

**RÖNNQVIST****Boat (top) cleaner**

## Boat (top) cleaner - Operating instructions

1. Spray unmixed or blended max 1 - 10, on the boats surfaces that are over the waterline.
2. Wait for 1 - 2 minutes! (Don't let the cleaner dry!).
3. Rinse properly with water and brush or power washer.
4. The unmixed cleaner removes the old wax lair, and we recommend that you use Rönqvist waxing boat cleaner afterwards!

### Warnings:

1. Very effective - don't use on sensitive surfaces! (Test on small surface to be safe).
2. Use gloves and eyewear if risk for splatter!

### Tips:

1. Wash the boat in stages. Then it doesn't have a chance to dry.
2. For normal wash, waxing boat cleaner usually does the job.

## Label:
