title bar with 'Copy question' and a close button. Inside, there is a label 'Title *' followed by a text input field containing the text 'Punctuation - hyphen'. At the bottom right, there are two buttons: 'Copy' and 'Cancel'.

To copy a question, select **Copy** from its **Actions** drop-down menu.

Enter a new title and select the **Copy** button to save the changes.

The new question will be added to the **Questions** list on the left of your dashboard, where you can access it to make any changes.

Share a question

A screenshot of a 'Share question' dialog box. The dialog has a title bar with 'Share question' and a close button. Inside, there is a message: 'Please enter the email address of the Improve user you wish to share this question with. You may only share this question with another Improve user.' Below this is a text input field with the label 'Please enter user's email address: *'. Under the input field is a 'Search' button and a note: '(You must separate email addresses with a semi colon ";")'. At the bottom, there is a checkbox labeled 'I agree with the Terms and Conditions for sharing'. At the bottom right, there are two buttons: 'Share' and 'Cancel'.

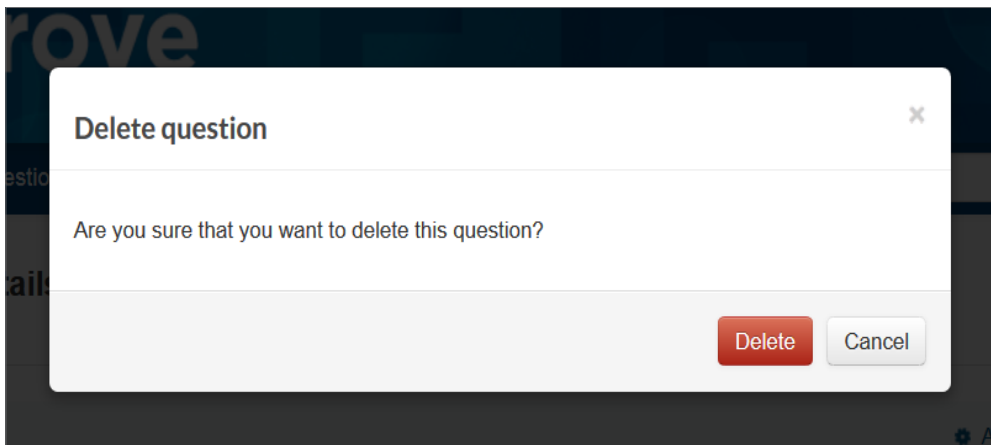

To share with another Improve user a question that you have created, select **Share** from the question's **Actions** drop-down menu.

Enter the email address of the user and select the **Search** button to find them in the system. When the user's name appears underneath the email field, select the checkbox to agree to the terms and conditions for sharing and then select the **Share** button to action your request.

You will receive a pop-up message to confirm that the question was sent successfully.

Work with your question

Delete a question

To delete a question, select **Delete** from its **Actions** drop-down menu.

You will be prompted to confirm the deletion. Select the **Delete** button to continue.

A question can be deleted even if it has been added to a test as questions cannot be deleted from assigned tests.

If you need to delete a question (or change a question) from a test that you have assigned, you will need to create a new test after your changes in order to generate a new test PIN to provide to your students.

A question can also be deleted after it has been shared with another user.

When conducting a search, a deleted question will no longer display in the search results.

Reports

Report types

Improve is designed to gather data and present it in a number of easy to interpret reports.

There are four report types – three containing test result data and one listing the names and login details for your students.

The table below outlines each report type, and detailed instructions for generating the reports are provided on the following pages.

Name of report	Type	Description
Test Summary Results	Detailed	A detailed list of test responses and results for all students
Test Summary Results	Summary	A summary of test results for a class
Class Test Results	Detailed	A detailed list of test results for a class
Class Test Results	Graphical	A bar graph displaying the class test results
Student Test Results	Detailed	A detailed list of test responses and results for a student
Student Test Results	Summary	A summary of an individual student's test results
Registered Students	Student list	A list of number of tests undertaken and last login date for all students
Registered Students	Login details	A list of passwords allocated to students

Generate and print your report

Select the report type from the **Reports** drop-down in the main menu.

