

Installation manual for toilet seat and cover

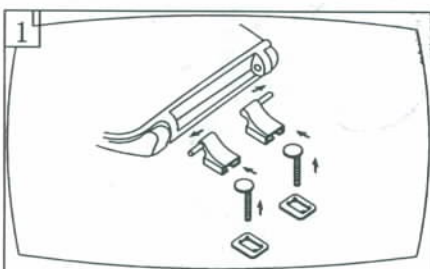

Note: This installation instruction is made for the final user.
In order to use the product well, please install it correctly.

The direction for the customer:

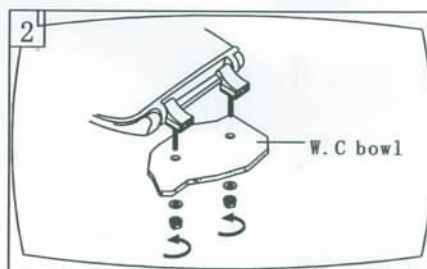

Thank you for using our products. In order to install our product easily, please take a close look to the manual book. Prepare all the needed tools and materials and be ready for installation.

①	nut	⑤	hinge
②	washer	⑥	seat cover
③	screw		
④	locating washer		

1. Take out the accessories of the seat cover ⑥ from the plastic carton box. Firstly, install hinge ⑤ into the hole of the seat cover ⑥. And install the screw ③ into the hole of the hinge ⑤, then put the locating washer ④ on the bottom of the hinge ⑤.

2. After finishing the installation of all the accessories according to picture 1, then aim the screw ③ of the hinge ⑤ at the installation hole of W.C bowl, and make sure the seat cover ⑥ be in perfect position with the W.C bowl. Then put on the washer ②, and screw down the nut ①.

Note:

1. Before installation, please check if all the accessories are all complete. If not, please contact with your local supplier.

2. Please take out all the accessories from the plastic carton box and keep them together before installation to avoid missing.

3. After installation, check if the seat and cover are firmly fixed. Do not wash with corrosive solvent, gasoline and turpentine or any other sharp and coarse materials to the finished and fixed product.
