- record scramble program and descramble program
- Lock/Delete/Rename,Preview playback, Browse record files information
- Play/Pause/Stop
- Fast Forward/Fast Backward 2/4/8/16/32,

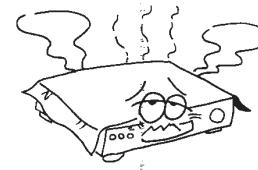
GENERAL INFORMATION

For Your Safety

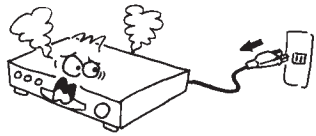
• To avoid electric-shock hazards, do not open the cabinet, refer servicing to qualified personnel only.

• Keep the receiver away from flower vases, tubs, sinks, etc., in order to avoid damaging the equipment.

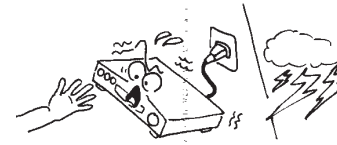
• Do not expose the receiver un-der the sunlight. And keep it away from the heat source.



• Do not block ventilation holes of the Receiver so that air can circulate freely.



• When the abnormal phenomenon occur, you should cut off the power immediately.



• Do not touch the receiver during thunder, since that might create electric-shock hazards.

• Switch the receiver off whenever it remains out of service for an extended period.

• Be sure to turn the Receiver off and disconnect the AC power cord before cleaning the Receiver surface. If the surface is dirty, wipe clean with a cloth which has been dipped in a weak soap-andwater solution and wrung out thoroughly, and then wipe again with a dry cloth.

GENERAL INFORMATION

Unpacking (optional)

- Remote Control
- Batteries
- User's manual

General Operation

• Throughout this manual you will notice that the everyday operation of the receiver is based on a series of user friendly on screen display and menus. These menus will help you get the most from your receiver, guiding you through installation, channel organizing, viewing and many other functions.

• All functions can be carried out using the buttons on the RCU, and some of the functions can also be carried out using the buttons on the front panel.

• The receiver is easy to use, always at your command and adaptable for future advances.

• Please be aware that new software may change the functionality of the receiver.

• Should you experience any difficulties with the operation of your receiver, please consult the relevant section of this manual, including the Problem Shooting, or alternatively call your dealer or a customer service adviser.

TROUBLE SHOOTING

Problem	Possible causes	What to do
The display on the front panel does not light up.	Main cable is not connected.	Check that the main cable is plugged into the power socket.
No sound or picture, but the front panel shows red light.	The receiver is in standby mode.	Press the standby button.
No sound or picture.	No signal or weak signal.	Check the cable connections, antenna and other equipment connected between the antenna and the receiver.
Bad picture / blocking error.	Signal is too strong.	Connect a signal attenuator to the antenna input.
	Antenna noise factor too high.	Change to an antenna with lower noise factor.
	The antenna is faulty.	Change the antenna.
The picture is not displayed on the screen, when switching on.	The system is connected by RF leads.	Check the UHF channel fixed in your system and tune the UHF channel properly.
There is interference on your terrestrial program or video signal.	The system is connected by RF leads and the output program of the receiver interferes with an existing terrestrial programs or Video signal.	Change the receiver output program to a more suitable program, or connect the system by SCART leads.
The RCU is not working.	Battery exhausted.	Change the batteries.
	RCU is incorrectly aimed.	Aim RCU at the receiver, or check that nothing blocks the front panel.

• Note : If you have tried all of the actions suggested above, without solving the problem, please contact your dealer or a customer service adviser.