The screenshot shows the Improve teacher dashboard. At the top, there's a navigation bar with 'My dashboard', 'Questions', 'Tests', 'Reports', and 'Support'. The 'Reports' menu is open, showing options: 'Test Summary Results', 'Class Test Results', 'Student Test Results', and 'Registered Students'. Below the navigation bar, the dashboard is divided into sections. On the left, 'My dashboard' shows icons for 'Browse all tests', 'Browse all questions', 'Create a question', 'Create a test', 'Manage my students', 'Manage my classes', and 'Notifications'. On the right, 'All my questions' is displayed as a table.

Title	Updated	No. of times used	Subject	Year
Use semicolons	16/12/2013	1	English	9
Punctuation - parentheses	16/12/2013	1	English	9
Spelling error - short response	16/12/2013	1	English	9
Name the fraction type	16/12/2013	0	Mathematics	9
Punctuation - parentheses 2	13/12/2013	1	English	9
Punctuation error - apostrophe	12/12/2013	2	English	9
Punctuation - hyphen	12/12/2013	4	English	9

Every generated report will open in a new window as either a PDF file or an Excel spreadsheet, depending on your selection.

You can print or save your report as required.

Reports

For each of the four report types, you will be required to select some or all of the following options:

- date range or year
- class name and/or student name
- test title
- type – detailed, summary, graphical or list
- format – PDF or Excel.

Note on date range

Click in the fields to display the calendar and select your date range. If no date is selected for the 'to' field, the system defaults to today's date. You cannot enter a future date.

Note on selecting class or registered students

The **Select** button must be chosen after your selection of class name or registered student name from the drop-down list.

If you change your selection prior to generating the report, you must choose the **Select** button again.

Test Summary Results

This report provides a detailed list of test responses and results for all students.

Student Test Results report – summary or detailed

To generate a detailed report of test results for an individual student, select the **Student Test Results** option from the **Reports** drop-down in the main menu and complete the details for date range, student name and test title.

Select either a **Detailed** report or a **Summary** report and the format (PDF or Excel), then select the **View report** button.

Student Test Results - Summary 		
Title:	Punctuation for year 9 (KN43R2)	
Teacher:	Ms Brennan (CWWGQM)	
Date:	2 December 2013 - 18 December 2013	
Description:	Punctuation refresher test for year 9	
Student:	Bass, Anna	
Cycle	Pre-test	Post-test
Test result	33%	-
Questions answered correctly	2 out of 6	-
Time taken	55 seconds	-
Recommended learning resources	M010762 Speech marks (Pre-test) Not completed S5910 Understanding language features and text structures: Blue whales (Pre-test) Not completed M010609 BBC Skillswise: beat the clock apostrophes - activity (Pre-test) Not completed S4301 Punctuation (Pre-test) Not completed	

Student Test Results - Detailed 			
2) Agatha Christie - biographical text: identify of purpose of inverted commas <small>The words 'beat the clock' are written in inverted commas for two reasons.</small> <input type="radio"/> They are a metaphor. <input type="radio"/> They are a time setting. <input type="radio"/> They are a quote from Prince. <input type="radio"/> They convey a subtle meaning.	they are a metaphor.	✕	S5910 Understanding language features... Not completed
Public question			
3) Complete a sentence correctly - contractions <small>Which of the following correctly completes the sentence?</small> <small>The girl _____ likely to visit in a jiffy.</small> <div> whos whos' whose whose' </div> <div> <input type="radio"/> <input type="radio"/> <input type="radio"/> <input type="radio"/> </div>	whos	✕	M010609 BBC Skillswise: beat the clock... Not completed
Public question			

Along with the overall test results, this report lists the associated recommended learning resources and which of these have been completed or not completed.

The total number of pages will depend on the number of questions in the test. This report lists the student's response and the confidence level they chose for every question (if applicable).

