Settings

Installing the Batteries

1. Press down in the direction of the arrow and remove the cover.

2. Install the batteries in the proper order as shown, matching the correct polarity.

3. Close the battery cover.

● Batteries are not included in the unit.
● Install three high quality "AA" Alkaline or Manganese batteries. We recommend to use Alkaline batteries.
   Battery life is: —about six months in use of Alkaline batteries.
                    —about three months in use of Manganese batteries.
● Make sure to install the batteries for the following features to operate properly:
   —Display (p. 5)
   —Buttons' function when the handset is on the cradle
   —Speakerphone (p. 13, 15)
   —Programming (p. 8)

Connecting the Handset/Telephone Line Cord

After connection, lift the handset to check for a dial tone.

≥Fax
≥Answering machine
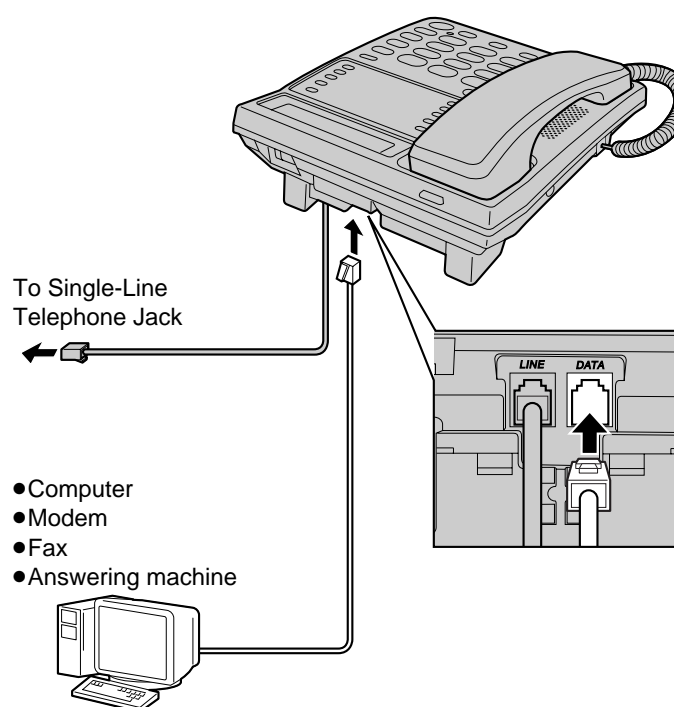

≥Make sure the communication device is not in use before using this unit (making calls, storing phone numbers in memory etc.) or the communication device may not operate properly.

Programming Summary of Preparations

You can program the following functions. The display shows the programming instructions. See the corresponding pages for function details.

Make sure that a call is not put on hold.

> Press (**PROGRAM**).

> Press (**MUTE**).

- **To set the call restriction,** press ①. (page 26)
- **To change the flash time,** press ②. (page 23)
- **To select the dialing mode,** press ③. (page 9)
- **To turn on/off music played during the hold,** press ④. (page 22)
- **To change the PIN code for the dial lock and call restriction,** press ⑤. (page 24)
- **To adjust the time,** press ⑥. (page 10)
- **To change the LCD contrast setting,** press ⑦. (page 11)

> Press (**PROGRAM**) to store the setting.

- You can exit the programming mode any time by pressing (**PROGRAM**).
- If you do not press any buttons for 60 seconds, the unit will return to the standby mode.

Selecting the Dialing Mode

You can select the dialing mode by programming. If you have touch tone service, set to "Tone". If rotary or pulse service is used, set to "Pulse". Your phone comes from the factory set to "Tone".

Make sure that a call is not put on hold.

1 Press (**PROGRAM**).

SP-PHONE/HEADSET and Indicator
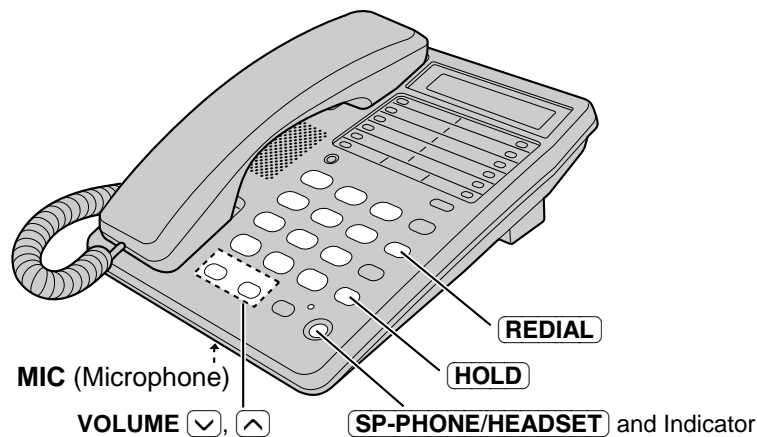

Using the speakerphone

1　Press SP-PHONE/HEADSET.
　　● The indicator lights.

2　Dial a phone number.
　　● The dialed number is displayed.
　　● After a few seconds, the display will show the length of the call.
　　● If you misdial, press SP-PHONE/HEADSET and start again from step 1.

3　When the other party answers, talk into the **MIC** (microphone).

4　To hang up, press SP-PHONE/HEADSET.
　　● The indicator light goes out.
　　● The display will return to the standby mode.

To redial the last number dialed

Using the handset: Lift the handset ➡ press REDIAL.

**Using the speakerphone:** Press SP-PHONE/HEADSET ➡
　　　　　　　　　　　　　　　　➡ press REDIAL.

Automatic Redial:
When using the speakerphone, the unit redials the last dialed number up to
15 times within a 10-minute period if the line is busy. During redial, the
SP-PHONE/HEADSET indicator light flashes.

13

➡ Making Calls

To adjust the handset volume (4 levels) or the speaker volume (8 levels) while talking

To increase, press **VOLUME** $\boxed{\wedge}$.

Ex. Handset volume level: 2

```
0000----
```

- One level of the handset volume is shown by "◻◻".
- The display shows the volume level for a few seconds.

To decrease, press **VOLUME** $\boxed{\vee}$.

Ex. Speaker volume level: 3

```
000-----
```
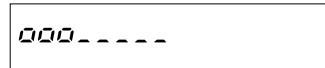

- One level of the speaker volume is shown by "◻".
- The display shows the volume level for a few seconds.
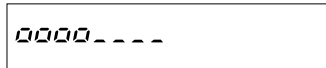

To put a call on hold
Press $\boxed{\text{HOLD}}$.

- The SP-PHONE/HEADSET indicator light flashes.
- If using the handset, you can place it on the cradle.
- During the hold, the caller will hear music. For canceling music, see page 22.

To release the hold

If the handset is on the cradle, lift the handset.
If the handset is off the cradle, press $\boxed{\text{HOLD}}$.
If using the speakerphone, press $\boxed{\text{SP-PHONE/HEADSET}}$.

- If another phone is connected on the same line, you can also release the hold by lifting its handset.

During speakerphone operation

For best performance, please note the following:
- Talk alternately with the other party in a quiet room.
- If the other party has difficulty hearing you, press **VOLUME** $\boxed{\vee}$ to decrease the speaker volume.
- You can switch to the handset by lifting it up. To switch back to the speakerphone, press $\boxed{\text{SP-PHONE/HEADSET}}$.

- When you dial a phone number in using pulse line or lift the handset off the cradle, the Ringer indicator also flashes. This is normal.

Answering Calls

While a call is being received, the unit rings and the ringer indicator flashes. You can answer it by simply lifting the handset.

Ringer Indicator

MIC

(SP-PHONE/HEADSET) and Indicator
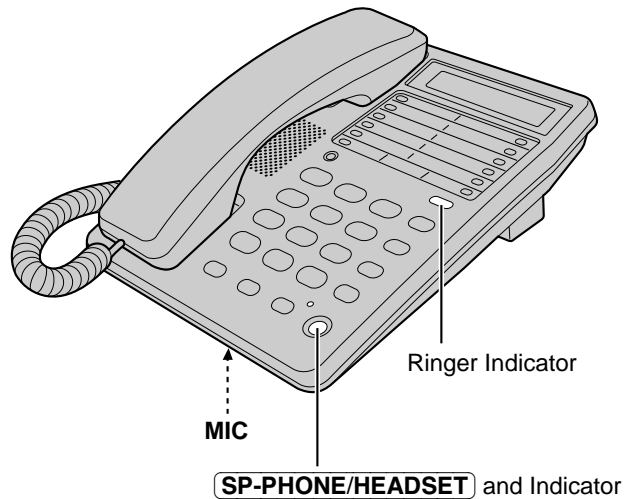

Using the speakerphone

1 Press (SP-PHONE/HEADSET).

   ● The indicator light goes out.

To adjust the headset receiver volume (4 levels):

While using the headset, press **VOLUME** $\vee$ or $\wedge$.

● During a conversation using the headset, you cannot switch the call to the handset by lifting it off the cradle.
● If you disconnect the optional headset during a conversation with the handset on the cradle, the call will be switched to the speakerphone.
● During a conversation using the speakerphone, you can switch the call to the headset by connecting the headset.

28

Battery Replacement

If " ⭤ " flashes, the battery power is low. Install new batteries. Replace the batteries within 1 minute to keep the programmed settings.
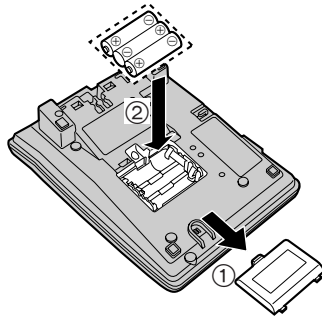

1. Press down in the direction of the arrow and remove the cover.

2. Replace the batteries with new ones using correct polarity (+, −), and close the cover.

● If the time is shown as "12-00" and " ⏱ " flashes after replacing the batteries, readjust the time.
● Please replace the batteries while the handset is placed on the cradle.

Battery Precautions:
The batteries should be used correctly, otherwise the unit may be damaged by battery leakage.
—Do not mix different types of batteries.
—Do not charge, short-circuit, disassemble, heat or dispose of in fire.
—Remove all the batteries when replacing.

Note:
—If you do not install the batteries or if the battery power is low, the time will be shown as "12-00" and " ⏱ " will flash. Readjust the time.
—Disconnect the telephone line cord before opening the battery compartment cover.
—Replace all the batteries once a half year in use of Alkaline batteries, or misoperation may occur. (When you use Manganese batteries, replace all of them once in three months.)
—Do not use nickel-cadmium batteries.

Before Requesting Help

Problem	Remedy
The unit does not work.	• Check the settings (p. 6–12). • Remove the batteries and reinstall them to reset the unit.
The unit does not ring.	• The RINGER selector is set to OFF. Set to HIGH or LOW (p. 11).
You cannot dial.	• Check that the dialing mode selection is correct (p. 9). • Dial lock mode is set. To cancel the mode, see page 25. • The dialed number is restricted. To cancel, see page 27.
The other party suddenly cannot hear your voice during a conversation.	• **MUTE** may have been pressed during the conversation. If " ⊠ " is displayed, press **MUTE**.
You cannot program items such as the dialing mode.	• Programming is not possible when a call is put on hold. • Do not pause for over 60 seconds while programming.
You cannot store a phone number in memory.	• Programming is not possible when a call is put on hold. • Check that the batteries are installed in the unit and that the battery power is not low. • Do not enter a phone number more than 22 digits long.
While programming, the unit starts to ring and stops the program.	• To answer the call, lift the handset or press **SP-PHONE/HEADSET**. Start again from the beginning after hanging up.
You cannot redial by pressing **REDIAL**.	• If the last number dialed was more than 32 digits long, the number will not be redialed correctly.
Previously programmed information is erased.	• If the batteries installed in the unit expire, programmed information may be erased. Reprogram if necessary.

Safety Instructions

Take special care to follow the safety suggestions listed below.

Installations
Environment
1) Do not use this unit near water—for example, near a bathtub, washbowl, sink, etc. Damp basements should also be avoided.
2) The unit should be kept away from heat sources such as radiators, kitchen range, etc. It also should not be placed in rooms where the temperature is less than 5°C or greater than 40°C.

Placement
1) Do not place heavy objects on top of this unit.
2) Care should be taken so that objects do not fall onto, and liquids are not spilled into, the unit. Do not subject this unit to excessive smoke, dust, mechanical vibration or shock.
3) Place the unit on a flat surface.

Lightning surge
This unit has already been equipped with a built-in lightning protection circuit. However, we recommend that you install lightning protection on the telephone line, if your area has a high incidence of lightning strikes.

CAUTION:
To reduce the risk of fire or injury to persons, read and follow these instructions.
1. Use only the battery(ies) specified.
2. Do not dispose of the battery(ies) in a fire. It (they) may explode.
3. Do not open or mutilate the battery(ies). Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
4. Exercise care in handling the battery(ies) in order not to short the battery(ies) to conductive materials such as rings, bracelets, and keys. The battery(ies) and/or conductor may overheat and cause burns.
5. Do not recharge the battery(ies) provided with or identified for use with this product. The battery(ies) may leak corrosive electrolyte or explode.
6. Do not attempt to rejuvenate the battery(ies) provided with or identified for use with this product by heating. Sudden release of battery electrolyte may occur causing burns or irritation to the eyes or skin.
7. Replace all batteries at the same time. Mixing fresh and discharged batteries could increase internal cell pressure and rupture the discharged batteries. (Applies to products employing more than one separately replaceable primary battery.)
8. When installing batteries observe the proper polarity or direction. Incorrect installation can cause charging, and may result in leakage or explosion. (Applies to products employing more than one separately replaceable primary battery.)
9. Remove the battery(ies) from this product if the product will not be used for a long period of time (several months or more). During this time the battery(ies) could leak in the product.
10. Discard the "dead" battery(ies) as soon as possible. The "dead" battery(ies) may leak in the product.
11. Do not store this product, or the battery(ies) provided with or identified for use with this product, in high temperature areas. Batteries that are stored in a freezer or refrigerator for the purpose of extending shelf life should be protected from condensation during storage and defrosting. Batteries should be stabilized at room temperature prior to use after cold storage.

Useful Information

WARNING:
TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.

If there is any trouble, disconnect the unit from the telephone line and connect a known working phone. If the known working phone operates properly, do not reconnect the unit to the telephone line until the trouble has been repaired. If the known working phone does not operate properly, consult your telephone company.
