QUICK START GUIDE

	Call button
	Volume adjustment ring
	Charge port
	Power button
	Music/Mute button
	Headset LED (indicator light)

Pairing your Mobile Phone or Tablet

- Put the headset on and turn the power button to on. You will hear the message "Power On".
- Long-press the call button until you hear the voice prompt "Pairing" as confirmation. The headset enters the pairing mode.
- Then switch on the "Bluetooth" function on your mobile phone or tablet and search for Bluetooth (-headset) devices.
- Select "Polaris BT"
- Once the devices have been paired successfully, there will be the voice prompt "Your headset is connected".

Note: If you disable the Bluetooth connection on your mobile phone or tablet, or move the headset out of range of the mobile phone or tablet you will hear the message "Your headset is disconnected."

When Bluetooth is reactivated on your device, or you move back into range you will hear the message "Your headset is connected".

Pairing a second device to your headset

- If you have already paired your Soundpro Bluetooth to another mobile device and wish to pair to a second device, activate the Bluetooth function on your second device and search for devices.
 - Long-press the call button until you hear "Pairing: your headset is disconnected".
 - On the second device you wish to pair to the Soundpro Bluetooth, select "Polaris BT" on the list of available devices. You will hear "Your headset is connected" to confirm when pairing to the second device is complete.
- Once both devices have been paired you can choose alternative use of either device to receive a call or listen to audio.

Mobile Call Control

Answer an incoming call

You will receive an audio notification in your ear when a call is incoming from a paired mobile phone. Short-press the call button to answer the call.

End a call

While a call is in progress Short-press the call button to end the call. You will hear a "Call Terminated" confirmation once the call is ended.

Reject a call

Long-press the call button to reject an incoming call.

Redial the last number you called

To redial the last number you called from your mobile phone, double-press the call button . You will hear the confirmation "last number redial" as your phone redials the previous number. Please note, this function will not work if the headset has an active connection with more than one device.

Mute

During a call, you can Short-press the mute button to mute the microphone. Sort press the mute button again to re-activate the microphone and disable mute mode.

Adjust the volume

You can adjust the listening volume of your Soundpro Bluetooth headset with the volume adjustment button on the headset. A tone will sound with each adjustment you make. A low-pitched tone indicates the volume is at the lowest setting, and a high-pitched tone indicates the volume is at the maximum level.

Audio Media Controls

Your headset supports playing audio files on A2DP-activated mobile phones. The following functions are available while listening to audio files from your mobile phone via your Soundpro Bluetooth headset:

Pause/Play an audio file

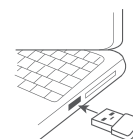

Short-press the Music/Mute button to pause the current audio file. Short-press the music button again to start playing the audio file again.

Skip to the next audio file

Double-press the Music/Mute button to skip to the next audio file in your current playlist or folder.

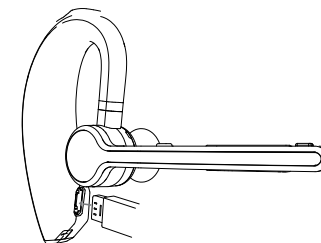

Connect to PC via USB Bluetooth Adaptor

- Download the Polaris Bluesound application from www.polaris.com.au and install it on your computer. You will need to restart your computer once the installation is complete.
- Plug the Polaris Bluetooth USB adaptor into a USB socket on the computer and open the application "BlueSoleil.exe". This will be located in C:\Program Files (x86)\Bluesound, unless you selected a different installation location during step 1.
- Long-press the call button until you hear "Pairing" or "Pairing: your headset is disconnected".
- Right-click on the Bluetooth icon in the centre of the Bluesound application and click "Search Devices"- the "Polaris BT" device will appear. Right-click on the "Polaris BT" device and select "Pair". The text "Paired" will appear in the bottom-left corner of the Bluesound application, and a beep will sound in the headset to confirm pairing was successful.
- Use the Audio Devices section of the Windows Control Panel to set the Polaris BT as the default Playback and Recording device.

Charging your Soundpro Bluetooth

We recommend using the supplied USB cable to charge your headset. Charging can be performed by plugging the USB cable into a computers USB socket, or via the supplied AC power adaptor.

USB cable to PC or USB wall charger