Reports

To generate a report that lists tests undertaken by all students, select the **Registered Students** option from the **Reports** drop-down in the main menu.

Select the year and the class. After you select the class, all students in that class will be listed alphabetically by family name in the **Students** drop-down menu. You can select students individually or choose the **Check all** option.

Select either **Student list** or **Login details** and the format (PDF or Excel), then select the **View report** button.

Registered Students report – student list

Summary results

- **Test Summary Results:** [PDF](#) | [Excel](#)
This report provides a detailed list of test responses and results for all students.
- **Class Test Results:** [PDF](#) | [Excel](#)
This report provides a detailed list of tests undertaken and test results for a class.

Please note:
Some students have not finished all tests. You can use the button below to finish the test cycle. If you do this, these students will not be able to complete any further tests in this test cycle.

Individual student results [End test cycle](#)

The following reports provide test result details and recommended learning resources for an individual student.

	End Pre-test			
Student	Pre-test	Post-test 1	Post-test 2	Reports
Calvert, Jenna	Pending marking	Not started	Not started	PDF Excel
Cazeno, Ashley	Pending marking	Not started	Not started	PDF Excel
Hicks, Zoe	Pending marking	Not started	Not started	PDF Excel
Normandy, Adrian	Pending marking	Not started	Not started	PDF Excel

[End Pre-test](#)

You can manually end a test at any time.

Select the **Tests in progress** link from the **Assigned tests** menu on the left of your dashboard. Locate the relevant test and select the **View reports** option from the **Actions** drop-down menu.

For tests that are formatted with two or three attempts, you can end one part by selecting **End Pre-test**, **End Post-test 1** or **End Post-test 2**. To end the test completely, select the **End test cycle** button.

When a test cycle is ended it cannot be reopened. Any unanswered questions will be automatically marked as incorrect.

Needs marking

Title	Student name	Test type	Finish date	Actions
New punctuation test	Adrian Normandy	Test 1	16/12/2013	Mark this test
New punctuation test	Ashley Cazeno	Test 1	16/12/2013	Mark this test
New punctuation test	Jenna Calvert	Test 1	16/12/2013	Mark this test
New punctuation test	Zoe Hicks	Test 1	16/12/2013	Mark this test

You will need to manually mark any free-text response questions.

The **Needs marking** link on the left of the dashboard displays in brackets the number of tests that require marking. When a student completes a test that contains a free-text response question, this number will increase.

Select the link to go to the **Needs marking** page and choose **Mark this test** from the Actions column.

- ☒ Question [Punctuation - hyphen](#) has been updated on test(s) [Literature needs correct punctuation](#)

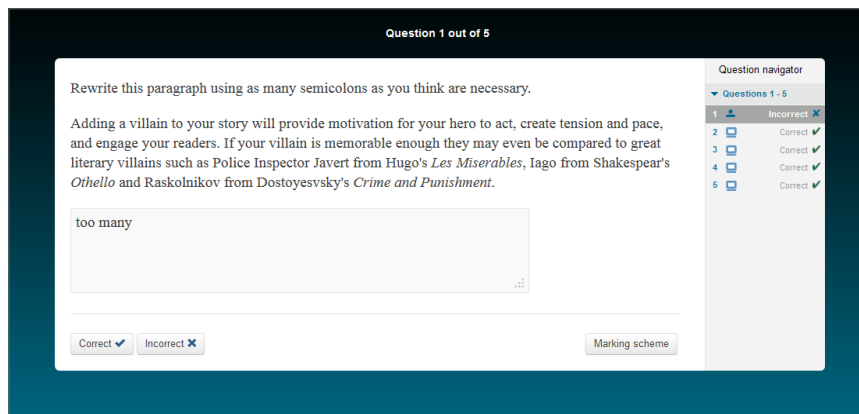

A new message that a test requires marking will also appear in **Notifications**.

To mark the test from the **My notifications** page, select the title of the test.

