# **AirNet Broadcaster User Guide**

## **1. Log In To Your Airnet Page**

You do not need to login to your station's existing website to edit AirNet. Instead:

Go to your program page on your station's website: (1) Click the 'L' on the top right of the AirNet Page.

**If you have forgotten your password or you're a new user**: (4) click the 'forgot password' link to receive an email to reset your password. The Admin Page will open.

	1		2	3	Playlists	s powere	ed by Amrap's <u>AirNet</u>
Email:		Password:		Login	Forgot pass	sword 4	

**Once Logged in any section that has a pencil icon Click the pencil icon to edit/add** information to that field. Click the 'tick' icon to save your changes or the 'cancel' icon to close the edit box without saving changes. *These icons work on all editable sections of your program page*.

## 2. Edit General Program Info & Photo

Your (1) Program Name and (2) Broadcaster Name should appear at the top of your AirNet page. If not click the pencil icons to edit those fields and click the tick icon to save.

Preview Publicly viewable	Options	<u>Export</u>	<u>Account</u>	<u>Help</u>	<u>Loqout</u>		\$
<sup>1</sup> Your Program Name	🗸 Ø with	Broadca	ister Name	e(s)	🗸 Ø 2	Photo 4	<b>*</b>
Program description 🥓							

**Click the pencil icon next to the Program Description field to add general information about your program**: Eg include a basic overview of what you do on your program and any contact details you want the public to view. Click the tick icon next to program description to save your changes.

AirNet © Amrap 2001 www.amrap.org/airnet

Add a photo to your program page: Copy the web address of any image from the internet and then (1) Click the pencil next to 'Photo' field on the top right of your AirNet page, (2) Paste in the website address of an image and (3) click the tick icon to load the photo.

The image should load into the photo box next to your program description. *If image doesn't appear refer to the Tips section at end of this guide.*

### 3. Create a New Episode & Playlist

An Episode is a new edition of your radio program. You can create a new episode before, during or after you present your radio program.

(1) Click <u>Create new episode</u> link under your program description. A calendar will pop up.

- (2) Select the episode date on the calendar.
- (3) Enter the Start time and program Duration.
- (4) Click the Create button.

Create a new episode       X         July 2011       July 2011         Su       Mo       Tu       We       Th       Fr       Sa         1       2       3       4       5       6       7       8       9         1       11       12       13       14       15       16         17       18       19       20       21       22       23         24       25       26       27       28       29       30         3       Start time:       06       :       00       mins	1 <u>Cr</u>	<u>eate n</u>	iew ep	oisode	2

### 4. Add Tracks To Your Playlist

AirNet will load a an Episode page for that date containing a blank music Playlist next to the calendar.

#### Add tracks to your playlist using the fields underneath the calendar:

(1) Tick the 'A' box if the track is Australian, or 'L' if it's Local music from your state or region. 'Local' is defined differently by each station so check yours. Other fields like 'l' for Indigenous, and 'N' for new may also be displayed here if the station wants you to indicate those types of tracks.

(2) Fill in the Airtime field (this is optional) then add...

(3) Artist Name, and (4) Track Name (click TAB on keyboard to quickly jump between these fields)

(5) Press the + icon (or click ENTER on keyboard) to add the track to your Playlist

4	i Se	elec	t ep	iso	de	Þ
0	De	ecen	nber	20	10	D
Su	Мо	Tu	We	Th	Fr	Sa
			1	-2	3	4
5	6	-7	8	9	10	11
12	13	14	-15	16	17	18
9	20	21	-22	23	24	25
26	27	28	-29		31	
1		2				
١	L	:-	/	\rtis	st N	ame

**Your Track will appear in the Playlist and Image, Wikipedia and Video results will appear** in the 'Content Pane' below the Playlist! If content did not appear click the <u>display</u> links on Content Pane.

## 5. Select Image To Display

Underneath the image is a box displaying image details and the location of the image on the web. This box won't appear in Public view but you can use it to help check the image is suitable.

### If the image that appears doesn't suit:

(1)Click the arrow icon 🕨 to scroll to the next image result

(2) If you have a weblink to your own preferred image click the script icon and paste in the web address

(3) If you don't like image results click the 'hide' link

If the words 'No images available' appear in the image box: Check that you have correctly entered the artist and track details. If the 'No Images' message appears There is no need to click 'hide'. AirNet does not display this message in your Public view.

### 6. Select Artist Video

### AirNet will display results from YouTube for the Artist & Track. Underneath the video is a box displaying

Video(hide) 3 >

Dan Sultan - Old Fitzroy

1 0 2 2

video details and the location of the video on the web. This won't appear in Public view but it's useful for you to check that the video suits the Artist.

**Click the Play Icon on the Video to play it:** If the Video doesn't match the Track:

(1) Click the arrow icon  $\bullet$  to scroll to the next result.

(2) If you have a weblink to your own preferred video click the script icon and paste in the web address. Videos from YouTube, Vimeo and DailyMotion will work.

(3) If you don't like video results click 'hide'.

**Be Very Careful with videos!** YouTube and the other sites have all sorts of fan made videos and videos that may not represent the Artist in the best light. Preview the video

first to ensure it has appropriate content because you are responsible for your own AirNet page. If the video host decides to take the video down it will no longer display on your page.

## 7. Select Artist & Track Info

### AirNet can display results from Wikipedia that it thinks match the Artist.

(1) Click the arrow icon to scroll to the next Wikipedia result. If AirNet doesn't retrieve a result it's possible that the Artist isn't listed on Wikipedia so (2) click hide.

If the statement 'No Wikipedia entries are available' appears AirNet will automatically hide this statement.

from Wikipedia...Dan Sultan is an Australian singer and songwriter. Sultan plays what he calls country soul rock 'n' roll. BiographyDaniel Leo Sultan was born in 1983 and grew up in Williamstown, Melbourne. His father was Irish and his mother, Roslyn Sultan, was Aboriginal from the Arrente and Gurindji people.Sultan's father, a lawyer, worked for the Aboriginal Le... <u>More</u>

**To add your own track or artist info:** (1) **click the pencil** rext to the 'Add track notes' link and (2) Click the tick reaction icon next to 'Add track notes' link to save your text.

# Once you've selected content to match the track repeat step 4 to add more tracks to your Playlist

.

## 9. Edit your playlist

1 -

You can add/edit or remove the track and airtime from your playlist at any time. Simply double click your mouse on any field you wish to edit. Press enter to save your changes.

Su	Мо	Tu	We	Th	Fr	Sa		
			1	2	3	4	Wednesday 1/12/10 5am-8am 🖍

**Rearrange the order of Tracks on your Playlist** by holding your mouse button on the move icon and dragging track up and down the Playlist

### **10. Add Episode Description**

You have the option of adding details about the specific radio episode (eg what you discussed on your program that day). This will appear underneath the Episodes playlist.

(1) Click the Episode Date to return to the opening page for the Episode.

(2) Click the Episode Description pencil. A text box will open. You can add text, and embed images and links using the icons that appear. Click the tick icon to save your Episode description.

### **11. Preview and Public Settings**

(1) Click the Preview link at anytime to view your AirNet page as the public would see it: Note that all Admin buttons and 'No Content Found' notes disappear because the public won't see those.

When the public goes to your latest Epiosode playlist and Episode Description will be displayed by default. When they click on a track that has video, image or track content that content will appear in the Content Pane (and replace your Episode Description).

**If you don't want to display a specific episode that you'reworking on to the public yet:** (2) untick the 'Publicly viewable' box (2). AirNet will display the previous Episode of your program to the public until you retick the box for this episode.

### 14. Click 'Logout' to close your AirNet Admin page

It's very important you logout so others can't use it. You will be taken to the Public view of your AirNet page.

**Click around on your tracks and test out the content you've added**. Log in at anytime to make changes or add a new Episode.

## **Tips & Troubleshooting:**

**Minimum requirements for your web browser:** AirNet works on all major web browsers including Internet Explorer, Safari, Firefox, Chrome. The default browser settings work AirNet but you may have issues if you disable 'cookies' or 'javascript' or if you do not accept flash player. If you find you have troubles using AirNet on your home computer but it works fine at the station we recommend you update to the latest version of the webbrowser.

**If you accidentally put the wrong date on an episode:** (1) Click the pencil next to the Date and Time of that Episode. (2) A calendar will open indicating the date of the Episode. Click the correct date on the calendar and then click modify. This will shift the episode and playlist to the date you selected.

odif	y this	epis	ode's	date	, sta	rt tin

The Good Ship - These Are A Few Of My Favourite flings

*from Wikipedia...* Tubthumper is an album by the band Chumbawamba, and is the album that catapulted them into the mainstream, released by EMI Electrola GmbH and in the US by Universal Records. Many of the tracks address specific social issues, such as homelessness, the Liverpool Dockers' Strike or racism; a fair number of them express the anger and disgust of the B... <u>More</u>

## If you want to build your Playlist as you broadcast tracks but don't have time to select image, info and Video content:

After you add a track to your playlist click the <u>Hide Track Content</u> link on the top right of the Content Pane. After your show go back to the Episode, click a song on your playlist and Click the Display Track Content link on top right of content pane to see content search results.

**If you want to build your Playlist before your show:** Untick the 'Publicly Viewable' admin menu box before your show. You can use the EC Click the move icon to drag a Track up or down on the Playlist so you may just want to load in your Playlist before your show, choose some awesome content and then rearrange your Playlist as you air the Tracks in the studio. **Don't forget to go back to re-TICK the 'Publicly Viewable'** admin box during or after your show so the listeners can view your Episode online.