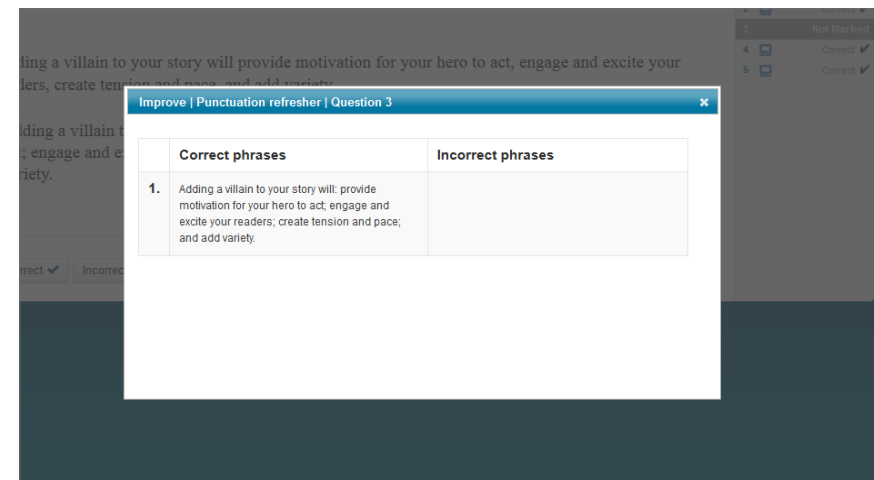

Marking the test will not automatically remove the notification. It will remain in **My notifications** until you select to **Dismiss** it.

Mark free-text response questions

Mark a question

View the marking scheme

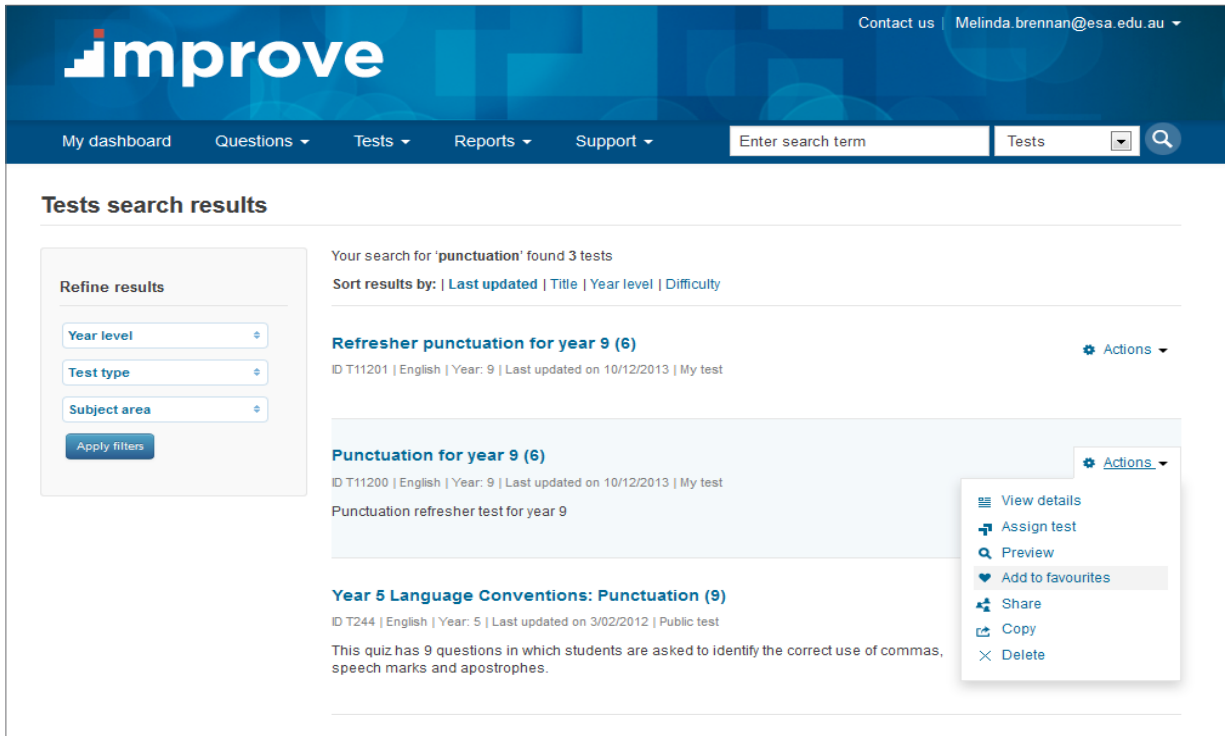

In the question navigator, free-text response questions that require your attention will be labelled **Not marked**.

To mark the student's answer, select **Correct** or **Incorrect**. The status of the question will change accordingly in the question navigator.

If you need assistance evaluating the student's answer, select **Marking scheme** to view a guide containing sample answers.

When you have marked the question(s), select the **Complete marking** button at the top right of the page to return to the dashboard.

Add a test to your favourites

The screenshot shows the 'improve' website interface. At the top, there's a navigation bar with links: 'My dashboard', 'Questions', 'Tests', 'Reports', and 'Support'. A search bar is also present. Below the navigation bar, the 'Tests search results' section is displayed. On the left, there's a 'Refine results' sidebar with filters for 'Year level', 'Test type', and 'Subject area'. The main content area shows search results for 'punctuation'. The first result is 'Refresher punctuation for year 9 (6)' with ID T11201. The second result is 'Punctuation for year 9 (6)' with ID T11200. The third result is 'Year 5 Language Conventions: Punctuation (9)' with ID T244. An 'Actions' dropdown menu is open for the 'Punctuation for year 9 (6)' test, showing options: 'View details', 'Assign test', 'Preview', 'Add to favourites' (highlighted), 'Share', 'Copy', and 'Delete'.

Bookmarked tests can be accessed from the **Favourite tests** link on the left of your dashboard.

A test can only be added to your favourites list from the search results page.

To add a test to your list of favourites, conduct a search and when the relevant test is displayed in the search results, select **Add to favourites** from the **Actions** drop-down menu.

A message box will appear at the top right of the search page indicating that the test has been added to favourites.

[Terms of Use](#)

A number of actions can be performed from the **Registered students** page:

- select student's family name or given name to view their test information
- view the class(es) to which the student belongs
- assign or update parent – add or update name of parent
- email parent PIN – email details of PIN to parent
- edit student – update name of student
- delete student – remove a student from your class.

View and edit student details

Remove a student from your class

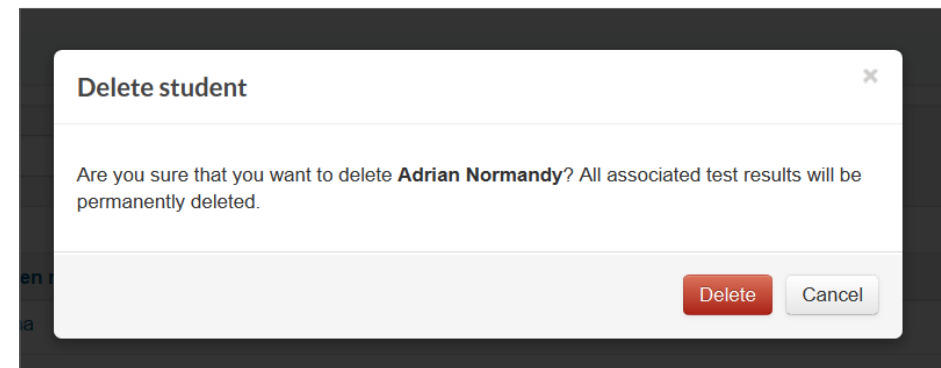

Occasionally, you may need to remove a student from your class if, for example, they have joined twice or moved classes or schools.

Select **Manage my classes** from the dashboard and select the link for the class to which the student belongs.

Select **Remove from class**. The student's name will no longer display in the class list; however, will still be visible in the registered students list.

Delete a student from Improve

To delete a student from Improve, you first need to delete them from any classes to which they belong.

Then, select **Manage my students** to go to the registered students page and check that the student is listed as belonging to 'No class'.

Select **Delete** from the **Actions** drop-down menu to completely remove the student and all associated test results.

This action permanently deletes any system data related to the student.

Overview: Student test information

Pre-test, Post-test 1, Post-test 2

The test format determines how many times a student can take the test. Currently three test formats are available. This view indicates the number of times the test may be taken as well as each student's result in each cycle.

Title	Date taken	Pre-test	Post-test 1	Post-test 2	Reports
Remembering punctuation	16/12/2013	1/3	Not started	Not started	View report (PDF)
New punctuation test	16/12/2013	3/5	Not started	Not started	View report (PDF)

Title

A list of all tests the student has partially or fully completed will appear here. By giving each test a unique name you will ensure that there is no confusion about exactly which test the student has taken.

Date taken

This is the date the student last attempted the test. If the student has not completed the test or taken additional cycles within a certain time frame, you may wish to check if the student has any concerns about the test or is experiencing difficulties.

Reports

Select **View report** to view details on each of the cycles and recommended learning resources.

Key

##/## – number of questions completed out of number of questions in the test

Not started – subsequent cycles of the test have not been taken

Not finished – test has been commenced but not completed

N/A – no further cycles of the test are available

Student dashboard

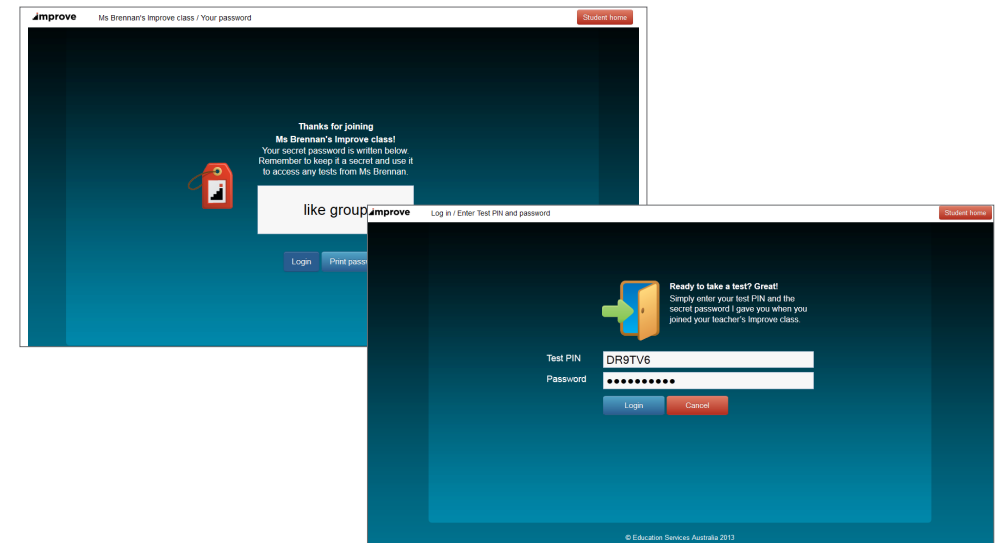

Access the student dashboard

The student dashboard is accessed via the **Login** drop-down menu on the far right of the top menu bar.

Student access to Improve is detailed in the 'Improve user guide for students'.

Students join your class and take a test

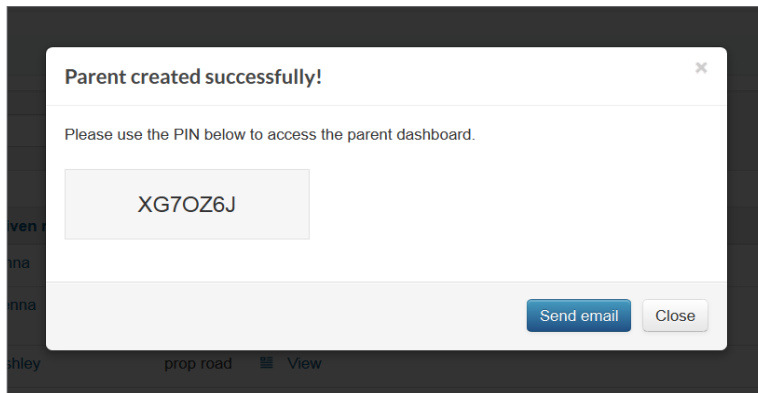

In order to join a class, a student will need your **Teacher ID**. When they join a class, they will be asked to provide their given name, family name and teacher's ID code. They are then provided with a unique password which identifies the student as belonging to your class and enables them to access your assigned tests.

When a student enters the **Test PIN** you have provided, they have the option to complete practice questions before attempting the test.

Refer to page 9 for more details about teacher ID, test PIN and student password.

Parent dashboard

Assign a parent

Parents can view tests and learning resources that you have allocated to their child via the parent dashboard.

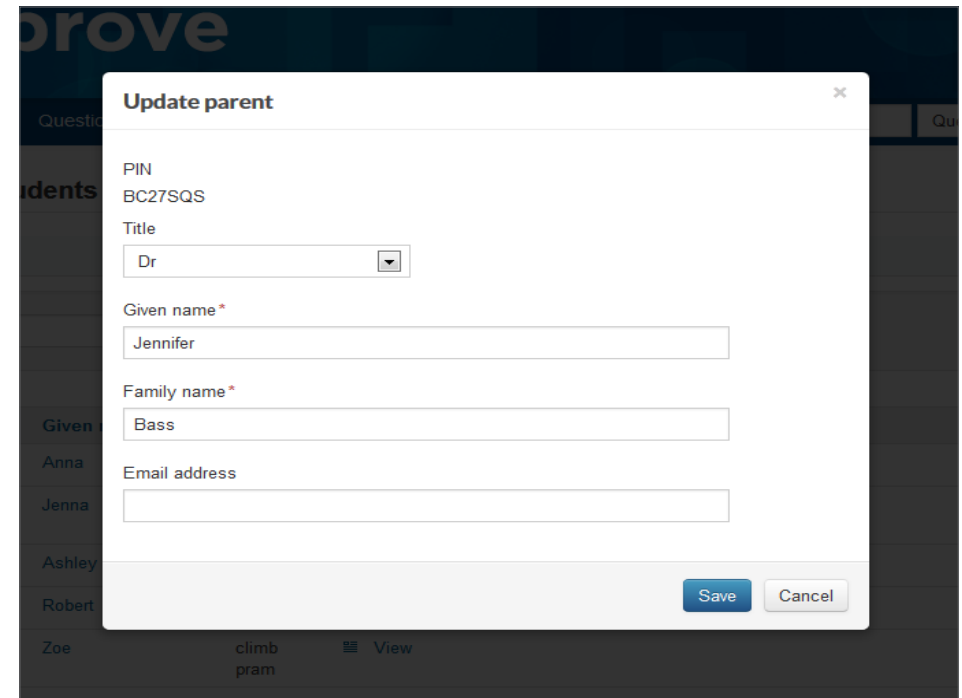

You will need to assign a parent to a registered student in order to generate an access PIN for the parent's use. Only one parent name and one PIN can be attached to each student.

To create the PIN, select **Manage my students** from your dashboard and select the **Actions** drop-down menu for the relevant student.

Enter the given name and family name of the parent and select the **Assign** button. The system-generated PIN will now appear in the **Parent PIN** column of the **Registered students** menu.

You will need to provide this PIN to the parent. One option is to select **Email parent PIN** from the **Actions** drop-down menu.

Update a parent

You can change the name of a parent by selecting **Update parent** from the **Actions** drop-down menu.

The PIN will remain the same.
